PUBLIC ACCOUNTS

OF THE

PROVINCE OF ONTARIO

FOR THE

YEAR ENDED 31ST DECEMBER,

1899.

PRINTED BY ORDER OF

THE LEGISLATIVE ASSEMBLY OF ONTARIO.

TORONTO:

WARWICK BRO'S & RUTTER, PRINTERS, &C., &C., 68 AND 70 FRONT STREET WEST.

1900.

To His Honour the Honourable Sir Oliver Mowat, K.C.M.G.,

Lieutenant-Governor of Ontario.

May it Please Your Honour:

The undersigned has the honour to present to your Honour the Public Accounts of the Province of Ontario for the year ending 31st December, 1899.

Respectfully submitted,

GEO. W. ROSS,

Treasurer.

Treasury Department, Ontario,

Toronto, February 7th, 1900.

PROVINCIAL AUDITOR'S REPORT.

PROVINCIAL AUDITOR'S OFFICE,
TORONTO, February 7th, 1900.

To HON. GEO. W. ROSS,
Treasurer of Ontario:—

I have the honor to present to you the Public Accounts for the year ended 31st December, 1899.

For the information of the Legislative Assembly, I beg to report the following over expenditures of appropriations as granted by the Supply Bill.

OVEREXPENDITURES AUTHORIZED BY THE TREASURY BOARD.

Legislation—Stationery, Printing and Binding	$33,145 63
Library	872 36
Salaries	3,030 00

TORONTO, 6th May, 1899.

The undersigned respectfully reports to His Honour, the Lieutenant-Governor-in-Council:

That the appropriation for Legislative printing and binding has become ehxausted, owing to the large amonnt of work in connection with the printing of last Session.

The undersigned therefore respectfully requests that authority be given the Honourable the Provincial Treasurer, under the Act R. S. O. 1887, cap. 21, sec. 20, to pay the accompanying certificate, viz., $10,000.00 on acconnt.

The vouchers in my possession show a balance due after last payment of $8,836.84, in addition to April accounts for work actually completed and delivered of $3,500, and of further work to the amount of about $4,000 which is almost completed.

Your obedient servant,

(Sd) LUD. K CAMERON,
Queen's Printer.

O. H. SPROULE, Esq.,
Provincial Auditor.

Approved,
(Sd) R. HARCOURT.

LEGISLATIVE LIBRARY,
25th October, 1899.

The undersigned respectfully reports to His Excellency the Lieutenant-Governor-in-Council :

That the appropriation for the purchase of books for the Legislative Library has been exhausted.

That unusual opportunities have presented themselves of acquiring at advantageous prices some very important publications which it is necessary for the Library to have, such as a complete set of the Reports of the British Historical Manuscripts Commission, 32 Vols., at £18.18, a set of indexes to the London Times, from 1890 to 1891, £18.10 ; a set of United States Supreme Court Reports, 175 vols., $150, etc. In addition to the accounts for these books, the undersigned respectfully submits a number of accounts which are individually small and might for the convenience of tradesmen better be paid now than carried over to next year.

The undersigned therefore respectfully recommends that authority be given to the Provincial Treasurer under R.S.O., 1897, Cap. 23, Sec. 20, to pay the accounts hereto attached, amounting to $543 01 and £67.12.

(Sd) AVERN PARDOE.

Approved
G. W. Ross,
Provincial Treasurer.

The undersigned has the honour to report that in consequence of the extra expenditure incurred by reason of the large amount of printing and binding, the appropriation for Legislation is insufficient and that a further sum of $3,030.00 is required to meet pay lists of officials and extra writers for the balance of the year.

The undersigned therefore respectfully recommends that pursuant to the provisions of section 20, Chap. 23, R.S O. 1897, a warrant for the sum of $3,030 00 be issued in favor of the undersigned for the payment of the salaries in the said pay lists mentioned.

Sd) G. W. ROSS,
Provincial Treasurer.

16th November, 1899.

Education—Superannuated Teachers	1,383.25
Departmental Examinations	1,265 48
Public School Leaving and Continuation Classes	2,113 53
Kindergarten Schools	321.73
Inspection of Schools	2,270.00

TORONTO, July 4th, 1899.

The undersigned respectfully reports to His Honour the Lieutenant-Governor-in-Council that the sum appropriated for the sub-service of "Superannuated Teachers" is exhausted, and as it is necessary that the allowances of worn out teachers should be paid without delay, the undersigned respectfully recommends that authority be given under the Act, 49 Vic., Cap. 4, Sec. 20, for appropriating a further sum of $975.25 to meet the payment of attached schedules.

(Sd) G. W. ROSS,
Minister of Education.

TORONTO, 3rd November, 1899.

The undersigned respectfully reports to His Honour the Lieutenant-Governor.in-Council.

That the sum appropriated for the sub-service of Superannuated Teachers is exhausted, as well as the additional amount requested for this service by Order on Treasury Board of July 4th last. As it is necessary that certain allowances due on account of deceased superannuated Teachers and others should be paid without delay, the undersigned respectfully recommends that authority be given under the Act 49 Vict., Cap. 4, Sec. 20, for appropriating a further sum of $408, to meet the payment of accompanying Schedules for that amount.

(Sgd) R. HARCOURT,
Minister of Education.

TORONTO, 8th November, 1899.

The undersigned respectfully reports to His Honour the Lieutenant-Governor-in-Council.

That the sum appropriated for the sub-service of "Departmental Examinations" is insufficient for the current year, and that after providing for the payment of salaries to the end of the year and some accounts now in the Treasury and Queen's Printer's Departments, a further amount of $973.53 is required for the sub-service.

The undersigned therefore recommends that authority be given under the Act 49 Vict., Cap. 4, Sec. 20, for payment of the accompanying certificates amounting to the above sum.

(Sgd) R. HARCOURT,
Minister of Education.

TORONTO, 22nd November, 1899.

The undersigned respectfully reports to His Honour the Lieutenant-Governor-in-Council.

That the sum appropriated for the payment of grants for Public School Leaving and Continuation Classes is exhausted with the exception of a small balance of $16.47, and a number of grants due remain unpaid.

As it is most desirable that the schools claiming these grants should receive them without delay, the undersigned respectfully recommends that authority be given under the Act 49 Vict., Cap. 21, Sec. 20, for appropriating a further sum of $2,113.53 to meet the deficiency as per accompanying schedules.

(Sgd) R. HARCOURT,
Minister of Education.

TORONTO, 23rd November, 1899.

The undersigned respectfully reports to His Honour the Lieutenant-Governor in Council:

That the sum appropriated for the sub-service of "Departmental Examinations" is exhausted, as well as the additional amounts requested by Order on the Treasury Board on November 8th inst., with exception of sufficient funds to pay salaries due for December, prox.

As there remain a few accounts for services, expenses and supplies, unpaid, but which should be settled this year, the undersigned recommends that the sum of $291.95 be granted under the Act R.S.O., 1887, Cap 21, Sec. 20, to meet the deficiency as per accompaning certificates.

(Sgd) R. HARCOURT,
Minister of Education.

TORONTO, 28th November, 1899.

The undersigned respectfully reports to His Honour the Lieutenant-Governor-in-Council:

That the amount appropriated for the sub-service "Kindergarten Schools" for the current year is insufficent to meet the grants due the Schools by the sum of $321.73, notwithstanding that the rate of payment has been reduced from 75 cents to 65 cents per unit of average attendance. The undersigned therefore recommends that authority be given under the Act 49 Vict., cap. 4, sec. 20, for appropriating the sum of $321.73 to meet the balance of grants due at the reduced rate as per accompanying statement and certificate.

(Sgd) R. HARCOURT,
Minister of Education.

TORONTO, December 18th, 1899.

The undersigned respectfully reports to his Honour the Lieutenant-Governor-in-Council:

That the Legislative appropriation for the sub-service of "Inspection of Public Schools" for current year is insufficient to meet the necessary demands upon it, and a further sum of $2,270 is required to meet the balance of grants due for inspection in Cities and Towns separated.

The undersigned therefore respectfully recommends that authority be given under the Act 49 Vict., cap. 4, sec. 20, for appropriating the further sum of $2,270 as above, to meet the payment of accompanying Schedule for that amount.

(Sgd) R. HARCOURT,
Minister of Education.

Public Institutions Maintenance:	Toronto, L. A.....	585 36
	Kingston, L. A.....	917 64
	Orillia, L. A.....	770 16
	Central Prison..... ...	1,395 93

TORONTO, December 29th, 1899.

SIR,—I beg to report that the appropriation for maintenance of Toronto Asylum for the current year has proved insufficient, and the sum of $585.36 will be required to pay accounts necessarily incurred.

The strictest economy has been practised and the overdraft has been occasioned by the increased cost of fuel and food supplies.

I would therefore beg to recommend the issue of a Treasury Board Warrant for the said sum of $585.36 to cover the expenditure for the current year.

I have the honor to be, sir,

Your obedient servant,

(Sgd) R. CHRISTIE,

Inspector.

Approved.

(Sgd) J. R. STRATTON,

Provincial Secretary.

C. H. SPROULE, ESQ.,

Provincial Auditor.

TORONTO, 29th Dec., 1899.

SIR,—I beg to report that the appropriation for the maintenance of Kingston Asylum has not been sufficient to meet the necessary expenditure for the current year. Supplies and goods only have been purchased which were necessary, and rigid economy has been observed in the use of all commodities required by the Institution. Notwithstanding this, there is an outlay to meet over the amount of the appropriation of $917.64, and I therefore beg to recommend the issue of a Treasury Board Warrant for this amount, to cover the expenditure for the current year.

I have the honor to be, sir,

Your obedient servant,

(Sgd.) R. CHRISTIE,

Inspector.

Approved

(Sgd.) J. R. STRATTON,

Provincial Secretary.

C. H. SPROULE, ESQ

Provincial Auditor.

TORONTO, Dec. 28th, 1899.

SIR,—I beg to report that the appropriation for the maintenance of the Orillia Asylum for the current year has, after the most careful economy, proved insufficient, and that the sum of $770.16 is required to complete payment of the official salaries for the month of December.

I would, therefore, recommend that authority be given under the Act, R.S.O , 1897, chapter 23, section 20, for payment of above amount.

I have the honor to be sir,
Your obedient servant,
(Sgd.) JAMES NOXON,
Inspector.

Approved,
J. R. S.
C. H. SPROULE, ESQ ,
Provincial Auditor.

———

TORONTO, 30th December, 1899.

SIR,—I beg to report that the appropriation for the maintenance of the Central Prison for the current year is exhausted, the amount appropriated for the purpose being insufficient to meet necessary requirements, and that the sum of $1,395.93 is required to complete payment of the official salaries for the present month.

I would, therefore, recommend that authority be given under the Act R.S.O. 1897, chapter 23, section 21, for payment of above amount.

I have the honor to be, sir,
Your obedient servant,
(Sgd.) JAMES NOXON,
Inspector.

Approved,
J. R. S.
C. H. SPROULE, ESQ.,
Provincial Auditor.

———

Agriculture 8,406 87

TORONTO, December 26, 1899.

To His Honour the Lieutenant-Governor-in-Council:

The undersigned has the honour to report, that in consequence of the overexpenditure of the grant for the extermination of the San José Scale, the appropriation for "Agriculture" is insufficient, and that the following accounts remain unpaid:—

Agricultural College and Farm:—	
December pay lists	$2,971 02
Eastern and Western Dairy Schools:	
Salaries and maintenance, month ending 15th December	1,172 74
San José scale accounts	586 63
Fruit Experiment Stations	935 16
Superintendent of Fruit Spraying, services and expenses	427 02
Farmers Institutes:—	
Allowance for travelling expenses of Lecturers in January, 1900	1,870 00
	$8,406 87

The undersigned respectfully recommends, therefore, that authority be given under cap. 23, sec. 20, R.S.O., 1897, for the payment of the accounts set forth above.

(Sgd.) JOHN DRYDEN,
Minister of Agriculture.

Repairs and Maintenance, New Parliament Buildings..... 1,777 91

DEPARTMENT OF PUBLIC WORKS,
TORONTO, December 20th, 1899.

The undersigned begs to report to His Honour, the Lieutenant-Governor-in-Council:

That the Maintenance appropriation for the New Parliament Buildings is exhausted and therefore respectfully recommends that authority be given under Act R. S. O. 1897, cap. 23, sec. 20, to issue a warrant for the sum of one thousand seven hundred and seventy-seven dollars and ninety-one cents, ($1,777.91) to cover the following accounts, namely:—

Wm. Houston, salary for 1899		$250 00
Crystal Ice Co, account for November		23 20
The Incandescent Light Co., Nov. power	$32 79	
The Incandescent Light Co., Nov. light	369 55	
		402 34
Wm. McGill & Co., fuel account, Aug.	116 57	
do " Sept. & Oct.	720 93	
do " Nov.	264 87	
		1 102 37
		$1,777 91

(Sgd.) F. R. LATCHFORD,
Commissioner Public Works.

Public Buildings—Brockville Asylum 1,229 92
"Farraday Hall" Cobourg 318 93

DEPARTMENT OF PUBLIC WORKS, ONTARIO,
TORONTO, 28th November, 1899.

The undersigned begs to report to His Honour, the Lieutenant-Governor-in-Council:

That the capital appropriation for the Asylum for the Insane at Brockville is exhausted, in consequence of providing additional accommodation for patients in the attic of said building, and therefore recommends that authority be given under Act R. S. O, 1897, cap. 23, sec. 20, to issue a warrant for the sum of $1,229.92 to cover payments of the following accounts, namely:—

The James Robertson Co., material	4 80
A. G. Dobbie & Co., hardware	42 26
W. P. Dailey for Thomas Mallon, carting	4 00
The Dominion Radiator Co,, radiators	239 24
The Rathbun Co., lumber and cement	327 00
R. P. Smart, metal ceilings, locks, etc	449 62
Geo. G. Booth, painting	163 00
	$1,229 92

(Sgd.) F. R. LATCHFORD,
Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS, ONTARIO.
TORONTO, 12th DECEMBER, 1899.

The undersigned begs to report to His Honour, the Lieutenent-Governor-in-Council :

That having reference to an Order-in-Council of September 23rd, 1899, authorizing "certain repairs to the brick work of 'Farraday Hall,' Cobourg, a quantity of which has fallen, thereby indangering the stability of the building", etc., he recommends that authority be given under Act R. S. O. 1897, cap. 23, sec. 20, to issue a warrant for the sum of $318 93 to cover payment of the following accounts, viz.:—

Secretary of Public Works, for three pay lists, work	$199 52
Secretary of Public Works, R. P. Fairbairn expenses	4 45
W. R. Whitelaw, galvanized iron work	13 54
George Spence, cement and lime	12 43
M. Jex & Company, brick	35 00
P. E. Delanty, stone	28 75
John Woods, teaming, sand, etc.	7 75
Maurice Jaynes, glass	17 49
	$318 93

(Sgd) F. R. LATCHFORD,
Commissioner of Public Works.

Refunds—Crown Lands 4,993 79

TORONTO, 25th September, 1899.

The undersigned respectfully reports to His Honour, the Lieutenant-Governor-in-Council :

That the appropriation for "Crown Lands Refunds" is exhausted, and would therefore recommend that under Act R. S. O., 1897, cap. 23, sec. 20, a warrant should issue for the sum of twenty-two hundred and twenty-eight dollars to meet the requirements of the accompanying memo.

(Sgd) J. M. GIBSON,
Commissioner of Crown Lands.

TORONTO, 2nd November, 1899.

Sir,—The appropriation for "Crown Lands Refunds" being exhausted, I would recommend that authority be given under the Act R. S. O., 1897, cap. 23, sec. 20, for payment of the several amounts mentioned in the attached schedule, in all $1,269.80.

(Sgd) E. J. DAVIS,
Commissioner.

C. H. SPROULE, Esq.,
Provincial Auditor.

TORONTO, 28th November, 1899.

Sir,—The appropriation for "Refunds," Crown Lands, being exhausted, I would recommend that under authority of Act R. S. O., 1897, chapter 23, sec. 20, a warrant issue for the sum of fourteen hundred and ninety-five dollars and ninety-nine cents in order that payment may be made of the several sums of which it is composed, as set forth, in the accompanying schedule.

E. J. DAVIS,
Commissioner of Crown Lands.

C. J. SPROULE, Esq.,
Provincial Auditor.

REPORT OF THE COMMISSIONER OF CROWN LANDS FOR THE YEAR 1899.

To His Honour the Honourable Sir Oliver Mowat, G. C. M. G., *Lieutenant-Governor of the Province of Ontario.*

May It Please Your Honour:

In compliance with the law, I have the honor to submit for your information and that of the Legislative Assembly, a report on the management of the Crown Lands of the Province of Ontario for the year ending 31st December, 1899.

Crown Lands.

The area of Crown lands sold during the year was 69,279 acres, having a total value of $95,949.50. On account of these sales and those of former years there was collected the sum of $87,286.72. Under the provisions of the Mines Actfor the leasing of Crown lands for mining purposes, there were leased 63,258 acres, and the rental received for same and lands already under lease amounted to $111,169.32.

The total collections on account of Crown lands sold and leased were $198,456.04. See Appendix No. 3, page 5.

A comparison with the receipts from the same source during 1898 will show a large increase over that year, amounting to $91,908.57, or about 86 per cent. As in 1898, the greater part of the receipts has been on account of lands sold and leased for mining purposes. The activity which began to be manifested in mining matters in Ontario in the year 1896 has by no means spent its force, and the result of it has been to materially increase the revenue derived from the disposal of land for mining purposes. With the exception of the year 1897, when the receipts were unusually large, the income from mining lands for 1899 was greater than for any year since 1890.

Clergy Lands.

The area of Clergy lands sold during the year was 803 acres, having a value of $731. The amount collected on these and former sales was $3,625.93. See Appendix No. 3, page 5.

Common School Lands.

The area of Common School lands sold during the year was 173 acres, with a value of $740.15. The amount collected on account of these and former sales was $9,179.59. See Appendix No. 3, page 5.

Grammar School Lands.

There were sold during the year 100 acres of Grammar School lands, having a value of $200. The amount collected on account of these and former sales was $1,737.90. See Appendix No. 3, page 5.

Railway Lands.

The collections on account of lands sold under the Railway Aid Act, 52 Victoria, chap. 35, amounted to $78.93. See Appendix No. 3, page 5.

University Lands.

The area of University lands sold and leased was 3,953 acres, equal in value to $4,848. On account of these and lands previously sold and leased there was collected the sum of $3,619.46. See Appendix No. 3, page 5.

Collections and Revenue.

The total collections of the Department on account of all sources of revenue were $1,315,368.02. See Appendix No. 4, page 6.

Disbursements.

The total disbursements of the Department were $314,391.03. In this amount are included the following sums: Diamond drill, $1,469.33; Mining Development, $10,269.60; Mining Schools, $9,866.49: Mining Roads, $7,463.66. Payments out of Iron Mining Fund, $8,647.19: Refunds, $44,546.94. See Appendix No. 6, pages 19, 20, 21.

Free Grants.

There are 163 townships open for location under the Free Grants and Homesteads Act, the same number as in 1898. During the year there have been 633 persons located for 85,194 acres of land, and 59 locatees have purchased 2,379 acres; 291 patents were issued to locatees who had fulfilled the conditions of settlement called for by the Act. See Appendix No. 10, page 25

Colonization Roads.

The work done in 1899 was as follows:—Miles of new colonization roads made, 108; miles of road repaired, 441; 3,094 lineal feet of bridging constructed representing some twenty structures. There were also built 14 miles of new mining roads; miles repaired, 33. The work done has been carefully inspected, and reported to be of a satisfactory and substantial character. The net expenditure was $97,927.75, particulars of which will be found in the report of the Superintendent of Colonization Roads, Appendix No. 34, page 61.

The Mining Industry.

The development of the mining industry of the Province continues to go on steadily. The largeness of the receipts from the sale and lease of mining lands is of itself sufficient to indicate the confidence of miners and capitalists in the permanency and profitableness of the mining business in this Province. The output of gold during the year 1899 was 27,594 ounces, worth $424,568, an advance of 11,333 ounces in weight and $149,490 in value over the yield of 1898, notwithstanding that several of the largest mines, mainly for reasons connected with future operations, contributed little towards the year's product. Thus, the Sultana, with 30 stamps, has crushed very little ore since it passed into the hands of an English company last summer, though underground work has been actively carried on. The Olive ran its mill for a short time only, operations being for the most part suspended during the process of adding 15 stamps to its equipment. The Foley and Regina have also been idle for all or most of the year, though it is understood that both are likely to resume work in the near future. The Hammond Reef 40-stamp mill is also expected to begin work early in 1900, and will commence in earnest the exploitation of one of the large dikes or bodies of low-grade ore which are characteristic of our western gold fields. The Mikado and Golden Star have run steadily throughout the year, the former especially giving good results. In Eastern Ontario the mispickel mine at Deloro, and the free-milling quartz property of the Cordova Mining Company in Belmont have also been producing bullion on a considerable scale.

There have been some noteworthy developments in the iron mining business during the year. Important discoveries have been made in the Michipicoten Mining Division, and preliminary work done on one deposit of brown hematite ore at Boyer Lake has shown it to be of great extent and good quality. A railway has been built to connect the mine with a shipping point at Little Gros Cap on Lake Superior. It is intended, if all the plans at present projected by the parties interested are carried out, to smelt the ore at Sault Ste. Marie and also at Midland, where blast furnaces are being erected, and probably at other places. The iron ranges of the Mattawin and Atik-okan rivers are to be further explored, and are likely to become the site of producing mines, now that the Ontario and Rainy River Railway, in course of construction, will afford the ores an outlet. In the County of Hastings, and along the line of the Kingston and Pembroke Railway a number of iron mines have been re-opened and are worked for the purpose of supplying ore to the blast furnace at Hamilton.

The production of iron ore during the year amounted to 16,911 tons, and the output of pig iron was 64,749 tons, worth $808,157. On account of ore raised and smelted in the Province there has been paid out of the Iron Mining Fund the sum of $8,647.19.

There has also been much activity in the nickel-copper district of Sudbury. The Canadian Copper Company had seven smelters going at the close of the

year and their output of matte is returned as equal to 5,744,000 lbs. fine nickel· worth $526,104, and 5,668,000 lbs. fine copper, worth $176,237, these figures being for the unrefined metals in the matte. One or two other concerns have acquired mining properties in the district and contemplate the erection of plants for the treatment of ores on a considerable scale.

The condition of the mining industry is very closely related to the prosperity and progress of the agricultural community or communities of New Ontario. The market for the animal and vegetable products of the farm which is provided by the operations of the great lumber companies engaged in cutting and removing the pine and other timber from the land, has its counterpart in the demand for the same class of supplies to which a successful mining industry gives rise. For everything a farmer can grow or raise a mining camp furnishes a ready market, usually at good prices. Thus the three great natural industries of Ontario, lumbering, mining and agriculture, may be said to be inter-dependent, or at least the two former are linked to the last by strong ties of common interest. This fact has an important bearing upon the welfare of the farmers of New Ontario, and the circumstance of the arable lands of the newer districts being scattered throughout the lumbering and mining districts, instead of occurring in more compact areas, is not without its compensating advantages, in that it secures to the farmer certain and easy access to first-rate markets for his products.

The Unexplored Crown Domain.

The vast extent of the Crown domain in this Province is yet largely an unknown land, and the great, triangular-shaped tract which has its base on the height of land, its apex on James Bay, its western side on the Albany River, and its eastern side on the boundary between Ontario and Quebec, has as yet been little explored. Our knowledge of the character of its soil, the kinds of timber prevailing there and their value, the geological formations which constitute or underlie the surface, and the existence or non-existence of valuable mineral deposits, the possibility of raising and ripening crops of grain and of breeding cattle and sheep; in short, of the whole range of facts upon which the usefulness and value of the territory and its capability of supporting a large population depend, is very limited indeed. Those portions of New Ontario which are contiguous to the line of the Canadian Pacific Railway have been laid open to the enterprising explorer, who, aided by the network of waterways which nature has provided for his accommodation, can operate easily and over large areas of territory with the railway as his base of supplies. The search for gold, iron, nickel and other minerals has brought to light many facts concerning the natural resources of Newer Ontario, besides defining in a number of localities the limits and belts in which ore bodies of value are more likely to occur, it has thrown much light on the agricultural and pastoral capabilities of the areas explored, has made known the conditions of the forest growth, revealed the presence of

valuable water powers, and in other ways contributed to our stock of information respecting the wild lands of the Province.

Not less valuable have been the results of the direct explorations made from time to time by this Department and the Bureau of Mines under the direction of experienced surveyors and competent geologists, whose reports have been published in the annual volumes of the Department and the Bureau. These expeditions have accumulated a store of facts, considerable in extent and reliable in character. They have shown that the resources of New Ontario in soil, minerals, timber, water powers and the other raw materials of civilization are extensive and valuable, and while not indicating the existence of an Eldorado are yet sufficient to warrant the belief that the northern and western portions of Ontario are quite capable of becoming the home of a hardy, thrifty and prosperous people, many millions in number.

The climate of northern Ontario is not unlike that of northern Europe, and its soil also is equal to that of many thickly peopled portions of the old world while extensive spruce and pine forests and large deposits of gold, iron, nickel and copper ores are provided by nature to form the basis of large industrial enterprises into whose service many of the water powers which abound there will no doubt some day be largely brought.

The public interest which has been manifested in the newer districts of the Province, and the great advantages which would accrue from their early developmennt and settlement, seem to point to the desirability of adopting some plan of systematic exploration by which more certain, detailed and complete information may be speedily procured respecting this great heritage, yet to so large an extent lying dormant. It would be quite possible to put on foot during the coming season a number of parties under the guidance of experienced surveyors who would penetrate, not into every corner of so extensive a region, but into most parts hitherto unvisited and unknown, and so acquire a fund of information which would be representative of the country as a whole. Such a work would involve the expenditure of a large sum of money, but there is every reason to believe that the results would be commensurate with the expense.

Woods and Forests.

The total revenue for Woods and Forests for the year 1899, was $1,092,848.64. Of this $296,752.79 was on account of bonus; $69,713.44 on account of ground rent, and $20 on account of transfer fees, leaving the net revenue from timber dues $726,362.41. See Appendix 4, page 6.

The gross revenue is larger than that of 1898 by $111,662.19. The receipts from timber dues are less by $30,071.93, but on the other hand there is an increase in bonus of $137,054.05, and in ground rent of $4,660.07.

The legislation requiring sawlogs cut on the Crown domain to be sawn in Canada first came into operation on 30th April, 1898; consequently the year

just closed is the first under the new order of things. It may, therefore, be interesting to advert at some length to the general effect of this legislation on production and labor. During the winter of 1898-99 a number of American limit-holders who had formerly exported their logs did not operate their limits, hoping that the action taken would be relaxed in view of pending negotiations between Canada and the United States, or that the courts would declare the legislation of last session *ultra vires*. Owning as they did extensive sawmill plants in Michigan, they preferred ceasing operations until their situation was determined, and they had either to saw in Canada or sell their limits. As a consequence of the cessation of cutting by these firms, it was anticipated that the output of last winter would be decreased by perhaps 200 millions of feet B.M. and the revenue correspondingly reduced. But the changed circumstances in the sawed lumber trade over-ruled the probabilities at the date of my predecessor's last report. A wave of prosperity swept over both Canada and the United States: the demand for lumber at once expanded, and as there was no supply to meet the demand, prices went up enormously. When this became apparent, those lumbermen who sawed in Ontario and had their men in the woods strained every nerve to increase their cut. Americans who sawed in Ontario did the same, as did also some few Michigan mill-owners who were operating to consume supplies on hand and perhaps hoping against hope that they would be able to export. The result of this unlooked-for combination of circumstances is, that instead of a falling off of 200 millions, the decrease of the cut of 1899 compared with last year is only 45 millions of feet B.M. There was an increased output of pine dimension timber, of dimension timber other than pine, of square timber and pulpwood, which made up for the decrease in sawlogs, and the result is that the revenue from timber dues is only $30,071.93 less than it was in 1898.

There was an increase in 1899 in the receipts from ground rent of $4,160.07, while in 1898 there was an increase of $10,886.75 over the receipts of the year before. The collections on account of bonus showed an increase over those of 1898 of $137,054.05, caused by collections on account of the sale held on 20th December last. There is an item of new revenue in receipts from "transfer fees." Heretofore no charge has been made on the transfer of a timber license from one person to another, although considerable labor and responsibility are thrown upon the Department in such matters. In order to recoup the Department, a regulation was passed on 1st December, 1899, fixing a bonus or fee of $1 per square mile on all limits transferred after that date.

Export of Logs.

The export of logs for last summer was estimated last year at from 40 to 50 millions of feet. The event proved this to have been an over-estimate, for the quantity actually exported was only some 29 millions. These logs had been taken out previous to the coming in force of the law, and were stuck in the

streams or bush, and there was some cutting on two small areas exempt from the legislation. The export of logs cut from Crown lands is now at an end except what may be cut on the areas referred to, and these will probably be stripped next year.

It was necessary to take strong precautions to see that the law requiring logs to be sawn in Canada was strictly observed, so that everybody might realise that the policy adopted by the Legislature was one deliberately adopted and was intended to be enforced. Accordingly, rangers and assistants were placed at the mouths of the various rivers from Matchedash river to Sault Ste. Marie under the control and supervision of Mr. J. B. McWilliams, Supervising Ranger for the Province, and it is satisfactory to know that no logs went out which should have been sawn in Canada, and that there was a general disposition to observe the law. This work entailed considerable expense, but as an object lesson of Ontario's intention it has had an excellent effect.

During the year a suit was entered to test the Province's right to pass the legislation referred to. This suit, known as Smylie vs. the Queen, was tried before Mr. Justice Street at Osgoode Hall, who found in favor of the Province. It has been carried to the Court of Appeal, and may go to the Imperial Privy Council before the parties will rest satisfied.

The strict enforcement of the law, the absence of any relaxation, and the verdict in favor of the Province, have forced Americans not owing mills in Canada to consider whether they had not better accept the situation instead of remaining idle during a period of prosperity in the trade with their investments unproductive. The great demand for and increased price of lumber, with the probability of still further advances next season, has helped to thaw the ice of their determination until there has been a flood of effort to get out large stocks and prepare to saw them in Ontario. The increased cut of this year over last will probably reach over 300 millions of feet B.M., the early fall having been favorable for cutting. At the commencement of the hauling season the absence of snow was very much felt, but should snow soon come a determined effort will be made by the lumbermen to get the entire cut to the mills. As a consequence of the increased activity, wages have materially advanced and trade generally has been benefitted. The increased cut has necessitated increased sawing capacity. Many American mill-owners are building mills on this side. Others have purchased old mills long idle and refitted them. Our own mill-owners are extending their capacity and preparing to run night and day, and withal it is doubtful if there will be mills sufficient to turn the logs into lumber. Taking everything into consideration, it is many years since there was such activity and confidence in the lumber trade as now prevails. The law requiring logs to be sawn in Canada has necessitated the expenditure of large sums on building and repairing mills, and it is not too much to say that it will cause millions of dollars to be expended here in wages, freight, etc., which would otherwise have been

expended in Michigan. It has secured for Canadian labor and Canadian capital all the benefits of the expansion which has taken place.)

Timber Sale.

During last summer rumors reached the Department that forest fires had occurred in the townships of Foy, Bowell and Harty. Rangers were instructed to proceed to the locality and report. Their reports caused the Department to make an immediate exploration and estimation of the townships for the purpose of ascertaining how far the timber had been damaged, the quantity on the territory, etc., in order that if necessary to save the value of the timber, a sale might be held in time to permit its being cut this winter. The reports showed that about fifty per cent. of the timber in the above-named townships had been seriously damaged and that it ought to be sold. Advantage was taken of the holding of this sale to offer the townships of Norman and Capreol, which were being overrun by mining prospectors and for lands in which numerous applications had been received. These latter townships were surrounded on all sides by territory which had been cut over, and the debris lying on the ground rendered the timber liable to be burned the next summer. The pine in the township of Lumsden had been disposed of at the sale of 1892, but the purchasers were subsequently permitted to surrender it to the Crown on payment of a considerable sum of money. This timber was also exposed to serious risk from fire and would be placed in still greater danger by the proposed sale, and it was therefore decided to again offer this township along with the others. A few lots in the township of Widdifield, and an area north of Craig were also in a very exposed state, and there were a few scattered remnants of berths in Rainy River District which were left out when the sale of 1890 was held. It was determined to offer these as well. The whole area sold was 360 square miles, of which 287¾ square miles were in the districts of Nipissing and Algoma, and the remainder in the district of Rainy River; 106 square miles were damaged and had to be sold, and 254 square miles were so exposed either to fire or trespass, or both, as to make a sale necessary and in the public interest. The expectation was that perhaps the sale could be postponed until 1900, but when the reports of the wood rangers were received it became evident that the berths must be disposed of at once. The latest date for holding the sale if the timber was to be cut during the winter of 1899-00 was late in the month of December. The area being only 287¾ miles in Old Ontario it was considered that two months would be ample notice for all who desired to have examinations made. The Rainy River berths were known to be of comparatively little value and easily accessible for purposes of exploration, and the quantity of the timber was so well known to the Department that any berths not bid up to their fair value could be withdrawn. The sale took place on the 20th December, and was largely attended. The opinion of those best qualified to judge was that the prices obtained were the full value of the timber offered, and that the sale was in point of fact the most satisfactory ever held. Three

hundred and sixty miles were sold; 287¾ miles in Old Ontario realized in bonus an average of $2,426 per mile; 71¾ miles of small scattered areas sparsely timbered in Rainy River District averaged $355 per mile. The average of the whole sale was $2,010 per mile, which was $725 per mile in advance of the average realized at the sale of 1897, where the berths were situated in the same region. The total amount for which the berths were sold was $723,550, of which $190,060 has been paid, leaving $533,490 to be collected during 1900.

Fire Ranging.

The number of licensees having rangers on their limits during the year was 73. There were 190 rangers employed on licensed territory, who cost the Department for wages $17,795.33, and for expenses extinguishing fires $1,666.40; and the licensees like amounts. There were twelve rangers employed on Crown territory in Rainy River and the Temagaming country, which latter region is well timbered and is becoming a favorable resort for tourists. The expense amounted to $3,173.51, See Appendix No. 6, pages 11 to 17 inclusive.

The service continues to meet with the approval of all those who are acquainted with the valuable work that is being done. There were no serious fires on licensed territory where rangers were employed. On territory owned by the Crown, fires occurred in the townships already referred to as having been sold on the 20th December. The service should be extended on lands of the Crown, and efforts put forth to see that rangers are employed on all licensed territory. It is not fair that large sums should be expended by lumbermen to protect their timber, when this expenditure may be rendered useless by fire running over from territory on which the licensee was either too careless or too penurious to employ rangers. The fire ranging system has been in existence over fourteen years, and in the opinion of the undersigned it has long ago passed the experimental stage. Litigation which has arisen between individuals as to the payment of rangers and involving their duties and powers makes it expedient that the service should be put on a statutory basis so that such doubts may be set at rest, and the service itself strengthened and more efficiently organised.

The Pulp Industry.

The growing demand for timber suitable for paper pulp and the great benefits derived from the establishment of pulp mills at Sault Ste. Marie and Sturgeon Falls, render it expedient that pulpwood should as far as possible be manufactured in the Province. The Sault Ste. Marie Pulp Company has now invested $2,000,000 in buildings, plant, etc. Its expenditure during the past year for wages has been $300,000, and 700 men have been constantly employed. The advantages conferred on the town of Sault Ste Marie and its neighborhood by the presence of such a business require no arguments to prove them. This giant industry has rendered possible the establishment of other important affiliated enterprises which present possibilities of expansion that may yet make

Sault Ste Marie one of the important manufacturing points of the continent. The Sturgeon Falls Pulp Company has also put up extensive mills and is rapidly increasing its plant. It has expended $600,000 on capital account, has employed over 200 hands all the year round, and bids fair to do for Sturgeon Falls and the surrounding country what the Sault Ste Marie Company is doing for that town and its vicinity.

The pulp and paper industry is likely to become a very important factor in developing new Ontario by affording plenty of employment and good wages, two great desiderata in opening up the back country. The spruce timber in the region tributary to lakes Huron, Superior and the Ottawa river is very scattered, being only in isolated patches: but on the slope of the northern watershed it is believed to be plentiful and of good quality. As this industry developes and pulp timber becomes more valuable, pulp and paper mills will either be erected on the Hudson Bay slope or railways will be constructed to bring the timber along with other raw materials to be manufactured in mills built and to be built on this side of the height of land.

Forest Reserves.

In addition to the Algonquin Park, which combines the object of a national public park, where the fauna and flora of the forest may be observed and studied with advantage and amidst exquisite surroundings, and that of a reservoir for important rivers and streams, other forest reserves have been set apart during the past year or are in contemplation. In the eastern part of the Province 80,000 acres, situated in the Townships of Miller, Barrie and Clarendon, in the County of Frontenac, and the Township of Abinger, in the County of Lennox and Addington, have been withdrawn from settlement, and are being protected from cutting and fire in order that the young pine which abounds there may have opportunity to grow and become a valuable asset for the use of succeeding generations. My predecessor made a trip through the Temiscaming and Temagaming regions during the past summer and was much impressed with the beauty of the Temagaming country and the glorious sheets of water which made that region a sylvan paradise. He was much struck with the large quantities of pine timber on the Crown domain still unlicensed and with the importance of protecting it from destruction by fire. It may be necessary and expedient to create a portion of the territory, if not all of it, into a forest reserve, so that people may be kept from squatting or attempting to settle in a region chiefly valuable for its extensive areas of pine timber, which, if protected and preserved, will be the most valuable asset the Province has. The beauty of the region, which has no great agricultural capabilities, joined with the preservation of the pine, make it desirable that its pristine loveliness should be preserved. A more beautiful park region there is not on the continent.

Departmental Changes.

Certain changes have been made in the scope and organization of the Department during the past year. The Colonization Roads branch has been detached from the Department of Crown Lands and added to that of Public Works, while the management of the Public Parks, recently vested in the Department of the Attorney-General, has been restored to that of Crown Lands, to which it originally belonged. The work formerly carried on in the Immigration branch has been taken over by this Department, and under the title of Colonization will henceforth be conducted in connection with the Bureau of Forestry. There is no more important end to be aimed at in the public interest than the peopling of the unsettled portions of our own Province, and allusion has been made to this subject already. If Ontario is to retain her place as the foremost province of the Dominion and to continue the steady march of progress and development which has hitherto marked her history, it is essential that her waste places be settled upon, and her dormant resources developed. It will be the aim of this Department to make known the advantages of soil, climate and surroundings which the wild lands of the Province can offer, and as far as possible to direct the movement of population from the older portions of the country and continent, and from other lands, to those districts where the best prospects of success are to be found. The regions which have been most in favor during the past year are those near Port Arthur, where the valleys of the Slate and Whitefish rivers have received a considerable influx of settlers, and the banks of the Rainy River, where a prosperous settlement has for some time been taking form. Both these sections will receive the benefit of closer connection with the rest of the Province when the Ontario and Rainy River Railway, now being built, is completed. Besides these, the fertile lands of Lake Temiscaming, the free grant territory of Parry Sound and Nipissing, the townships along the main line and the Sault Ste. Marie branch of the Canadian Pacific Railway, in the neighborhood of the model farm at Dryden, and elsewhere, have attracted a share of the inflow of agricultural settlers. An effort will be made to systematize the work of peopling the lands of the Crown by concentrating settlement so far as possible in given localities, and thus enabling the colonist groups to enjoy the advantages which propinquity and co-operation confer in the early stages of settlement. Roads, schools, churches, markets, etc., are all more easily and quickly attained by a closely settled than by a sparse and scattered community. The work of colonization will be pushed with all the vigor which its importance demands.

Water Powers.

Many applications continue to be received for water powers under the provisions of the Order in Council dated 21st June, 1898. The object of the Regulations is to secure *bona fide* development of the water powers which are so

numerous in northern and western Ontario, and which seem destined to play an important part in the industrial future of those portions of the Province. A number of these applications have been approved, and several leases have been issued or are in course of preparation at the close of the year. One is for a power at Steep Rock falls of the Seine river, providing for the development of 500 horse power within three years from the date of the lease; another is for a second large power lower down on the same river, under which the lessees undertake to render available 6,200 horse power within one year while a third provides for the development of a privilege on the Sand Island river to the extent of 1,000 horse power within two years. It is noteworthy that all the three foregoing water privileges are to be utilized in the mining industry, which cannot fail to be benefitted by the cheap motive power they will furnish. The rental which the Department has stipulated for in the above cases is a nominal one for the first year or two until the power is developed, and afterwards at the rate of twenty-five cents per horse power per annum. It is quite within the bounds of probability that the abundant water power of northern Ontario may in time be made to contribute materially to the public revenue, while the conditions under which the leases are issued are such as to protect the public interest and prevent monopoly, at the same time providing those engaged in mining or other industries with the means of producing power at very low cost.

Public Parks.

Some at least of the objects which the Legislature had in view in creating the Algonquin National Park in the District of Nipissing bid fair to be achieved. The protection afforded game and fur-bearing animals has allowed of a very decided increase in the number of such animals. In particular, the beaver, at one time threatened with extinction, has again become very numerous, while the moose and deer are now also plentiful The benefits accruing to the water supply and climate of a considerable part of the Province by the permanent retention of so extensive a tract in a wooded state are more intangible, but not less important, and as time goes on the wisdom of reserving for forest purposes this large area of rough land, unattractive from an agriculturist's point of view, will become more and more apparent. For further particulars respecting the Park, see the Superintendent's report, Appendix No. 33, page 57.

Rondeau Provincial Park is a much smaller reservation and one of a different character. It is a remnant of the magnificent forest which at one time covered the south-western peninsula of Ontario, one of the most varied and valuable of the original forests of America. Since the establishment of the Park in 1894 a block of 500 acres reserved for ordnance purposes has been purchased from the Dominion Government and added to the Park. The Ranger's report will be found in Appendix No. 32, page 57.

Crown Surveys.

The following surveys of townships have been carried out this year:

In the District of Algoma the townships of Bowell, Harty and Foy have been sub-divided into lots of 320 acres each. In the District of Nipissing the townships of Cosby, Cox, Delamere, Hoskin, Mason and Waldie, and in the District of Rainy River the townships of Miscampbell, Mutrie, Sifton and Sutherland have been sub-divided into lots of 320 acres each. In the District of Thunder Bay portions of the townships of Blake and Moss have been re-surveyed. A base line has been run in the District of Algoma from the 120th mile, north of the township of Lumsden, on the district line between Algoma and Nipissing, near Night Hawk Lake. This line has been run due west for 120 miles. Another base line has been run from a point near Dalton station, on the Canadian Pacific Railway, in the District of Algoma, a distance due west of 33 miles; and a meridian line 18 miles in length near Michipicoton, in the same district. Several other minor surveys have been performed during the year. The returns of the above named surveys, so far as they have been received in the Department, have been examined and closed. The surveyors' reports will be found in Appendices Nos. 16 to 31 inclusive, pages 36 to 56 inclusive. See also Appendices 14 and 15, pages 34 and 35 respectively.

Municipal Surveys.

The Department has during the year, on the petitions respectively of the municipalities of the county of Carleton, townships of Richmond, Etobicoke, East Gwillimbury, Markham, Douro, McNab and West Gwillimbury, issued instructions for the survey of portion of the boundary line between Gloucester and Osgoode; portion of the road allowance between the seventh and eighth concessions of the township of Richmond; the road between, on, or through lots numbers sixteen and seventeen in concessions A, B and C, and concessions one, two, three and four, township of Etobicoke: side-road allowance between lots numbers twenty-five and twenty six in the sixth and seventh concessions of the township of East Gwillimbury; portion of the allowance for road between the third and fourth concessions of the township of Markham; portion of the road allowance between the third and fourth concessions of the township of Douro; concession line between broken front concessions A and B of the township of McNab; side-road allowance between lots numbers twenty and twenty-one in the thirteenth concession of the township of West Gwillimbury.

The following municipal surveys have been confirmed during the year under the provisions of R. S. O. 1897, cap. 181, s. 14, s.-s. 4, such surveys so confirmed being final and conclusive as to all parties Lots twenty-eight, twenty-nine thirty and thirty-one in the eighth concession of the township of Enniskillen the village lots of the Bailey estate in the town plot of Port Carling; the line between concessions C and D, across lots fourteen, fifteen and sixteen in the town-

ship of Mariposa; road allowance between lots numbers three and four in the third and fourth concessions of the township of Arthur; the front of lots numbers one, two and three in the first concession west of Muskrat Lake, in the township of Ross, also the concession line between ranges five and six, from lot number six to lot number ten, and the concession line between ranges five and six, from lot number one to lot number five in the same township: side line between lots numbers eighteen and nineteen in the eleventh and twelfth concessions of the township of Arthur, also blind line between the eleventh and twelfth concessions, from lot number seventeen to lot number twenty, both inclusive, in the same township; side road allowance between lots numbers twenty-five and twenty-six in the sixth and seventh concessions of the township of East Gwillimbury. The particulars relating to these surveys will be found in Appendix No. 12, page 13.

Mining and Other Surveys.

The Mines Act, 1897, with amendments thereto, requires that applicants to purchase or lease mining lands in unsurveyed territory shall file a surveyor's plans, field notes and descriptions by metes and bounds of their locations in this Department before any sale or lease is carried out. Under Orders in Council of date 23rd January, 1892, 3rd December, 1892, and 22nd September, 1893, applicants to purchase islands or locations in the Districts of Thunder Bay or Rainy River for agricultural purposes, in unsurveyed territory, are required to file surveyor's plans, field notes and descriptions by metes and bounds, together with the necessary affidavits of their locations, which are required to be of the form and size, wherever practicable, prescribed by The Mines Act, 1897, and amendments thereto.

Under the above Act and regulations a number of applicants in the Districts of Algoma, Nipissing, Parry Sound, Rainy River and Thunder Bay have filed plans, etc., and an area of 30,307½ acres has been sold and patented to them, for which $42,149.50 has been received; and an area of 52,569 acres has been leased at $1 per acre for the first year's rental.

Respectfully submitted,

E. J. DAVIS,
Commissioner.

Department of Crown Lands,
Toronto, 31st December, 1899.

APPENDICES.

Return of Officers and Clerks in the Department of Crown Lands for the year 1899.

Branch.	Name.	Designation.	When appointed.	Salary per Annum.	Remarks.

Registrar.

AUBREY WHITE,
Assistant Commissioner.

Department of Crown Lands,
Toronto, 30th December, 1899.

APPENDIX No. 12.

Statement of municipal surveys for which instructions were issued during the year 1899.

No.	Name.	No.	Date of instructions.	Description of survey.	Date when confirmed under Rev. Stat of Ont., 1897, cap. 181, sec. 14, sub-sec. 4.
1	Charles A. Bigger	614	March 8th, 1899	To survey a portion of the boundary line between the townships of Gloucester and Osgoode, in the county of Carleton, lying easterly of a point in said boundary line, where said line is intersected by the sixth concession line of Osgoode or the production thereof, and to plant permanent stone monuments at the north easterly corner of Osgoode, and at the northerly ends of each side of the concession road allowances of the sixth, seventh, eighth ninth and tenth concessions of the said township of Osgoode	
2	William R. Aylsworth	615	March 17th, 1899	To survey the road allowance between the seventh and eighth concessions of the township of Richmond, from lot number seven to lot number thirteen inclusive, and to mark the same by permanent stone or iron monuments planted on either side of the said road allowance to define the boundaries thereof....	
3	Peter S. Gibson	616	April 15th, 1899	To survey the road between, on, or through lots numbers sixteen and seventeen in Concessions C, B, A and Concessions one, two, three and four in the township of Etobicoke, and to mark the said road on each side thereof by permanent monuments, so as to define the limits thereof through the several concessions above named	
4	Peter S. Gibson	617	April 15th, 1899	To survey the side road allowance between lots numbers twenty-five and twenty-six in the sixth and seventh concessions of the township of East Gwillimbury, and to mark the same by permanent monuments planted at the north-west and north east angles of lot number twenty-five and at the south-west and south-east angles of lot number twenty-six in the concessions aforesaid.	November 18th, 1899

APPENDIX No. 12.—*Continued.*

Statement of municipal surveys for which instructions were issued during the year 1899.

No.	Name of surveyor.	No.	Date of instructions.	Description of survey.	Date when confirmed under Rev. Stat. of Ont., 1897, cap. 181, sec. 14, sub-sec. 4.
5	Speight and Van Nostrand	618	September 14th, 1899	To survey the allowance for road between the third and fourth concessions, in the township of Markham, adjoining lots numbers one, two, three, four and five and as much further north as may be necessary, to establish an undisputed original monument between the said third and fourth concessions, and to define said road allowance by permanent stone or iron monuments.	
6	Alfred J. Cameron	619	October 7th, 1899....	To survey and determine by permanent stone or iron monuments, planted on each side thereof, the road allowance between the third and fourth concessions of the township of Douro, north of lot number twenty-three and extending to the river Otonabee; the survey to commence at the undisputed corner between concession road allowance between the said third and fourth concessions.	
7	James L. Morris	620	November 4th, 1899..	To survey the concession line between Broken-front Concession A and Broken-front Concession B, in the township of McNab, and to plant permanent stone or iron monuments on each side of the allowance for road between said concessions, to define the same, throughout its length.	
8	Maurice Gaviller	621	December 26th, 1899.	To survey the side road allowance between lots numbers twenty and twenty-one in the thirteenth concession of the township of West Gwillimbury, and to define the same by permanent stone or iron monuments planted on each side thereof.	

GEORGE B KIRKPATRICK, Director of Surveys. AUBREY WHITE, Assistant Commissioner.

Department of Crown Lands, Toronto, December 30th, 1899.

APPENDIX No. 13.

Statement of municipal surveys confirmed during the year 1899.

No.	Name of surveyor.	No.	Date of instructions.	Description of survey.	Date when confirmed under Rev. Stat. of Ontario, 1897, cap. 181, sec. 14, sub-sec. 4.
1	C. A. Jones	593	April 20th, 1894	To survey lots numbers twenty-eight twenty-nine, thirty and thirty-one in the eighth concession of the township of Enniskillen, and to plant stone or iron monuments at the front and rear angles of said lots	March 7th, 1899.
2	Allan G. Cavana	607	January 31st, 1898	To survey the village lots of the Bailey Estate in the town plot of Port Carling, and to plant durable monuments at the front angles of each of these lots on Joseph street, Bailey street and a street south of Bailey street, unnamed in the original survey of said town plot of Port Carling	June 26th, 1899.
3	George Smith	610	July 28th, 1898	To survey the line between the concessions C and D across lots numbers fourteen, fifteen and sixteen in the township of Mariposa in the county of Victoria, and to plant stone or iron monuments on either side of the allowance for road between said concessions in front of said lots to define the same	March 7th, 1899.
4	Charles R. Wheelock	611	August 5th, 1898.	To survey the road allowance between lots numbers three and four in the third and fourth concessions of the township of Arthur, and to plant stone or iron monuments on either side of said road allowance, so as to define the same through said concessions	March 7th, 1899.
5	James L. Morris	612	October 10th, 1898	To survey the front of lots numbers one, two and three in the first concession, west of Muskrat Lake, in the township of Ross, and to plant stone or other durable monuments at the front angles of the above-named lots; also concession line between Ranges five and six from lot number six to lot number ten, inclusive; also concession line between Ranges five and	June 26th, 1899.

3 C.L.

				six from lot number one to lot number five, inclusive, in said township, and to plant stone or other durable monuments on the line between ranges five and six from lot number six to lot number ten, inclusive, and also on the line between Ranges five and six from lots numbers one to five, inclusive, in said township	
6	Charles R. Wheelock....	613	November 14th, 1898	To survey the side road between lots numbers eighteen and nineteen in the eleventh and twelfth concessions of the township of Arthur; also the blind line between the eleventh and twelfth concessions from lot number seventeen to lot number twenty, both inclusive, in said township, and to plant stone or iron monuments on either side of said side road allowance so as to define its position, and also on the blind line aforesaid so as to define its position across said lots	March 7th 1899.
7	Peter S. Gibson	617	April 15th, 1899	To survey the side road allowance between lots numbers twenty-five and twenty-six in the sixth and seventh concessions of the township of East Gwillimbury, and to mark the same by permanent monuments planted at the north-west and north-east angles of lot number twenty-five and at the south-west and south-east angles of lot number twenty-six in the concessions aforesaid	November 18th, 1899.

AUBREY WHITE,
Assistant Commissioner.

GEORGE B. KIRKPATRICK,
Director of Surveys.

Department of Crown Lands,
Toronto, December 30th, 1899.

APPENDIX No. 16.

Report of Survey of the Boundary between Ontario and Manitoba.

Toronto, Ontario, April 30th, 1899.

Sirs :—We have the honor to submit the following report on the survey of the boundary line between the Provinces of Ontario and Manitoba, performed in accordance with instructions from your Departments, dated the 21st and 19th of August, 1897, respectively.

After visiting Ottawa in company with the Director of Surveys for Ontario, and conferring with the Deputy Minister of the Interior, and the Surveyor General of the Dominion, we proceeded to arrange for the work and after due preparation left for Rat Portage with our staff. At this point we engaged the remainder of our party, purchased our supplies and having hired a small steamer to carry our party and outfit to the point of commencement of the line near the north-west angle of the Lake of the Woods. We left Rat Portage on the 1st of September reaching the north-west Angle River the same evening and camped near where we were to begin our work. This point is marked upon the ground by an iron monument planted about six chains north of the North-west Angle River and it was from this monument that measurements were taken to locate the initial point of the Ontario and Manitoba boundary. This monument and a similar one at a distance of thirty nine chains and thirty-nine links due north of it were planted by the International Boundary Commissioners in 1872, and mark the boundary at these points between Canada and the United States. They are the iron posts referred to in the above mentioned instructions and are also shown in the plan and field notes herewith submitted.

It will be noticed that the distance between these two iron posts, or monuments, as deduced from the figures given in our instructions is thirty-nine chains and thirty links, whereas, our measurements as checked on the ground shew it to be thirty-nine chains and thirty nine links.

It may be well to state that all our measurements along the line were taken by two different sets of chainmen, each set using a Chesterman steel tape one of which was sixty-six feet, and the other one hundred feet in length.

Pages 88 to 90 of the returns show a comparative statement of the measurements with each chain for each mile.

In fixing the north-west point which was to be our initial point we made it one hundred and fifty chains and one link north from the first mentioned or south boundary.

The boundary we were called upon to lay down is defined in Chapter 26, 52 Victoria, 1888-89, of the Imperial Parliament in the following words : "—— thence along a line drawn due north until it strikes the middle line of the course of the river discharging the waters of the lake called Lake Saul or the Lonely Lake, whether above or below its confluence with the stream flowing from the Lake of the Woods towards Lake Winnipeg, ——"

Having taken an astronomical observation for Azimuth on the evening of the 1st of September at our point of commencement, the work of opening the line was begun on the following day, we then continued the line due north to its intersection with the Winnipeg River at a point about seven miles below the mouth of the English River. The distance from the initial point at the north-west angle to a post which we planted on the left bank of the Winnipeg river and twenty links from the water's edge, being fifty-eight miles twenty-seven chains and twenty links. The Winnipeg River at this point is about fifteen chains wide.

In running and laying down the line two instruments were used, one a small light transit in charge of one of our assistants who kept near the axemen and directed them in their work of opening and clearing the line, the other a Dominion Lands reiteration transit theodolite with which astronomical observations were taken, and by means of which the line was actually laid down from the points of greatest elevation along its course, thus insuring as long sights as possible consistent with accuracy. These sights, as will be seen from the field notes, averaged over a mile in length, and as a sky-line was cut out in advance all instrumental stations were well selected so that in many cases under favorable conditions two back stations could be seen in the production of the line.

By this means as will be noticed from the table of observations only slight corrections in Azimuth were found necessary. Owing to the intense cold and cloudy weather from the latter part of November up to the time of the completion of the field-work on the 11th of December we found it impossible to get the exact result from the observations that we attempted to take at different points towards the end of the work. Two of these latter observations though not entirely satisfactory owing to the frost interfering with the movements of the plates of the instrument, were sufficient to show that the line was within reasonable limit of error and not out more than the average error shown by previous observations.

The initial point being under water it was impossible to mark it upon the ground by a post or monument and it will therefore be seen that the first posts planted are situated on hard ground at 25.00 chains on the first mile They consist of a cedar post with an iron post three feet long, one and three-eight inches diameter, alongside, each being marked with the words "ONT" on the east side and "MAN" on the west side, with the additional wording "25 chains N.W. angle" on the south side of the cedar post.

Each and every mile of the boundary excepting where the mile point falls in water is defined by similar posts, each marked with the words "ONT" and "MAN," with the number of the mile from the initial point followed by the letter "M" on the south side.

Bearing trees where available were taken and regularly marked as shown on the field-notes, and the trees on either side of the line throughout the work were blazed on the three sides as directed. In addition to the regular mile posts, good cedar posts with iron posts alongside were planted on the shores of Shoal Lake, Snow Shoe Bay and Indian Bay and all the larger lakes, and also on the islands crossed by the line in Indian Bay and High Lake; these are marked on the East and West sides the same as those above mentioned, while the cedar posts in each and every instance has the distance from the initial post marked on its south side. Similar cedar and iron posts were planted at the intersection of the line with the Southerly and Northerly limits of the Right of Way of the Canadian Pacific Railway, marked "ONT" on the East side and "MAN" on the West side and "C. P. R" on the side facing the right of way.

Although not instructed to do so, we planted wooden posts at the intersection of our line with the boundaries of the Indian Reserves met with in the work. These posts have the words "ONT" and "MAN" on the East and West sides respectively and "I. R" on the side facing the Reserve A cedar post also, marked as above on the East and West sides, was planted at the intersection of the portage from Long Pine Lake to West Hawk Lake, being on a frequently travelled route.

With the exception of six, the above mentioned posts are surrounded with well built cairns of stones called stone mounds in the field notes. The field notes show explicitly how each and every post is marked, as well as their position.

The lines run in the survey of Dominion Lands, Indian Reserves, and Mining Locations in the vicinity of the boundary were connected with our work.

A careful traverse with transit and chain was also made along the line of the Canadian Pacific Railway eastward from the boundary to the Dominion Government Astronomical Station at Kalmar, and the latitudes and departures of the various courses in this traverse were duly calculated and are shown in the field-notes. The boundary line is intersected by the Canadian Pacific Railway at a point twenty eight miles and seventy-three chains from the initial point at the North-west angle. This point of intersection is very nearly ninety-three and three quarters miles East of Winnipeg and about two miles West of Ingolf Station.

In addition to the running of the boundary line and the traverse of the Canadian Pacific Railway considerable micrometer work was done in the traversing of parts of Shoal Lake, Indian Bay, High Lake, and West-Hawk Lake, also in the survey of that part of the Winnipeg River and its expansions from our line easterly to the mouth of the English River.

The results of the explorations on either side of the line are shown upon the plans herewith.

The country on each side of the North-west Angle River is comparatively level and the soil is of good quality; the chief timber is Poplar. On proceeding North the land becomes swampy up to Shoal Lake and is thinly timbered with Spruce and Tamarac.

After leaving the Bay of Shoal Lake higher land is reached, broken with hills and swamps. The soil is clay and the rocks belong to the Laurentian and Huronian formations; the timber consists of Poplar, Birch and Pitch Pine. This class of country extends to the neighborhood of Rice Bay, and from there to Snow Shoe Bay is quite broken and the timber has been very nearly all destroyed by fire.

Indian Bay is a fine sheet of water about five miles long, and two wide, and contains a number of islands of various sizes, nearly all of which are wooded with green timber, principally Birch, Spruce, Poplar and Cedar, with a few clumps of White Pine. Some very good oak timber was noticed at the narrows leading from the bay into Shoal Lake. Between Indian Bay and High Lake the land is hilly and covered with green timber; the soil is sandy with frequent rock exposures.

The line crosses a point and two islands in the High Lake and intersects the Third Base Line of the Dominion System of surveys on the most northerly of the latter.

From High Lake to the thirty-second mile post the country is mostly burnt, and a large portion was entirely stripped of timber by the far-reaching and destructive fire which extended East from the prairie in the fall of 1897.

The country in both Provinces adjoining the boundary South of the Canadian Pacific Railway is attracting considerable attention from the Mining men at the present time owing to the discoveries of gold in the vicinity, and numerous Mining Locations and claims have already been laid out, and evidences of development work were seen in a number of places.

The contacts between Laurentian and Huronian rocks are noted in the field notes where they were visible. The last contact we saw occurs near the centre of the 27th mile, and from this point to the end of the work only Laurentian rocks were seen North of the Canadian Pacific Railway the country as a rule is very rocky and broken, with very little soil fit for cultivation. It contains numerous lakes with clear water, well stocked with fish.

The timber consists of Pitch Pine, Poplar Spruce, Birch and Tamarac, where not completely destroyed by fire. The effects of the recent and destructive fires above referred to was not entirely lost sight of until we reached the neighborhood of Trout Lake on the 41st mile, although some belts had escaped its ravages.

From Trout Lake to the Winnipeg River the timber is generally small and of poor quality, consisting of Pitch Pine, Birch, Spruce and Tamarac. Some railway ties have been taken out in the vicinity of the thirty-third and thirty-fourth miles, and a few swamps farther North contain a small quantity of fair-sized Spruce and Tamarac. It is perhaps worthy of note to mention that no Cedar timber exists between the Canadian Pacific Railway and the Winnipeg River, along the line, and our wooden posts for this portion of the work were all brought from West-Hawk Lake.

As stated in the first part of this Report the boundary line strikes the stream of the Winnipeg River at a point about seven miles below the confluence of the English River with the former.

The waters of the two rivers unite in a wide, lake-like expansion, having some ten or twelve islands in it. They pass to the North and West of a large island and unite again in a narrow channel, and after a short distance once more divide and pass to the North and South of another large island about two and a half miles long and one and one-half miles wide Upon each of these latter divergent streams there is a water-fall of five or six feet, the northerly one being again divided in two by a small island. These two main divergent streams flow, the one along the North side and the other along the East, South and West sides of the last mentioned large island, and after having widened out into lake-like areas unite about one mile up stream from where the boundary line intersects the river proper. There are a number of islands in all these stretches and the main shores are generally rugged. The exact position of these two rivers between their junction and our line is shown on the plan of the boundary line herewith, and on the traverse sheet accompanying the field notes.

The necessity for having the boundary line laid down has been felt for some time by the people in the vicinity, especially so in that portion south of the railway where mining work has been going on.

The route we travelled in the prosecution of the work is shown on the plan.

After completing our field work we returned with our men to Ingolf by way of North

Crow Duck Lake and a chain of lakes leading to Cross Lake and down the latter to the Canadian Pacific Railway and thence to Rat Portage where our men were paid off. It was then decided that we should meet in Toronto for the purpose of preparing our returns of survey.

In concluding this report which we have made as brief as possible, we desire to say that any differences of opinion which we may have had in carrying on the work were all satisfactorily adjusted by ourselves.

We desire to express our gratitude to the officials of both the Department of the Interior and the Department of Crown Lands with whom we came in contact in connection with the work for their many courtesies extended to us, and to thank the members of our staff for their untiring efforts in the prosecution of the survey.

Herewith will be found the full returns in triplicate, one copy being for the Dominion, one for Ontario and one for Manitoba.

We have the honor to be,

Sirs,

Your obedient servants,

(Signed) E. STEWART.
B. J. SAUNDERS.

Dominion and Ontario Land Surveyors, Boundary Commissioners.

The Hon. J. M. GIBSON,
Commissioner of Crown Lands,
Toronto.

The Hon CLIFFORD SIFTON,
Minister of Interior,
Ottawa.

(Appendix No. 17.)

TOWNSHIP OF McCARTHY.

DISTRICT OF NIPISSING.

PARRY SOUND, ONTARIO, Dec. 15th, 1898.

Sir,—I have the honor to report that I have surveyed the Township of McCarthy, in the Nipissing District, under your instructions bearing date July 8th, 1898.

I commenced the survey at the south-east angle of the township where I planted an iron post marked KELLY on the south-west side and McCARTHY on the north-west side. I then brushed out and chained the south boundary, and not being able to observe the Pole Star for Meridian at the time, on account of cloudy weather, I opened up about half a mile of the Meridian South from said angle and produced said Meridian North-two miles, and turned an angle of ninety degrees West and ran the line between Cons. II and III a little over a mile when I observed the Pole Star at the Eastern Elongation for Meridian using Azimuth 1° 4′ 8″, I found my line running two minutes too far North. I corrected bearing and carried said line West to the line between Lots 6 and 7 and ran South to the South boundary and North to the North boundary, repeating my observations for Meridian. After having run the East boundary to the north-east angle of the township, where I planted a pine post and beside it an iron bar marked McCARTHY on the south-west side, Con. VI on the south side and I on the west side. I then surveyed the east portion of the township and ran the north boundary through to the north-west angle of the township leaving said angle to be established by Mr. Brown, who was surveying the Township of Mackelcan, immediately west of McCarthy, and who by agreement or understanding with me was to locate said north-west angle at the intersection of his East boundary with said North boundary. I ran the line between Cons. I and II west from line between Lots 6 and 7, after having again taken meridian from Pole Star and found as I ran the lot lines south that my line and the South boundary were diverging, and I intersected the West boundary run by Mr. Brown over 3 chains north of his corresponding line.

The Township is drained by the Sturgeon River, or rather the greater portion is drained by a branch of said river, which expands into several lakes entering the Township on the West side in Cons. III & IV, and passes out near the South-east angle on the South side. The Sturgeon River proper touches the East boundary near the North-east angle.

There is no part of the Township suitable for agricultural purposes, a small portion of the surface being exposed rock, and the greater part seemingly a bed of stones or boulders a few inches under the surface with occasionally a gravel ridge.

The rock formation is slate with numerous veins of quartz from a few inches to two feet in width. There are a number of Mining Locations laid out or surveyed in the Township, and from samples of quartz shown me by prospectors and owners of Locations they seem to be rich, having seen many samples thickly studded with free gold.

The Eastern portion, comprising nearly one-half of the Township, is fairly well timbered with pine, but principally of a second growth. From some charred remains of timber to be found in many places, the country was evidently burnt over many years ago leaving small patches here and there of the original pine timber which was not killed by the fire.

I would recommend that the Township be not put into the market for agricultural purposes, it being chiefly valuable for timber and mineral.

I have the honour to be, Sir,
Your obedient servant,
(Signed) DAVID BEATTY,
Ontario Land Surveyor.

To the Honourable J. M. Gibson,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 18.)

TOWNSHIP OF MACKELCAN.

District of Nipissing.

Morrisburg, December 26th, 1898.

Sir.—I have the honor to submit the following report of the survey of the Township of Mackelcan in the District of Nipissing, under instructions from your Department bearing date July 8th, 1898.

Having secured supplies and axemen, I started with equipment from Sudbury, on August 5th, by wagon, and proceeded to the south shore of Lake Wahnapitae. Here we were fortunate enough to find a small steamer which conveyed party and equipment across the Lake to Crystal Mining Camp. From this point we proceeded by canoe and skiff to the east branch of Lake Metagamasing, where we went into camp, about two miles north of the north boundary of the Township of Rathbun, said boundary being quite visible from the canoes as we proceeded up the Lake.

I commenced the survey at the southeast angle of the Township, where I found a cedar post well planted, and beside it an iron bar marked "Kelly" on the southeast side. Upon the northwest side of this iron bar I cut the word "Mackelcan" and then proceeded to retrace from this point westward. The north boundary of the Township of Rathbun (said north boundary being also the south boundary of the Township of Mackelcan) planting posts thereon at regular distances of forty chains as directed in instructions, until I reached the northwest angle of Lot No. 12, in the 6th Concession of the Township of Rathbun, where I found a spruce post marked Concession 6, on south side, 12 on east side, and 13 on west side, and beside this an iron bar marked Aylmer on the northwest side and Mackelcan on the northeast side.

I then surveyed the other concession lines and side lines as directed in instructions, or as nearly so as circumstances permitted.

I found it necessary, in order to work to the best advantage, to move camp three times. From the first three camps I was able to complete the eastern half of the Township and the south-western portion, thus leaving the northwest quarter to be completed from our last camp, that on Wolfe Lake.

The survey was a difficult one to perform on account of the very hilly nature of the country, the large amount of green timber and the very large number of lakes.

There is very little arable land in the township; even in the valleys, where some soil might naturally be expected. Upon clearing away the moss, a bed of boulders was invariably exposed.

The timber consists principally of red pine, white pine, jackpine, spruce, tamarac, birch and poplar, with occasionally a small scrubby oak or maple. The red pine is of good size, and so also is some of the white pine, but as a rule the white pine is of poor quality, being either hollow or dozy. The pine is so scattered and the natural facilities for its removal so limited, that from a commercial standpoint the timber of this Township is not of great value. It is possible that with the development of the mines, most of it that is available will be utilized.

With two exceptions there are no settlers in the Township. On Lot 8, Concession 4, one Davis has erected a log house, a stable, and at the time of the survey was living there with his family. He has, however, made no clearing for himself, and is employed by the Mountain Mining Company.

On Lot No. 8, Con 2, a half-breed by the name of Pilo has cleared about an acre and seems to have found one of the very few pieces of land in the Township that might be termed soil. At the time of the survey he had not erected a house, but was living in tents.

There are three good mill-sites in the Township. One at the outlet of Wessel Lake, Lot 2, Con. 4, having a natural fall of about 20 feet, one on Mining Location A. T. W. 1, having a fall of about ten feet, and one on mining location W. D. 76, having a fall of about 70 feet. Upon this latter site a small saw-mill has been built and operated by the Mountain Mining Company.

At the time of the survey thirteen Mining Locations had been surveyed, but there was no work being done on any of them, although on some of them, considerable work had been done.

Large game was said to be very plentiful, but during the survey we saw but one moose and one deer. Partridge, however, were abundant, and all the lakes seemed to be well stocked with fish, some of them very large of their kind.

Accompanying this Report are plans, field notes, and accounts.

I have the honour to be, Sir,
Your obedient servant,
(Signed) GEORGE B. BROWN,
Ontario Land Surveyor.

The Honourable J. M. Gibson,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 19.)

TOWNSHIP OF AYLMER.

Hamilton, Ontario,
20th December, 1898.

Sir,—I have the honor to report the completion of the survey of the Township of Aylmer, under instructions from your Department bearing date of 8th July, 1898.

The late T. R. Hewson proceeded to the work with a party of thirteen men on the 15th August, from Wahnapitæ Station via waggon road to Lake Wahnapitæ, thence by steamer to the north shore of said lake, a distance of some three-fourths of a mile south of the north boundary of the Township of Rathbun, which forms the south boundary of the Township of Aylmer.

Work was commenced at a spruce post planted for lots numbers twelve and thirteen on this northern boundary of the Township of Rathbun, which was marked "lot 1" on the west side and "con. 1" on the north; an iron post marked "Aylmer" on the north-west side, "Mackelcan" on the north-east side and "Rathbun" on the south side, was planted alongside the spruce post.

The survey of the township was carried out uninterruptedly till the 1st October, when the late T. R. Hewson was attacked by fever and brought down to Sudbury Hospital with great difficulty, at which place he died on the 21st October. I proceeded with the completion of the work on the 10th October and brought the same to a close on the 30th of the same month.

Bad weather was encountered and sickness was very prevalent amongst the men.

The larger portion of the township has been slightly over-run by fire some thirty or forty years ago, and is now re-timbered with Pine, Poplar, Birch, Balsam and Spruce. There is still some very good pine left standing in places, more particularly shown on the timber map, nearly all of which can be easily brought to Lake Wahnapitæ by means of the upper and east branches of the river bearing the same name.

Where there is soil it is of a sandy nature and of very little depth. Rocky ridges abound, generally trending northwest and southeast and in places are very steep.

There are several good sized lakes, all having rocky shores, being deep and abounding with fish.

The Upper Wahnapitæ River flows in a very circuitous northwesterly direction through the township, following a narrow valley of level land between high ridges, and has steep sandy banks, and deep water.

No economic minerals were met with during the progress of the work.

I have the honour to be, Sir,
Your obedient servant,

(Signed) WILLIAM B. FORD,
Ontario Land Surveyor.

The Honourable J. M. Gibson,
Commissioner of Crown Lands,
Toronto.

(*Appendix No. 20.*)

TOWNSHIP OF PARKIN.

District of Nipissing.

St. Mary's, Ontario,
May 4th, 1899.

Sir,—I have the honour to submit the following report on the survey of the Township of Parkin, in the District of Nipissing, surveyed under instructions from your Department dated 8th July, 1898.

On the 3rd of September, procuring teams at Sudbury, I proceeded by what is known as the government Road, with my party and supplies to Le Moines' Landing, on Lake Wahnapitæ, crossing this lake by tug to lot 23, concession 6, in the Township of Rathbun, I arrived at the southeast angle of my township on the 8th of September, and commenced the survey by brushing out and chaining the southern boundary of the township planted the posts to mark the front angles of the lots in the first concession. The direction of the south boundary was found to be considerably north of a due west line, consequently the north boundary instead of being a due west line is run on a bearing to connect the two northerly angles of the township which is N. 88°-05' W astronomically I planted at the southeast angle of the township a jack pine post with an iron post alongside marked on the southwest side "Norman," on northwest side "Parkin," on the east side "Aylmer;" and I planted iron posts, suitably marked, at the other angles of the township.

I surveyed the various concessions and sidelines as shown on the accompanying plan and field notes and in accordance with instructions. The general character of the surface of the township is rocky and hilly, with very little land fit for settlement, the percentage of arable land being small. The lower levels are covered with stones, boulders and mossy swamps in many places. A very high hill in the north easterly portion of the township, attains an elevation of about 500 feet. Mountain Creek drains the greater portion of the township. This stream could be made available for driving purposes without incurring very much outlay.

This stream, on lot 8, concession III, has a falls of about 15 feet in height, giving an excellent opportunity for a mill-site. The Wahnapitæ River flows through lots 1 and 2, concession 6, and is a shallow stream with a rapid current having a average width of about 150 feet.

The east half of the township contains a considerable quantity of white and red pine of a merchantable quality 10 to 24 inches in diameter, the details of which are given

in the timber map sent herewith. Extensive areas of jack pine were met with, and also spruce and tamarac, suitable for pulp-wood and ties.

The rock exposures are generally the quartzites, felsites, clay slates, etc., of the Huronian age, with small areas of diorite and diabase, in the south-westerly part of the township the gneiss and granite of the Laurentian formation are found, although not so much exposed.

The township is over-run with moose, red deer, bear and the small fur-bearing animals; partridges were also very plentiful.

There were no settlers or miners in the township at the time of survey.

The magnetic variation of the needle was found to be 5 degrees west.

Herewith I send plan, field notes, timber map, etc., with account.

I have the honour to be, Sir,
Your obedient servant,
(Signed) H. R. McEVOY.
Ontario Land Surveyor.

The Honourable J. M. Gibson,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 21.)

TOWNSHIP OF HUTTON.

District of Nipissing.

Bracebridge, Ontario,
December 20th, 1898.

Sir,—I have the honor to submit the following report of the survey of the Township of Hutton in the District of Nipissing, under instructions from your Department dated July 8th, 1898.

Leaving Sudbury on the 4th of August, I proceeded by wagon road to the Vermilion River, near the northeast angle of the Township of Hanmer, thence by canoes up the river to the south boundary of the Township, where I commenced the survey by retracing and re-chaining this boundary, planting the posts to mark the front angles of the lots in the First Concession.

The east boundary had been run for over two miles in the survey of Mining Locations, and, after obtaining an observation of Polaris at the northeast angle of W. R, 76, I continued this boundary due north until it intersected the south boundary of the Township of Creelman, produced, which had been run by O. L S., T. J. Patten, before I reached that portion of the Township

I planted a wooden post, with the lot and con. marked on the proper sides thereof, at the northeast angle of the Township, and also an iron post marked "Hutton" facing the southwest, and "Parkin" facing the southeast.

The first five concessions were given a depth of 80 chains, as nearly as practicable, and the 6th Con. is somewhat less than 80 chains, owing to the last mile of the south boundary bearing to the south of west.

The Township is much broken by rocky ridges, some of which attain a considerable elevation in the southerly portion, where the rocks are of Laurentian age; while in the northerly portion felsite greywackes and clay-slates of the Huronian formation are met with, though not so much exposed.

The lower levels throughout the Township are extensively covered with boulders, stones, and gravel, with very little soil, and the beds of streams are generally a mass of boulders, so that only a very small percentage is suitable for agriculture. The Township is well supplied with water, the Vermilion River with its lake expansions draining the easterly part, and the west branch, a wide, shallow stream, much obstructed by rapids, drains the westerly portion.

Deposits of gravel are frequently met with, along the streams, containing fine gold and magnetite, and a number of prospectors have staked out claims during the summer.

These gravel and sandy deposits have evidently been brought down from the north, as the material of which they are composed, namely, conglomerates, quartz, slates, garnets, etc., is generally different from the adjoining country rock. The gold is found in the sandy loam, sand, and gravel, near the surface of the ground and within 5 or 6 feet of the surface ; at greater depths only traces are found as a rule, and prospecting has not as yet been carried down to bed-rock.

A number of promising claims have been discovered along the west branch of the Vermilion River, particularly in concessions four and five, from which 50 to 150 colors to the pan have been washed with the ordinary gold pan. The timber throughout the Township is jack-pine, spruce, white birch, poplar, white pine, tamarac, balsam and red pine. Along the south and west boundaries is found white pine from 12 to 24 inches in diameter, the particulars of which are given in the timber map herewith. The variation of the magnetic needle was very irregular, more especially in the swamps and river valleys. The average variation was found to be 6° 10' W. There were no settlers in the Township at the time of the survey. The plan, timber map and field notes accompany this report.

I have the honour to be, Sir,

Your obedient servant,

(Signed) W. GALBRAITH,

Ontario Land Surveyor.

The Honourable J. M. Gibson,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 22)

TOWNSHIP OF BURK.

District of Rainy River.

Port Arthur, Ontario,

December 28th, 1898.

Sir,—I have the honor to submit the following report of the survey of the Township of Burk, District of Rainy River, made by me under your instructions, dated the 8th of June, 1898.

This Township is situated around the Canadian Pacific Railway station of Borheur, and is bounded on all sides by the unsurveyed lands of the Crown.

I commenced at a post on the east boundary planted by O. L. S. Stewart, marked 88 chains to south boundary, and ran the east boundary south to the south east corner, where I planted an iron bar marked "Burk" on the north west side, alongside a wooden post in a stone mound ; from this point a straight line was run to the south-west corner as established by O. L. S Stewart, and the iron bar planted by him was marked "Burk" on the north east side ; also his wooden post marked Con. 1 on the north and Lot 12 on the east sides, posts were planted on this line at each 40 chains. The several concession lines and north boundary were run west astronomically, and the side lines, with east and west boundaries, north astronomically, and posts planted as instructed. Iron bars were planted alongside of wooden posts at the north-east and north-west corners marked "Burk" on the southwest and southeast sides respectively.

The magnetic variation was almost uniformly five degrees east of north.

With the exception of a number of gravel ridges and moraines, the Township is comparatively level, the surface consisting of sand, gravel, muskeg, and numerous small lakes. This being an unusually wet season the muskegs were full of water, and the lakes had overflowed their banks for several chains.

The Township has been at some time completely burnt over, and is now covered by a thick growth of Jack-pine, poplar, birch and spruce of small size about 10 or 20 years old. I only came across a very few small patches of spruce that averaged 8 inches in diameter and no pine. I may say that there is no timber of value in the Township.

The only game I met with were beaver, partridge and a few moose.

I have the honour to be, Sir,

Your obedient servant,

(Signed) A. H. MACDOUGALL,

Ontario Land Surveyor.

The Honourable J. M. Gibson,
Commissioner of Crown Lands,
Toronto.

(*Appendix No. 23.*)

TIE LINE CONNECTING ISLANDS IN GEORGIAN BAY.

District of Parry Sound

Meaford, Ont., 14th Dec., 1898.

Sir,—I beg to herewith hand you my diary, map and report of my survey of certain islands and traverse line connecting them lying in front of the Townships of Conger and Cowper, Georgian Bay, performed under instructions from the Honourable Commissioner of Crown Lands, dated the 8th day of July, 1898.

After a careful perusal of my written instructions and in accordance with the verbal ones given me by Mr. Kirkpatrick, Director of Surveys, I ascertained and defined the most westerly portion of Moose Deer Point and from there after having taken a careful observation for Azimuth, latitude and magnetic variation, ran a line due west astronomically to the most westerly and outlying islands on said line, and connected all by triangulation. At each station was planted a post properly marked in a substantial mound of stones.

I found that in doing this that the entire Jubilee Island group lie to the southward of this line. I then continued the traverse of the mainland northerly and easterly to what is shown on the map of Conger Township as Moose Point, but is in reality a narrow neck of land some three chains in width, connecting lot No. 59 in the Third Concession of the Township of Conger with what has been erroneously termed Loon Island but is really part of the mainland and should form part of the said Township of Conger.

I might state here that the firm of Newton & Bros. were at the time of survey taking logs off this part of the mainland under their license from the Indian Department which only includes and allows them to cut on the islands south of Moose Deer Point. I mentioned this in one of my letters to the Department while making the survey. I continued my traverse along the northerly side of the mainland to side road between lots Nos. 55 and 56, the centre of which I found marked by a pine post in a mound of stones. I also found the old blazed line in the centre of Road allowance, this I retraced for a considerable distance. The post mentioned stands about one chain from the water's edge. I then traversed the southerly shore of main-land from Loon Portage to the centre of town-line between the Townships of Freeman and Conger, which is marked by an iron bar and a cedar post driven in the ground about one chair from the water's edge. The old blazed line in the centre of the road allowance is well blazed.

I also made a complete traverse of the additional part of Conger from Loon Portage north-westerly, northerly and easterly back to the place of beginning at the Portage, the bearings and distances of which are all fully shown on the accompanying map.

I also connected all the islands along my traverse line by actual measurement and triangulation from Station No. 24 on Moose Point to Station No. 73, on Turning Island. All the stations are well marked by posts bearing their proper numbers and all securely planted in mounds of stone.

I connected my previous surveys for private parties with the main traverse line now established from Station No. 46 to Alice Island, this enables me to show all the islands I have surveyed up to date on the map.

The group of islands of which Sadie and Brownie form a part has been connected by traverse to the town line of Freeman and Conger at Lot No. 41 in the latter Township. It was necessary to establish this connection in order to locate and tie in a number of islands surveyed along the channel to Moon River, Wood's Bay and Sweet's Bay, all are famous for the good fishing they provide.

Station No. 24 is at Latitude 45° 7′ North and approx. Long. 80° 5′ West and the Magnetic Variation is 5° 55′ West of the true meridian which I established from this point. this station is marked on the ground by a pine post 5″ x 5″ marked thus Lat. 45° 7′ Long. 80° 05′ and securely planted in a well built mound of stones.

I would just say in conclusion a word in regard to the protection of the fish that can be caught among the islands. I have, during my surveys among the islands on various parts of the shore accidentally come across people who were fishing by illegal means and using improper and illegal nets for the killing of bass and pickerel, which in my opinion

should be better protected than heretofore, and one very effectual way would be to entirely prohibit the sale of bass and pickerel. These fish will not gill easily and are caught in hoop and trap nets provided with long leads which the fish follow until they reach the funnel shaped mouth of the part of the net called the pot, here they enter and stay until the pirate or pot hunter of a fisherman, as he should be called, lifts his net. On one occasion I saw three hundred pounds of bass and pickerel rotting on the rocks the product of a haul of one of these trap nets.

This kind of destruction, if allowed to continue, would soon deplete the supply and would be a great injustice to the true sportsman who visits the islands and spends considerable money in purchasing an island and beautifying it and who is satisfied with a reasonable catch as provided by law.

The tourist you meet on the island is invariably anxious to protect the fish by every means in his power, and very seldom do you ever see him killing a fish which weighs less than a pound and is satisfied with a catch of from six to ten per man.

There were more people than ever before in my recollection on the islands during the past summer, and as the bay has now become one of the most popular and accessible summer resorts on the continent the number is bound to increase every year.

I have the honour to be, Sir,

Your obedient servant,

(Signed) J. G. SING,

D. & O. L Surveyor.

The Honourable J. M. Gibson,
Commissioner of Crown Lands,
Toronto.

Appendix No. 24.

TOWNSHIP OF SOUTHWORTH.

District of Rainy River.

Tilbury, Ontario, December 26th, 1898.

Sir,—I have the honor to submit the following report of the survey of the Township of Southworth, in the District of Rainy River, performed under instructions from your department, bearing date the 12th July, 1898.

I commenced the survey of the Township as directed at O. L. S. Stewart's iron and wooden posts, planted on the north and south sides of the right of way of the Canadian Pacific Railway, near the two hundred and thirty nine mile board, and then ran south astronomically the distance of one hundred and thirty chains and thirty links from the posts at the south side of the right of-way of the said railway, where I planted tamarac and iron posts for the southeast angle of the township, and marking the iron post with a cold chisel with the word Southworth and facing it to the northwest.

I then ran the south boundary west astronomically, planting the lot posts thereon, until I reached the Little Wabigoon Lake, where I planted cedar and iron posts, marking the word Southworth on both of them and facing them towards the northeast.

The other concession lines and side lines, with a few exceptions, were run west and north respectively, except the portion of the north boundary from the south-east angle of of the township of Zealand, which was run east astronomically until it intersected the east boundary of the township.

There was great difficulty in getting out to Little Wabigoon and Wabigoon Lakes with the concession lines and side lines where the land was level and low banks along the shore, owing to the water having backed up from the lakes and flooding over the land to the depth of from one to five feet, and sometimes extending back half a mile or even a mile from the shore. I could not start the eight and nine side line or the ten and eleven side line from the shore of the lake at all in the fourth concession, and had to run those lines south from the concession line in the rear, as far as I could until I was prevented by the water which was from two to three feet deep, as will be shown in the field notes. I have been informed by the residents of Wabigoon that the water has risen five or six feet in Wabigoon Lake on account of the dam being placed in the Wabigoon River at Dryden and will likely stay at this level.

The eastern portion of the township is rather rough and rocky having quite a number of swamps lying between the rocky ridges and would not be very well adapted to agricultural purposes ; but the central and western portion of the township is more level and rolling and the soil is principally clay and clay loam, which is particularly adapted for farming purposes. I should think that there would be about fifty per cent. of the township that would make good farming land, and it would be an easy matter to make roads through it, as the principal part of the best farming land lies close to the Canadian Pacific Railway and is pretty level.

The township is well watered by two large creeks running through it, namely, the McKenzie and McHugh's Creeks and several small ones, and then there is Wee Sandy Lake and some two or three smaller lakes in the interior portion of the township, besides the Wabigoon and Little Wabigoon Lakes in the southern part of the township The lakes contain the usual kind of fish, such as bass, pickerel, pike and some white fish.

Large game was rather scarce, such as moose, caribou and bear, but the small game was rather plentiful, such as partridge, rabbit and duck.

There is no pine in the township, nor timber of any kind that would be of any commercial value, as the fires have overrun this township several times in the past, and all the timber was burnt off. The land is now covered with small spruce, tamarac, poplar, and birch of recent growth.

There are no settlers in the township except in the Village of Dinorwic and also one on H. W. 519 called McKevir's Point, where a party has put up a couple of shanties and has about half an acre cleared, but is not living there at present.

There has not been any development work done on the mining locations this season in this township that I have seen, but a shaft has been sunk some time ago in the Ruby Mine on H. W. 125. The rock formation is principally Huronian and the indications show that some very good mines might be had by proper investigation and development.

The Village of Dinorwic seems to be a very prosperous village and by straightening the McKenzie River or Creek, by dredging the channel a little wider and cutting of the short bends, it would make a good steam boat route to Manitou Mining District. And I understand that a wagon road has been built as a portage between the lakes by the Hudson's Bay Company from their post in this village northward to the Lac Seul District, and I understand that it runs through the Minnietakie Mining District ; and by spending a little money judiciously on this road it could be made a good wagon road between this village and the Minnietakie Mining District, where I understand they are putting in considerable mining machinery and also erecting a stamp mill.

There was very little local attraction, the variations being 6 degrees, 30 minutes east and was pretty constant throughout.

I have the honor to be, Sir,

Your obedient servant,

(Signed) Jos. M. Tiernan,

Ontario Land Surveyor.

To the Hon. J. M. Gibson,
Comissioner of Crown Lands,
Toronto, Ont.

(*Appendix No. 25.*)

TOWNSHIP OF MELGUND,

District of Rainy River.

Tilbury, Ontario, Jan. 21st, 1899,

Sir,—I have the honor to submit the following report of the survey of the Township of Melgund, in the District of Rainy River, surveyed by me under instructions from your department bearing date 10th day of September, 1898.

I commenced the survey of the township at the southeast angle thereof as directed in the instructions, at the 54th mile on O. L. S. A. Niven's Fifth Meridian Line, where he planted iron and wooden posts. These posts I marked with the word Melgund and placed them towards the northwest, I marked the spruce post with the lot number and concession number on the west and north sides respectively. I then retraced O. L. S. Niven's Third Base line for the front of my first concession, planting the lot posts thereon at regular intervals of 40 chains except where Mining Locations were already surveyed, and

where the posts should be planted, until I reached the 6th mile post from the meridian, where O. L. S. A. Niven had planted iron and wooden posts. I also marked these posts with the word Melgund and faced them towards the north-east.

The iron and wooden posts at the northeast and northwest angles of the township were also marked in a similar way and the word Melgund placed towards the township. I then ran the other concession lines and the side lines due west and north respectively except where interfered with by Mining Locations.

The township is comparatively level except the southerly part of the 6th concession which is rather rough and mountainous. The soil is principally clay and clay loam of a very good quality and would make very good agricultural land. Hay and root crops could be grown to good advantage here and they always command a good price. The marshes and muskegs are generally sandy, but in some places there is beautiful black loam, with clay sub-soil, which would be excellent land for farming purposes.

The township would be very easy to drain as the surface naturally inclines towards the Little Wabigoon River, through several creeks and swales, and it would not take very much excavation and improvement on these to make them sufficient to properly drain the land.

The township is well watered by the Little Wabigoon River which enters the township in Lot 1, in the 2nd Concession, and flows westerly in a very tortuous course through the 2nd and 3rd Cons., crossing the west boundary in the 3rd Concession. There is also a portion of Shallow Lake and Long Lake rivers in the Townships, the former entering the Township in Lot 4 in the 1st Con. flowing northerly and westerly through Lots 4 and 5 and entering the Little Wabigoon River in Lot 6, in the 2nd Con. Long Lake River crosses into the Township a few chains in two places on the West boundary in the 2nd Concession.

Bear Creek is also quite a large stream which enters the Township in Lot 4, in the 6th Concession, and flows southeasterly through Lots 4, 5, 6, 7, 8 and 9, in the 6th, 5th, 4th and 3rd Concessions, entering the Little Wabigoon River in Lot 9, in the 3rd Con.

There are also a couple of small lakes in the 6th Concession, namely, Burnets and part of Kannabutch Lake, the former on the west boundary and the latter on the north boundary. The water in the lakes is very clear and abounds with beautiful fish. Bass, pickerel, pike and white fish being the principal varieties, the river waters are very dark except Long Lake river and scarcely any fish in them. There are several falls and rapids in Shallow Lake and the Little Wabigoon River east of Lot seven which would furnish excellent water-power. The average width of the rivers is about 50 feet.

There is no pine in the township except a few pitch-pine scattered here and there, neither is there any other timber that would be of any commercial value, except a small portion in Lots 4 and 5, in the 4th concession, and in the 5th concession, which has some pretty fair sized Tamarac on from 8 to 16 inches in diameter

There has been quite a lot of prospecting done in the township, but there has not been much developing work done, that I could see. There is an old shaft put down on E 163, and has been abandoned several years ago. The machinery is still there. As the hole was filled up with water we could not see how deep the shaft was sunk. There are some four or five prospectors located on their locations, viz: S V 249 and S V 255, who are doing some developing work on their claims The Canadian Pacific Railway crosses the township in the 6th concession from lot 1 to 8 inclusive.

Dyment Station appears to be a village that will be very prosperous in the near future, as the Government Road is built from the south to the New Klondike, and if the mines there turn out favorably, which from the present indications there is little doubt of, then this would be the principal distributing point for all the mines in that vicinity, and as far south as the Manitou, and also for any mines to the north of this place.

There are no settlers in the township except those before mentioned on their locations. Game is rather plentiful—moose, caribou, partridge, rabbit, and also fox and mink.

I have the honor to be, Sir,

Your obedient servant,

(Signed) Jos. M. Tiernan,
Ontario Land Surveyor.

The Hon. J. M. Gibson,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 26).

BASE LINE, DISTRICT OF ALGOMA.

HALIBURTON, ONTARIO,

October 30th, 1899.

SIR,—I have the honor to submit the following report on the survey of 120 miles of base line in the Algoma District, surveyed under instructions from your Department, dated 2nd June, 1899.

Leaving Toronto on the 5th of June, I proceeded to Matagami Station, on the Canadian Pacific Railway, in the Algoma District, and from this point I went in with canoes via the Spanish and Matagami Rivers a distance of over 100 miles, to a point about two miles north of where my line was supposed to cross the Matagami River, thence by Portage Lake and stream to Porcupine Lake, and thence easterly through the woods six miles to my starting point near Night Hawk Lake, viz, the 120th mile post from the north east angle of the Township of Lumsden, planted in 1896 on the boundary line between the Districts of Algoma and Nipissing, being in latitude 48° 27′ 54″ north.

I commenced my survey of the 20th of June, running west astronomically from said 120 mile post and continued the survey from day to day until the 16th of September.

I crossed the Matagami River on the 17th mile, the Groundhog on the 45th mile, the Pishkanogama at the 63rd mile, Trout River on the 82nd mile, entered Missanabie Lake on the 111th mile and left one of its bays at the 117th mile, terminating my survey at the 120th mile in accordance with instructions and returning to Toronto via Missanabie Lake, and the Canadian Pacific Railway on the 19th of September.

The line was well cut out and blazed and carefully measured, wooden posts were planted at every mile and iron posts every three miles, marked with a cold chisel on the east side "III. M.," "VI. M.," "IX. M.," etc., up to "CXX. M." Mounds of stone, where stones could be found, were built around the posts. Bearing trees were also taken marked "B. T.," and their size, course, and distance from the posts noted. Where the end of a mile came in a lake or river the post was planted on the line on the nearest land and the distance noted. In these cases the iron posts were marked with a plus or minus sign as the case might be.

Astronomical observations were taken frequently, the details of which will be found in the field notes. The magnetic variation of the needle averaged about 6 deg. W, being 10 deg. west at the beginning of the line and 4 deg. west at its termination.

[GENERAL DESCRIPTION.

The initial point of the line, the 120th mile post on the District boundary, is in a level clay country timbered with spruce and poplar, which may be described as a part of the Abitibi Valley. Going west from this point the line leaves the level country at about the end of the 4th mile and enters upon a more or less broken and rocky section of the Huronian formation extending to the end of the 10th mile. From this point the country is comparatively level to the Matagami River on the 17th mile, and for some distance beyond, the soil being clay in places, with sand and sandy loam in others, with belts of tamarac, spruce and cedar swamps.

From the Matagami River on the 17th mile to the 50th mile the line passes through a country not particularly rough or smooth, exposures of Huronian rock in places, strips of swamp and flats of spruce, with an occasional hill, are the general features, while the soil is clay in places but generally sandy, sand and stones frequently, and the timber of all kinds, spruce predominating with poplar, tamarac, birch, balsam and pitch pine, with now and then cedar in the swamps.

From the 50th to the 59th mile the country is more rolling and hilly than the preceding 30 miles and there is not much good land along this part of the line. The 59th mile is through level land, sandy loam and large spruce birch and balsam. Miles 60 and 61 are again undulating, and the line then enters a brule about 25 years old. The brule extends about two miles south and about 16 miles north and west (occasionally broken by green bush) to Trout river on the 82nd mile. This tract of country may be described as rolling and occasionally hilly with a few rock exposures (gneiss) and tamarac and spruce swamps. The soil is sandy and sandy loam.

From the 70th mile west the country is of a rougher description than to the east. From Trout river on the 82nd mile to Missanabie lake and the 111th mile the country is a little more broken by lakes, and it is also hilly in places. The soil is sometimes clay but generally sandy with considerable brule from the 92nd to the 105th mile.

From the west side of Missanabie lake to the end of the line at the 120th mile, the country is again rolling, rocky and hilly, sandy soil and occasionally burnt. In fact most of the country along the west side of Missanabie lake to the Canadian Pacific Railway has been burnt over and presents a rocky, desolate appearance.

Timber.

Spruce is the principal timber along the whole line. Tamarac is the next in the low land but a large proportion of it is for some reason or other dead, in many places almost all dead. There is a large amount of poplar along the line and of good size. Spruce and poplar on the dry level land is the principal timber the general size being from 8 to 16 inches in diameter. The line runs through a large amount of this timber particularly on the first 40 miles. Pitch pine, white birch, balsam, cedar and balm of Gilead are the other kinds of timber. Cedar is not to say plentiful, but was frequently found of fair size and quality in the swamps and along the lake shores throughout the whole length of the line. A considerable amount of pitch pine was passed through on the highlands, principally on the central and west part of the line. In many places it is of good size fit for lumber and railway ties.

There is no white pine on the first 50 miles of the line, a small grove of red pine on the shore of a lake on the 39th mile, on the 52nd mile we got a little white pine and on the 74th mile the line passes through a groove of fairly good timber, from 12 to 20 inches diameter, about 2,000 logs in sight, and from this to the end of the line a few trees of red and white were occasionally met with.

Water.

The line crosses all the rivers in the country flowing north to James' Bay, and quite a number of lakes, the largest being Missanabie.

The Matagami River, where the line crosses, is 2 chains 40 links wide, and quite deep. This is one of the three large rivers forming the Moose, and has a length of about 300 miles

Kamiskataia River, 1 chain, 85 links wide, falls into the Matagami about 12 miles north of the line.

The Groundhog River at the 45th mile has a general width of about three chains, flows north, and after receiving the waters of the Pishkanogama River falls into the Matagami about 90 miles north of the line.

The Pishkanogama River at the 63rd mile is about 3 chains wide and joins the Groundhog about 25 miles north of the line.

Trout River on the 82nd mile is 10 chains wide where the line crosses with about 5 chains of grass on each side. Slow current and no rapids for 30 miles to the south. It joins the Kapuskasing River, which crosses the line on the 87th mile, at a point about six miles down stream and about a mile north of the Kapuskasing Lake, and the united streams under the name of Kapuskasing, then falls into the Matagami River, about 100 miles north of the line. A bay of Kapuskasing Lake was crossed on the 86th mile. This lake is about 8 miles long and two miles in width at its widest part.

Hay Creek was crossed on the 107th mile, 1¼ chains wide, flowing north into Missanabie River, so called because the Indians and H. B. Co. cut their hay from the flats, the grass growing very luxuriantly for many miles on both sides of the creek.

The most important sheet of water is Missanabie Lake. It is about 30 miles in length and from one to five miles in width, with numerous bays. Where the lines crossed, about three miles south west of Brunswick post of H.B. Co., it was about 1¾ miles wide. The water falls into the Missanabie River and forms a part of the great highway from Lake Superior to James Bay.

In addition to the waters mentioned, the line crosses numerous small streams and lakes as shown by the plan accompanying this report.

The geological formations crossed were the Huronian and Laurentian, but of these Mr. W A. Parks, B.A., of Toronto University, who accompanied the party as geologist, will report fully. I may here say that Mr. Parks obtained much valuable information as to water communication in the country through which the line passes, he having traversed nearly all the canoe routes between the Canadian Pacific Railway and the line, and for some distance north of the line.

Signs of moose and carihou were frequently seen on the survey, and partridge were plentiful. Fish of the usual kind, pike and pickerel, were plentiful in most of the lakes, trout, both salmon and speckled, in some of them, emptying into the Missanabie River. Duck were plentiful on the rivers, and the usual fur-bearing animals are to be found in the country, but the ground is pretty well occupied by the Hudson Bay Company's Indians during the trapping season.

Herewith are full returns of the survey, including copy of the barometric observations taken along the line from Night Hawk Lake to Missanabie Lake, and connected with the elevation of the Canadian Pacific Railway at Missanabie Station.

I have the honor to be, sir,
Your obedient servant,

(Signed) A. NIVEN,
Ontario Land Surveyor.

To the Hon. E. J. Davis,
Commissioner of Crown Lands,
Toronto.

Appendix No. 27.

BASE AND MERIDIAN LINES.

District of Algoma.

Toronto, Ontario,
28th September, 1899.

Sir,—I have the honor to submit the following report on the survey of base and meridian lines in the Michipicoton region of the District of Algoma, pursuant to instructions from your department dated 5th of June, 1899.

Leaving Toronto on the 4th of July, I proceeded to Chapleau where I organized a party of fifteen men and prepared the outfit and provisions necessary for the work.

Having arranged for the shipment of part of the supplies to Missanabie and Grasett stations, and thence down the Magpie River, we took the remainder with us to Dalton station and, following the line of railway, reached the starting point of the survey, being the intersection of the boundary between townships numbers 43 and 45, as run by O.L.S. E. Stewart in 1893.

This point, situate a short distance south of the 665th mile board on the Canadian Pacific Railway, was shown in the instructions to be distant 202 chains and 58 links west from the north east angle of township number 43, and was defined on the ground by a cedar post and iron post marked "43" on the south side and "45" on the north side. From this point I ran west astronomically on chords of a parallel of latitude for thirty three miles, enumerating from the north-east angle of Township No. 43, the line being deflected six minutes north at every sixth mile post.

From the thirty-third mile post I ran due south for eighteen miles and thence due west a distance of four miles, eleven chains and seventy-two links to the east limit of mining location Y 122, that location being now the town site of Michipicoton.

Except where such point occurred in a lake or river, a wooden post was planted at the end of every mile and an iron post 3 feet long and $1\frac{1}{4}$ inches in diameter at the end of every third mile, the number of the mile being marked on the side of the post nearest the starting point. The wooden posts were made of the most durable timber to be found in the vicinity, and wherever practicable a mound of stones was erected about the post and bearing trees marked and noted in the usual manner.

Where a mile terminated in a lake or river the post was planted on the line on the nearest land and marked with the number of the mile, plus or minus the number of chains and links. Astronomical observations, for the purpose of verifying the course of the line, were taken at short intervals.

The magnetic variation, except in two or three instances, was uniform at three degrees west.

Generally speaking, the country through which these base and meridian lines pass is rugged and broken, that in the vicinity of Wawa Lake and the Magpie River being almost mountainous, some of the rocky bluffs rising to an altitude of five hundred feet above the surrounding valleys, and with precipitous sides. Scarcely any level land was met with, and, in consequence, it was generally found impossible to move the camp outfit along the surveyed line, winding trails having to be cut for that purpose.

The soil is principally sandy and stony, the greater part being rocky. Only in one or two instances was clay soil seen, that being north of the first mile on the Second Base line.

The timber consists chiefly of white birch, spruce, tamarac, balsam, poplar and cedar, with a few scattered white and red pine trees. Brulé of about twelve years covers the first twelve miles of the First base line, also from the twenty-seventh to the thirty third mile of the same. Between the twelfth and twenty-eighth miles of this base line the timber is fairly heavy, a considerable part of the spruce having a commercial value as pulp wood, and the same is true of the timber on the meridian line, with the exception of brulé on the seventh, eleventh, twelfth, thirteenth and fourteenth miles. On the Second base line the first two and a half miles and the fourth mile contain fairly valuable timber of the same character. Jack pine plains extend from the Michipicoton River to within a short distance of this base line opposite the third and fourth miles, but the timber is chiefly of small size.

In the fifteenth mile on the First base line, Manitowick lake, a body of good fresh water, about twelve miles long and from one-quarter to one and one-half miles wide, is crossed by the line. This lake is a part of the main canoe route between Missanabie and Michipicoton, and, prior to the construction of the Canadian Pacific Railway, formed a part of an important canoe route between Lake Superior and James Bay. The Magpie River, a fine stream of an average breadth of from two to three chains, with occasional lake expansions, is crossed by the First Base line on the thirty-second mile and by the meridian line on the fourth, fifth and seventh miles, and runs thence about parallel to the meridian line for a distance of about three miles, thence trending southwesterly to its junction with the Michipicoton River at a point about one mile from Lake Superior and near the production of the Second Base line.

The almost continuous rapids between its mouth and the Canadian Pacific Railway prevent the Magpie River being much used for traffic between those points, but the possibilities for the development of water-power may prove of much value to the district if mining operations in the future are carried on.

Wawa Lake, having a length of five miles by a breadth of about one mile, is crossed by the meridian line in the thirteenth mile. Numerous small lakes were crossed by both base and meridian lines.

The Laurentian formation prevails in the first twelve miles of the First Base line, the remainder of the survey being through the Huronian formation. Hematite iron ore was seen on the twenty ninth and thirtieth miles of the First Base line, also between Walbank and Wawa Lakes, on the meridian line.

Numerous iron mining claims were staked by prospectors in the localities mentioned, and some development work had been done. To reach these properties a railway is already being built from Gros Cap on Lake Superior, and indications are that active mining operations will at once begin and ore may be shipped before the close of navigation

A considerable number of gold mining claims are being opened up and developed to the south of Wawa Lake. The number of iron and gold mining claims already laid out and the development work in progress, in addition to the mineral indications above noted, are convincing proofs of thhe mineral wealth of this region. Special attention has been devoted to the Michipicoton country by geological experts on behalf of the Federal and Local Governments, and further details in this report would be but repetition of what has already been made public.

Specimens of ore secured during my survey will be sent to the Bureau of Mines.

The water in the streams and lakes met with is of good quality and, generally, well stocked with lake trout, speckled trout, pickerel and pike.

Small fruits were abundant in the burnt country.

Accompanying this report, I beg to submit field notes and a general plan showing the lines surveyed, together with such additional information as to water routes, etc., as could be gathered during the progress of the work.

I have the honor to be, Sir,
Your obedient servant,

(Signed) T. B. SPEIGHT,
Ontario Land Surveyor.

To the Honorable J. M. GIBSON,
Commissioner of Crown Lands,
Toronto.

(*Appendix No. 28*)

TOWNSHIP OF DELAMERE.

DISTRICT OF NIPISSING.

HAMILTON, ONTARIO,
15th November, 1899.

SIR,—We have the honour to report the completion of the survey of the Township of Delamere, in the District of Nipissing, performed under instructions from your Department, dated July 13th, 1899.

The work was performed by our W. B. Ford and a party of twelve men, who proceeded to the township from Sturgeon Falls on the 24th of July, via steamboat and canoe, across Lake Nipissing and down the French River, reaching the locality on the evening of the 25th. The work was carried on uninterruptedly till the completion of the same on the 27th of August, 1899.

The dry hemlock post, mentioned in the instructions from your Department, as Mr. McAree's second mile post, could not be found, but the witness post on the west shore of the bay of French River was found standing in a cairn of stones, and consequently the southeast angle of the township was taken as being 59.33 chains east of said witness post.

At the S.E. corner the iron post planted at the north shore of the French River was marked Delamere on the N.W. side and Cosby on the northeast side; the wooden post was marked con. 1 on the north and 1 on the west side.

At the southwest corner the iron post was marked Delamere on the N.E. side, and Cox on the N.W. side; the wooden post was marked con. 1 on the north, on the west, and 13 on the east sides.

At the N.E. corner the iron post was marked Delamere, on the S.W., Cosby on the S.E., and Cherriman on the N. side and the wooden post was marked con. VI. on the south, 1 on the west and 13 on the east sides.

The whole of the township has been overrun by fire at different times, so that very little timber exists, what there is being chiefly small second growth poplar and birch, with belts of jack-pine towards the northern part of the township. There appeared to be very little second growth red and white pine.

Nearly all that portion of the township lying between the chain of lakes connecting with the upper and lower Sturgeon Lakes, and the straight narrow sheet of water now known as the Murdock River, but shown on Mr. McAree's field notes of the south limit of timber berth 35, run in 1882 as the Johnston River, is good farming country, the soil being chiefly clay and sandy loam, the southern portion being almost void of timber, the northern portion becoming more rocky and undulating, and having more timber.

In the south-easterly portion of the township the country is rocky and mountainous; in the north-easterly portion it becomes level and marshy, and in the north-westerly portion and west of the Murdock it is undulating and rocky, the ridges all trending in a north-westerly and south-easterly direction, the valleys being filled with thick alder swamps.

The construction of the proposed Toronto to Sudbury branch of the Canadian Pacific Railway, which according to the projected line will pass through the south-westerly portion of the township, will provide access to nearly all the land fit for cultivation.

No compass lines were run—saving one between lots 4 and 5 in concessions 1 and 2 which was re-run with the transit—in the performance of the work. The variation of the needle was very erratic, ranging from 19° 40′ west, to 13 east, and seldom remained the same at two adjoining stations.

The country abounds with deer and moose, hardly any other game being seen, wolves were heard frequently, and the lakes are plentifully stocked with fish, chiefly bass.

No economic minerals were met with during the progress of the work. The geological formation appeared to be Laurentian, the rocks merging from granite to diorite gneiss

Accompanying this report are plans, field notes, etc., of the survey.

We have the honor to be, Sir,

Your obedient servants,

(Signed) TYRRELL & FORD.

Hon. E J. Davis,
Commissioner of Crown Lands,
Toronto.

(*Appendix No. 29*).

TOWNSHIP OF COSBY.

District of Nipissing.

Peterborough, Ontario,
December 12th, 1899.

Sir,—I have the honor to submit herewith the returns of survey of the Township of Cosby, Nipissing District, carried out this autumn under instructions from your Department.

I commenced the survey at the wood post planted by O.L.S. McAree in 1882, and the iron post planted at the same point by O.L.S. Coad to define the south-west angle of the Martland township.

These posts define also the south-east corner of Cosby. Upon the north-west face of the iron post I chiselled the word Cosby.

The south boundary I retraced west to the bay on French River wherein the south-west angle of the township comes, giving to each lot the regular width of 40 chains, running mean-time, the several side lines north two concessions.

Around the bay I offsetted west to the boundary which, at this place, I found had just been run by Messrs. Tyrell and Ford, for the south end of the east boundary of Delamere. The frontage of lot 13 is 28 81 chains.

The iron post at the south-west corner of Cosby is placed 1 65 chains north of the theoretic angle in the bay. Upon its south east face was properly cut the name Cosby.

Returning to the starting point, at the south-east angle, I retraced the east boundary to the north east corner where I found the iron post that defined it. This I marked Cosby on the south-west face. From the east boundary I ran the concession lines west astronomically, all but the last two, which were run east from side line lots 2 and 3.

En route west I took up the side lines to the north boundary.

I also ran out the west boundary (east boundary Delamere) through Concessions IV., V. and VI. to the south boundary of the Township of Cherriman. At point of intersection with it, I planted an iron post marked "Cosby" on south-east face and "Delamere" on south-west face.

The west boundary strikes Cherryman 12.40 chains east of its south-west angle.

All that part of the township lying south of Wolf and Wolseley Rivers, comprising the first four concessions and about one half of the fifth, is good clay land, tolerably free from stone, pretty level, gently undulating, easily cleared, and well adapted for settlement. The tract north of these streams is more or less broken, very sandy, and hardly suited for general farming purposes.

The country around here has evidently, within a not remote period, been overrun by a succession of fires, as is sufficiently attested by the relics of the old, as well as by the kind and character of the new forest growth upon it. Except a narrow strip of red and

white pine of medium size along the north bank of Wolseley River, in Lots 2 and 3, Concession V., there is no timber of value in the Township. The great proportion is covered with poplar, white birch, small spruce, alder, willows, &c.

Very stringent means are necessary to be put in force in order to protect the forest resources of the Province from fires, which annually destroy, or render valueless, millions of dollars worth of timber.

The lakes and rivers contain good maskinonge, bass, &c. Signs of moose, deer and bear have been frequently met with, and there is no doubt these animals are on the increase.

Of the land area in the Township, I consider 70 per cent. good, requiring little labor to clear and cultivate.

Hoping the returns will be found satisfactory to the Department,

I have the honor to be, Sir,

Your obedient servant,

(Signed), J. W. FITZGERALD,
Ontario Land Surveyer.

To the Hon. E. J. Davis,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 30.)

RE-SURVEY OF PART OF THE TOWNSHIP OF BLAKE.

District of Thunder Bay.

Port Arthur, Ontario,
November, 10th, 1899.

Sir,—I have the honor to report that, in accordance with your instructions, dated August 2nd, 1899, I have completed the re-survey of part of the Township of Blake.

On September 30th, with five men and supplies, I drove to the north-west corner of Blake. After some difficulty I found a starting point at the south east corner of Section XI, Concession 1, where I found the old bearing-trees and original post lying down. From this I traced the old blazes to the west boundary of the township. At this intersection I found the point of the original post. From this point I was able trace the boundary by following occasional old blazes to the south boundary of Paipoonge. At the intersection of the south side of the road allowance and this line, I planted a large wooden post and iron bar, marked "Paipoonge" on the north, "Blake" on the south-east, and "Scoble" on the south-west. With this start I was able to trace by closely following the old blazes (which were in places very scarce) and chaining all the lines in finding the places of all the original posts, except some of the quarter section ones. These seem to have been only about two inches square and, in a number of cases, all traces of them and their places had been completely destroyed. In these cases I planted new posts half way between section corners. All section corner posts were marked with scribing iron with number of section on east and west, and number of concession on north and south sides.

The whole of this part of the township has been burnt over and the timber destroyed, except a small portion in the north. It is now covered by a dense growth of hazel and other scrub.

The only portions surveyed fit for cultivation are Concessions 1 and part of Sections X and XI, Concessions II, III and IV. The rest consists chiefly of a series of trap bluffs and ravines, from 300 to 600 feet high. Two or three of the lines I did not retrace on that account.

The good land seems to extend up the valley of Slate River and on to Jarvis River, where it covers a considerable area.

I have the honor to be, Sir,

Your obedient servant,

(Signed) A. H. MACDOUGALL,
Ontario Land Surveyor.

The Hon. E. J. Davis,
Commissioner of Crown Lands,
Toronto.

(*Appendix No. 31*)

TOWNSHIP OF MASON.

District of Nipissing.

Peterborough, Ontario,
December 12th, 1899.

Sir,—I beg herewith to submit the plan and field notes and account of the survey of the Township of Mason on the French River, surveyed by me according to Departmental Instructions dated August 25th, 1899.

Mason is bounded west and south by the French River, on the north by the Township of Cosby, and east by lands not yet surveyed.

I commenced the survey as instructed by tracing the east boundary from the south-east angle of the Township of Cosby 80 chains south. From this point I ran west astronomically the line for the front of Concession VI to the French River giving to the lots a uniform frontage of 40.00 chains.

From the proper points established on this line I ran the several side lines to the north boundary and south to the South branch of the French River on Meridian bearing. The lines for the fronts of Concessions III, IV and V, I also ran from the east boundary west to the French River, giving them a depth each of 80 chains on the east boundary. The posts between Lots 1 and 2, 3 and 4, 5 and 6, etc., for Concession 2, I planted at high water mark on the South branch of the French River at the distance of 40 chains astronomically west from the side lines immediately east of them. As will be seen by the Timber Plan herewith furnished, the easterly one-third of the Township is covered with heavy green bush, hemlock, birch, basswood, cedar, maple, etc. This timber is generally of size and quality suitable for commercial uses. The remaining two-thirds, or nearly so of the township, is a brule overgrown with poplar, birch, alder and willows, interspersed in places with spruce and cedar swamps, and small clumps of mixed green bush of little value. That portion of the township lying north of the north channel of the French River with the exception of a strip averaging about 15 chains wide on the shore of the river, including lots 1 to 4 in concessions III and IV, is good clay land suitable for settlement, but for the rest the country is rocky and broken, and unfit for cultivation generally. The north channel of the French River is on the proposed route of the Ottawa and Georgian Bay Ship Canal. It is of considerable depth, and lies in a depression of some fifty to eighty feet below the general level of the surrounding country. Its shores are bold and rocky, and it ranges in width from a chain or two up to half a mile or more in some open stretches. There is but one rapid in its course through the township. It occurs on lot 8, concession VI, where the river falls about three feet in a distance of about 4 chains. The iron post at the north-east angle of the township I marked in the proper way with the word Mason on its south-west face. The iron post properly marked on its north-west face, I planted on the east boundary at high water mark on the south branch of the French River. I also planted an iron post at the inter-section of side line 12 and 13 with high water mark on the same branch with the word Mason properly cut into its north-east face according to instructions. The usual kinds of fish, game, etc., are found in plenty, and seem to be multiplying rapidly. About 30 per cent. would, I think, represent the arable portion of this township, although much of the remainder is capable of supplying extensive pasturage for stock-raising purposes.

Hoping the returns will be found satisfactory to the Department,

I have the honor to be, Sir,
Your obedient servant,
(Signed) J. W. FITZGERALD,
Ontario Land Surveyor.

The Hon. E. J. Davis,
Commissioner of Crown Lands,
Toronto.

(*Appendix No. 32.*)

RONDEAU PROVINCIAL PARK.

RONDEAU PROVINCIAL PARK,
Morpeth, January 2nd, 1900.

To the Honorable E. J. Davis, Commissioner of Crown Lands, Toronto.

SIR,—

I have the honour to submit this my report as caretaker of the Rondeau Provincial Park for the year 1899.

It is five years last June since this Park opened as a Provincial Park. Since that time it has become very popular as a summer resort, although it has two very serious drawbacks. One is the poor road between the town line of Howard and Harwich and the Park, which is only one and a half miles. For that distance the passengers of heavily loaded vehicles must get out and walk. The sand is so deep that horses coming long distances find it all they can do to draw the empty carriages. The second great need is for a public house to accommodate those from a distance who would like to stay there a week, a month or three months. It is inconsistent with its purpose that a place like Rondeau Park, which nature has made one of the most beautiful spots in Ontario, should be held back when a small amount of money would make it all that could be desired. Another thing very much needed is a telephone from Morpeth which is only six miles away. The wire from Ridgetown to Morpeth has been in operation for many years. For the last two years the campers have been urging to have the wire extended to the Park. It would save the Government horses many long trips and would be a great convenience to the public who resort here and would be much better than a post office for this place.

We have seventy-three Mongolian and English pheasants enclosed so that they cannot get away into the bush. However, several did escape before we got them into the covered enclosures. They all look strong and healthy. During the last three years we have allowed about two hundred to escape to the bush, hoping they would live there through the winter and multiply rapidly. We know that some of the pheasants have wintered in the bush, and have hatched their young there the following spring. I saw several of their young last June, but where they have over three thousand acres to run in the greater part of which is exceedingly dense with underbrush, it would be hard to say how many there might he there now. They have a great many enemies to contend with, such as foxes, raccoons, skunks, weasels and even snakes, which swallow the little ones. The hawks and owls are also very destructive to the game fowl. We succeeded in shooting and trapping about forty hawks and owls this fall. The native quail, partridge and black squirrels are getting very numerous since shooting has been prohibited in the Park.

I have the honor to be, Sir,
Your obedient servant,
ISAAC GARDINER,
Ranger.

(*Appendix No. 33.*)

ALGONQUIN NATIONAL PARK.

ALGONQUIN NATIONAL PARK,
Mowat P.O., January 1, 1900.

To the Honorable E. J. Davis, Commissioner of Crown Lands, Toronto.

SIR,—

As superintendent of the Algonquin National Park of Ontario, I respectfully beg to hand you the following report for the year 1899, hoping that after having read the same you will feel satisfied that considerable progress has been made in the purposes for which the Park was established. The staff consists of nine rangers, one constable at Canoe Lake and myself. The duties of the rangers are many and very arduous, especially during the trapping season when each pair of rangers has to cover a large area of unbroken forest, during the summer and fall with canoe and tump strap, and in the winter months with snow shoe and sled. From 1st June to 1st September there is no

trapping done, and the rangers are employed in building shelter houses, cleaning out portages, improving grounds at headquarters (Cache Lake), making and repairing canoes, etc., etc. During the past year we have made five new canoes, seven pairs of snowshoes, built a Page wire enclosure for the deer and done a good deal of clearing up at the headquarters. We have built two new shelter houses, one on Mink Lake and one on Manitou Lake, and repaired some others. Portages were cut out as follows: From headquarters to Cranberry Lake, and from Joe Lake to Lake Manitou on the north end of the Park. The boundary has been carefully blazed from Ragged lake east to the southeast corner, thence north across the townships of Preston, Dickson, Anglin and part of Deacon to Trout lake; also from Tea lake across the townships of Wilkes and Pentland to Crooked lake. We have also got our winter's supply of wood up at headquarters and several sleds, etc., made ready for winter use.

Game and Fur-bearing Animals.

During the trapping season the rangers travel in pairs taking with them sufficient provisions for two or three months. These have to be forwarded by canoe during the open season and carried with tump strap across the portages, and in winter by sleds which the rangers draw after them. Our boldest trappers come in from Haliburton, and I am pleased to be able to report the capture of three of the worst of these, who are now serving a sentence in Parry Sound gaol. One was fined fifty dollars and costs, which was paid by the lumberman in whose employ the party was. I do not think in some instances we get the support from the lumbermen we should. If foremen insisted upon their men observing the law it would to a great extent do away with trapping from the camps. The fur-bearing animals are now so numerous that a skilful trapper can in a few days secure a lot of valuable fur, a fact which, of course, increases the temptation to run the risk of being caught by the rangers. Our force is not sufficient to patrol the Park as it should be patrolled, but I have no hesitation in saying that my rangers have done excellent work during the past year, and that a number of intending trappers have sought other grounds, finding the Park rangers aware of their presence near the borders of the Park. Rangers Sawyer and Ross took two prisoners from the north end of the Park to Mattawa for trial. These parties were fined five dollars each; and here I should like to state that it seems impossible to get a fine imposed on hunters and trappers encroaching on the Park that is sufficient to make any impression on others. It is very discouraging to a ranger after following trappers for days and succeeding in capturing them, to see them allowed to go with a fine of five dollars. This matter, I think, should have the consideration of the Department.

We are annoyed a good deal with moose hunters coming in from the Mattawa and Bonnechere. The snow is not deep enough yet this season for this, but I hope during this year to be able to make an example of some of them. Moose are getting very numerous in the Park, a fact to which all visitors of this season bear testimony.

I had a visit during the past summer from Chief Big Canoe, after whom Canoe Lake is named, he having trapped there some forty years ago. I gave him permission to visit all his old trapping grounds, and on his return he told me with delight that he found beaver everywhere. As a proof of this fact and to show you how rapidly these most interesting and valuable animals are increasing, I might state that out of the one hundred lakes shown on the map of Algonquin Park, eighty-nine are known to have beaver families on them, and there are innumerable little lakes, creeks and rivers that contain beaver. The Commissioner of 1893 state in their report that the area of water in the Park is 106,393 acres. We find, however, that there are a great number of lakes not shown on the map. On the north end, in the townships of Pentland, Osler and Biggar, the rangers have located twenty lakes not hitherto laid down. These are full of beaver. Ranger Sawyer, who trapped for years over this section before it became a Park, states that the beaver have more than trebled in number since the Park was established. Otter, fisher, marten and mink are also very numerous.

Red deer are to be found everywhere, and so indifferent to the presence of man have they become that the tourist has no difficulty in obtaining photographs of them in their native home, the forest and marsh. At headquarters we have two does, a fawn raised last season and a year-old buck. These we keep in a large enclosure, and they are a great attraction to passengers on the Canada Atlantic Railway. Our does are

both with fawn, proving that there is no difficulty in breeding them when in captivity.

I have been instructed by the Department to secure a pair of caribou, and have arranged with Mr. Cormier, of Aylmer, Quebec, for a pair to be delivered this winter. I hope to be able to breed them at headquarters, and after a time to allow them to roam at will through the Park. I feel confident of success with the caribou, and should like very much to have a pair of elk. There is no doubt elk at one time inhabited this section of country, and I believe could be again induced to breed and remain here.

The wolf, the red deer's greatest enemy, is very numerous this year, and I have had poison put out in large quantities, in some cases having a deer shot and the whole carcass poisoned. In this way I hope to destroy a large number of these pests before deep snow comes, the time when they do the greatest damage among the deer.

As no doubt you are aware, the lakes of the Park are well stocked with trout of the finest quality, as are the brooks with speckled trout. Some of our lakes also have burbot, catfish, eels and whitefish. During the past season some 500 very fine black bass, from one to four pounds in weight, were brought from Parry Sound and put into Cache, White and Source Lakes. These were procured before the spawning season and successfully carried to their destination in a tank car supplied by the Canada Atlantic Railway, the General Manager, Mr. Chamberlain, as well as the other officials, taking a great interest in the experiment and doing all in their power to ensure its success. I should like to see one of the lakes stocked with pickerel. This, I believe, could also be done successfully in the same way. Of the bass, some five hundred odd, I do not think a dozen were lost, and I look for good results from this venture.

The Park as a Health and Pleasure Resort.

Few sections of Canada present such variety of scenery in lake, river and woodland, as Algonquin Park. I do not think under this heading I can do better than give you the views of Dr. R. D. Bruce Smith, of Hamilton, and Dr. W. Burt, of Paris, both of whom have kindly given me permission to do so. During the summer of 1899 a party consisting of Messrs. Tinling, Orr, Callahan, Kirwan, Martin and Dr. R. D. Bruce Smith, of Hamilton, and Messrs. Green and Varley, of Toronto, visited the Park and spent two weeks in a trip through a circuit of lakes. Dr. Bruce Smith, on behalf of the above gentlemen, has given the following expression of his opinion of the natural beauties of the district:

"Our visit has been one of the most enjoyable outings, and has served to acquaint us with a portion of Ontario regarding which few as yet have any knowledge. We left the train at Canoe Lake, proceeding from there to Joe Lake, and passing up a most picturesque river to Island Lake, thence to Otter Slide Lake, White Trout, Long, Red Pine, Burnt, Perley, and Catfish Lakes. We then turned and went back to White Trout Lake, and proceeding west went through Grassy Bay, up the Misty River to Misty Lake, Jubilee Lake, Crane Lake and Sawyer's Lake, and on to Rainy Lake, at the head of which our party broke up after a fortnight's pleasure which will be long remembered. Some of us went on to Cache Lake and from there visited Cranberry Lake and several other beautiful lakes which make the Park in the immediate vicinity of headquarters an ideal spot for every lover of the grand in nature. During our interesting trip we saw seven moose, eighteen red deer, several beaver and other animals. We were all very much impressed with the ease with which we could get close to the deer. They are not at all wild. They almost gave us the impression that they knew they were under the protection of the Ontario Government and would not be shot at. In fact, one morning on Catfish Lake in suddenly passing around a point in our canoes we came unexpectedly upon two moose swimming about, and we were able to get so close to one that Mr. Tinling reached out and caught it by the ear and held on for several seconds. We were able through Mr. Varley's skill to get several very interesting photographs which were treasured as momentoes of our visit. We had some excellent fishing at Algonquin Park. It may well be described as a paradise for the brook trout fisherman. We certainly saw the largest speckled beauties we had ever seen. Mr. Callahan drew the greatest prize from the water, a fine speckled trout which weighed exactly three and three quarter pounds. We could have had trout for every meal. Some of the small lakes are fairly alive with water fowl, and as our canoes would glide along we often disturbed great num

bers of ducks sporting themselves in the water. While Algonquin Park is to be greatly admired for the large quantity of game found there in a thoroughly protected state, to my mind its greatest attraction is the beauty of the scenery, its great variety of fauna and the ozone-laden air, which gives it a right to be considered a natural sanitarium. The elevation at Oache Lake is about 1037 feet above Muskoka Lakes. With the purity of air found at such an elevation we might well expect the most beneficial results to all invalids, and particularly those threatened with pulmonary disease. Persons suffering from nervous prostration find in Algonquin Park a resting place where life may be made as active as one wishes, going from lake to lake, or as quiet as the primeval forest can make it, by residing at one of the thousands of camping places, surrounded by a perfect picture of mountain, lake and stream. I am proud to think that Ontario has such a valuable asset, the value of which cannot well be estimated; and if it can be preserved as a natural park with a thorough protection to the game of all kinds, the future will prove in unmistakable terms the wisdom of guarding and improving such a reservation."

Dr. Wm. Burt visited the Park later in the season but enjoyed his stay immensely, and has written me regarding the benefit he derived to his health and the pleasure he experienced in terms quite as enthusiastic as those used by Dr. Bruce Smith.

Lumbering Operations.

Notwithstanding that annually a large quantity of timber is removed from the Algonquin Park, there is still a great deal of both red and white pine, and in order to get this to market it will be necessary to build a number of dams on lakes and streams that up to the present time have not been improved. This, though very much to be regretted, cannot in many cases be avoided, it being impossible to float the logs on to the larger streams without doing so. The principal damage to timber along lake fronts is done after the water gets warm, and all dams should be so constructed that as quickly as possible after the logs have passed out the water can be brought to its normal level. Mr. J. R. Booth has found it necessary this year to build three dams on the Little Nipissing. These are at points where the banks are high and very little if any damage will result from them. Next to the pine the birch is the most valuable timber found in the Park. Of this there is a great quantity, and of a fair average. Spruce is found in some sections, but not in large quantities. Hemlock attains a good average size and is found almost everywhere. The cedar generally is small and very faulty. Maple and beech are found in some sections and balsam everywhere The limit holders who are operating this year in the park are W. Mackey, the Hawkesbury Lumber Co., J. R. Booth, Sheppard & Co., the Brennan Manufacturing Co., Gilmour & Co, Mickle, Dyment & Son and the St. Anthony Lumber Co. Considerable damage has been done to the timber on some of the lakes owing to the water being kept up late into the summer. Nothing lessens the beauty of a lake so much as a fringe of dead timber along its shores. The limit holder must have the water to enable him to get his timber off small streams, but in many cases water is kept up much later into the season than is really necessary, and as soon as it becomes warm the tree is scalded out and the damage done.

I am glad to be able to report that little or no harm has been done to the standing timber this year. We had three small fires, but they were all in old burns and really did no damage. The Park has suffered very little from fire since its establishment. Although the Canada Atlantic Railway runs through a portion of it great care has always been exercised by the employees and very few fires are started.

I failed last winter to secure any good pine seed. The cones seem to be empty in most cases. If the Department will supply me with good seed I should like to make some experiments with it. I am confident the white pine can be successfully grown from seed, and I believe when large fires occur the Government would do well to have pine seed scattered. I know of whole townships in other parts of Ontario that have been burnt over and nearly every pine killed, yet whenever a few old pine were left young pine grew up after the fire and I have lumbered through them, getting a very nice average of logs.

I have the honor to be, Sir,

Your obedient servant,

G. W. Bartlett,

Superintendent.

(*Appendix No. 34.*)

REPORT

OF

THE SUPERINTENDENT

OF

COLONIZATION ROADS.

To the Honorable E. J. Davis,
Commissioner of Crown Lands,
Ontario.

Sir,—I have the honor to present the report of work done under the management of the Colonization Roads branch for the year 1899.

There have been one hundred and eight miles opened and four hundred and forty-one miles improved and maintained with three thousand and ninety-four feet of bridging representing some twenty structures.

Of *Mining Roads* about fourteen miles were opened and thirty-three repaired, besides a number of miles of winter trails and a mail road specially referred to in this report.

The works are the following :—

NORTH DIVISION.

Alderson Road.

Beginning on the old town line, between Coffin and Coffin Additional, and working northward, about a mile of road was opened north.

Atwood Road.

A bridge seventy-two feet long was built, and about a mile and a quarter of repairs were made — a very much needed work — for the improvement of the main road through the township of Atwood.

Balfour and Rayside Roads.

On the boundary between Balfour and Rayside from the first concession half a mile was ditched and graded south, and on the second concession line a mile was opened as a cheap winter road across lots 6 and 7. On the East Rayside road another mile was graded and improved between concessions 3 and 5.

There were also some four miles of repairs made between lots 4 and 5, concession 2 of a road previously opened, extending south one mile, and thence eastward to lots 8 and 9.

A winte rroad a mile in length was also opened on the fifth concession line between lots 6 to 9.

Barrie Island Road.

Substantial work was done in repairing about five miles from lot 25, concession 8, Gordon, to Barrie Island bridge.

Batchawaning Road.

This work was chiefly the improvement of a dangerously bad hill near s. e. corner of sec. 37, township of Havilland, half a mile long.

Bridge at Dryden.

In the year 1897 a bridge was built over the outlet of Wabigoon Lake.

Subsequently a dam was erected above the bridge for purposes of navigation, and as repairs were required of the first structure it was deemed advisable and more economical to construct a new one upon the dam, using material from the first bridge, all of which was done for the sum of $204.18.

Bruce Mines and Thessalon Road Bridge.

A bridge over a deep ravine in Lefroy township was replaced by a large box culvert properly covered with earth.

Buntin's Creek Bridge.

A substantial structure two hundred and thirty-three feet long built over the creek mentioned on Rainy River road. The work is highly spoken of.

Campbell 20 Side Line Road.

Through concessions 10 to 12 on the Campbell 20 side line a mile and a quarter of grading was done; and again from the boundary between Campbell and Mills west to lots 2 and 3, and thence north to concessions 6 and 7 a mile and three quarters was graded and improved.

Carpenter Road.

Between lots 8 and 9, Carpenter, to within half a mile of Burriss' town line, very substantial improvements were made, covering one mile of grubbing, and almost a mile of crossways, with many culverts and small bridges.

Carpenter and Dobie Town Line Road.

Some three miles were opened from Rainy River road north, and about two hundred and ten feet of bridging.

Carpenter and Lash Town Line Road.

On this line about a mile and a half was opened, and an equal length graded.

Cockburn Island Roads.

Something over four miles of repairs have been made on the main roads on this Island.

Coffin 3 and 4 Con. Road.

Three quarters of a mile has been opened on this line, continued from last year's work. The full opening of the road is however not yet finished and it may require about $200 to complete it.

Crozier and Lash Road.

There were over five miles of single ditching and sixty-six drains of crossways made between lots 8 and 9 river front and east corner of sections 3 and 10 Devlin and north-west corner of section 4 Crozier, representing about four miles of substantial work, beside the ditching mentioned.

Day and Thessalon Town Line Road.

From the south boundary of Day and Thessalon work was done on the town line between these two townships, north to the Great Northern road to the north half of lot 7 con. 1 Day, making one mile of road.

Devlin Road.

From the south-west angle of sec. 9 Devlin work was done to the centre of sec. 28, something like a mile and three quarters. An equal length of ditching was also done, and seven new culverts introduced.

Echo Bay Road.

The grading of a portion cut out last year from north west corner of section 17, in the township of Laird, north one mile ; and again, on the same line at concession 2, McDonald to concession 3, a mile of new road was opened.

Eton and Sandford Roads.

Some ten miles of improvements on roads mostly in the township of Eton, but lead ing into the township of Sandford.

Galbraith, Con. 1, Bridge.

A bridge fifty-five feet long built on lot 6. Its main span is thirty feet.

Galbraith 2 and 3 Con. Road.

The completion of ditching and draining commenced last year ; the former amounting to sixty three rods with half a mile of drains opened.

Great Northern Road.

The work in this instance was chiefly repairing and renewing wooden structures from Echo Bay westward. Some three miles of road improvements were however done in addition over eighteen or more miles of the road.

Indian Point Bridge.

This work referred to in my report of last year, and fully described, is now practically finished. The chief unfinished portion of the bridge was the construction of a steel swing, necessary to allow the passage of vessels into and out of Lake Wolsey. There is now full traffic over this bridge, and it is understood, is of great value to the settlers, shortening the distance to their main and only market at Gore Bay by at least twelve miles. The Dominion Government granted this year, and paid towards the work, $1,500, or approximately one-half the expenditure. A balance is still due upon the work, which may be asked for in the estimates of next year.

Isbester Station Road.

Beginning between lots 6 and 7 con. 1, Tarbutt, and working north to the boundary between Tarbutt and Laird, and thence along said boundary to n. e. corner, sec. 27, Laird, and thence north to s w. corner of sec. 2, ending at Isbester Station, about four miles and three-quarters of road were improved.

Korah Road.

One mile cleared, stumped and grubbed from Base Line north to the second line. It was a low and difficult portion to make, and therefore more expensive than usual. Another mile was opened from between secs 10 and 11, north to about centre of sec. 3, giving an outlet to several settlers.

Lake Wolseley Road.

From the town line of Robinson and Dawson, general repairs were made to lot 23 Robinson, some five miles. Improvements were also made from the line first mentioned to lot 8, con. 8, Burpee, and the line straightened across lots 8, 9 and 10, altogether some fourteen miles of repairs.

Lee's Road.

The chief outlay in this instance was for a scow, 17 feet by 34 feet, with two steel cables to permit travel across Spanish river. Forty rods in length however opened between North and South halves of lot 11, concession 2, Hallam, and half a mile on east and west boundary in concession 1.

Lyon's Creek Bridge.

A bridge on Rainy River road in the township of Lash, two hundred and ninety-two feet long with average height of eighteen feet, a pile structure of a substantial character. Again over Shortiss' creek a bridge one hundred and fifty-five feet long and entirely of cedar was erected.

Manitowaning and Sheguiandah Road.

Repairs between concessions 3 and 8 Sheguiandah, about two and a half miles altogether, making an excellent road.

May and Salter Town Line Road.

The chopping out and grading through a heavily timbered swamp of nearly half a mile at S½ lot 12, con. 3; and again from con. 4 north, another half mile was opened, with some repairs of work done last year.

Morley Township Road.

This work was from the n. w. quarter of sec. 26, Morley, north a mile and a half, the whole length being chopped and grubbed, with some ditching.

Morley and Patullo T. L. Road.

Nearly two miles of new work, from Morley road east on the town line, consisting of chopping, grubbing, crossweying and ditching.

Morley and Shenston Road,

From the n. e. corner of sec. 25, Morley, to n. e. cor. sec. 28, Shenston, three miles have been chopped, grubbed, graded and generally ditched.

Mudge Bay Road.

Work was commenced between lots 25 and 26, concession 8, Billings, and continued south to Mud River bridge, amounting to about three-quarters of a mile, of ditching mostly.

Oliver Township Roads.

The returns and accounts for these works were not received at the time of closing the report for the year.

Ouimet and Black Bay Road.

The repair chiefly of thirteen small bridges, which were entirely worn out through age.

Parkinson Road.

Half a mile of road opened from lot 4, concession 3, Gladstone, north through concession 5.

Five miles were repaired on the southern portion of the road, showing a very full amount of work done for an expenditure of $419 03.

Parkinson Road.

This road is on Manitoulin Island, consisting of repairs from lots 25 and 26, concession 6, Bidwell, south to concessions 4 and 5; thence west to lot 26, and thence southwesterly across lots 26 and 27 to the third concession, a distance of two miles, and which, with off take drains, makes an excellent road.

Patton and Dean Lake Load.

Continuing from last year's operations at concession 2, Patton, on line between lots 10 and 11, work was continued south to concession 5, Thompson, and to Mississaga River road, improving about three miles.

Plummer and Lefroy T. L Road.

This work was begun at the s. w. corner of section 18, Lefroy, and grading and ditch-continued north half a mile. The road was chopped out in 1897.

Plummer Sixth Concession Bridge.

A sixty feet bridge, with a clear span of twenty-four feet.

Port Finlay and Port Lock Road.

Commencing at Desbarats Station, a mile was opened or improved westerly.

Port Lock and Desbarats Lake Road.

Two miles have been opened and graded from between lots 4 and 5, concession 2, Johnson, to lots 4 and 5, concession 4.

Prince Township Road.

Beginning at the 4th concession n. e. $\frac{1}{4}$ section 24, three-quarters of a mile was opened westward between sections 13 and 24.

Rainy River Road.

Four and three quarters miles of excellent work was done east of Emo with tap and off-take drains.

Another three miles in the vicinity of Big Fork were very well improved.

A mile and a quarter was brushed, grubbed, and thoroughly improved from the west town line of Barwick westward, with a mile or more ditching and half a mile of cross-waying.

A bridge was also constructed over Elatt's creek, one hundred and twenty-seven feet long ; nine miles of road improvements beside the bridges.

Rat Portage Road and Bridge.

This work was chiefly building a bridge of three 20-feet spans and full length of ninety three feet and location of a portion of the road.

Savanne Road

The completion of a road opened in 1897, and the work of the present year being mostly gravelling. The inspector suggests another small grant to fully finish the work.

Spanish Station Road.

This was chiefly new work from n. e. cor. sec. 39, Sheddon, and intersection of Great Northern road half a mile south to Spanish river and to a steamboat landing. Other work was done improving some hills and building a cedar bridge.

St. Joseph Island Roads.

About four and three-quarters miles of road were graded and otherwise improved ; work being upon A line, S and T line, U and D line and one or two others, all work being reported as satisfactory.

Thessalon River Bridges.

Three bridges of importance were repaired, namely West's bridge, lots 6 and 7, con. 3, Plummer ; Stewart's bridge, lot 6, con. 2, Coffin, and McDonald's bridge on town line between Coffin and Galbraith.

Vankoughnet Road.

From n. w. angle of section 36, Fenwick, where work ended last year under the supervision of the Department of Indian Affairs, and on which road they had spent about $500, work was continned for a mile and a half, and a bridge one hundred feet long was erected over Cranberry creek near the town line of Fenwick and Pennefather.

Victoria and Salter T. L. Road.

This work was almost exclusively the bridging of Black creek on sec.' 38 Victoria It is a queen truss of 55 feet span with necessary approaches.

Wainwright and Van Horne Road.

Repairs were made in the townships of Wainwright and Eton, over seventeen or eighteen miles of road, and between Dryden and Barclay in the township of Zealand, some three or four miles were roughly opened for the benefit of settlers generally.

Wells 2 and 3 Con. Road

From the road allowance between lots 4 and 5 westward nearly two miles of substantial repairs were effected and the road reported as in a very fair condition.

WEST DIVISION.

Ah-Mic Road.

More than one mile of road opened towards Ah-mic Harbor.

There is work yet to be done before the contemplated improvements are finished. The construction this year was from lot 31, con. 5, Croft, northerly through said lot and the same number of lot in con. 6.

Ah-Mic Harbor Bridge.

A bridge almost one hundred feet long over an arm of Ah-mic lake, lot 23, con. 9 Croft. The previous structure erected many years ago was entirely destroyed.

Baxter Roads.

Three miles were opened through a rough section from lot 32, between concessions 4 and 5, through lots 31 and 32, through concessions 5, 6, 7 and part of 8. Repairs were also made over a mile and a half from lot 25, con. 4 to lot 23, con. 7, all in the township of Baxter.

Beatty's Creek Bridge.

This is a bridge in Nipissing township, built over the creek named, and is one hundred and twenty feet long, resting upon seven bents with 3 inch plank covering.

Bethune 25 and 26 Side Line Road.

A mile opened from last season's operations extending northward, giving a way for settlers to Ravensworth station on the Ottawa, Arnprior and Parry Sound Railway.

Cardwell Road.

The opening, grubbing and grading of somewhat less than a mile through lots 6 and 7, con. 8, Cardwell, included in which is almost an eighth of a mile of crossswaying with nine stone culverts. The work is as a deviation about a large hill on the main road.

Cardwell No. 3 Road.

More than half a mile opened and graded through lot 26, con. 3, and through lot 25, con. 11, giving settlers access to Rosseau.

Chaffey 30 and 31 Side Line Road.

A mile and a half chopped, grubbed and graded, beginning at lot 31 and angling through said lot and partly through lot 30, con. 10, where it unites with the road proper between lots 30 and 31, forming thus a through connection with Huntsville, and is of great service to settlers.

Chaffey Bridges and Road.

A bridge over East River on Muskoka road was largely renewed and some road work done on the side line between lots 5 and 6 of Chaffey.

A contribution of $50 was also given to the municipality towards the renewal of a bridge on lot 7, concession 1, and which cost, according to statement furnished, $226.39.

Christie Road.

Three miles and a half of repairs, from lot 3, concession 11, Foley, eastward to lot 23, concession 9, Christie.

Christie and Foley Road.

The opening of three quarters of a mile through heavily timbered land to give an outlet to certain settlers in Christie and Foley to the railway, the work being from concession 7 between lots 10 and 11, south between lots 125, and 126, of the Parry Sound road survey, to the Parry Sound railway.

Distress River Road.

Half a mile of road opened across lots 14 and 15, generally between concessions 8 and 9, Chapman, with some heavy work about lot 6, involving a quantity of stone-filling and earth-work.

Dorset and Huntsville Road.

From concession 6, Franklin, repairs were made towards Dorset, two and a half miles, the whole length being very well graded, including the re-covering of three bridges.

Draper Road.

Repairs from Muskoka Falls, south-easterly two miles and a half, including some heavy rock blasting.

Fox Point Road.

A mile and a half opened and made fairly passable from lot 14, concession 6, Franklin, following the lake shore through lots 15 and 16, concession 5, and 15, 16 and 17 concession 4, to the line between concessions 3 and 4, giving settlers an outlet to the Muskoka and Bobcaygeon road.

Golden Valley Road.

Repairs beginning at lot 6, concession 12, Mills were extended to lot 33, a length of a mile and a half; also from lot 2, between concessions 8 and 9, Pringle, west to lot 11, three miles were fairly improved and will be of much advantage to settlers.

Gurd 20 and 21 Side Line Road.

This work was the chopping out and grubbing of a mile and a quarter, through concessions 3 and 4, of the side line mentioned.

Hagerman 25 and 26 Side Line Road.

The repair of two and a quarter miles through concessions 4, 5, 6, and part of 7, on the side line referred to, and good work reported.

Himsworth Road.

Nearly two miles improved from concession 14 to concession 18, of the township of Himsworth, making a good road between Powassan and Himsworth.

Humphrey and Conger Road.

Beginning at Parry Sound road, work was extended south three and a half miles on the town line named, excepting two deviations amounting to seventy rods of crosswaying.

Junction No. 2 Road.

A mile and a half of extensive repairs from lot 22, concession 3, McKellar, westward with another half mile in the same direction.

Long Lake Bridge.

A floating bridge six hundred and forty feet long at lot 14, concession 6, township of Stephenson, re-planked throughout, and otherwise substantially repaired.

Macaulay Road.

The repair of this road was made from lot 14, concession 7, Macaulay, a mile and a half over a rough rocky section between Dorset and Baysville, the main and only road in that district.

Maganetawan River Bridges.

A bridge one hundred and seventeen feet long was renewed, one span bring 53 feet in the clear, and another 45 feet.

A second bridge with a 34 feet clear span was built on the same (Poverty Bay road). This is the most important road in that district and the only one between Maganetawan and Ah-mie Harbor.

McKenzie Township Roads.

In this case a mile and a quarter was chopped out, grubbed and levelled, from lot 20, concession 3, at Whitestone road, to concession 4, for an outlet to settlers. Six miles were repaired, in addition to the foregoing work, from lot 5, concession 2, westward between concessions 2 and 3 to lot 30, all in the township of McKenzie.

Mills and Wilson Road.

This work was chopping and grubbing through heavily timbered lands two and a half miles, beginning at lot number 9 between concessions 2 and 3, Hardy, and from thence eastward to lot number 1, township of Patterson.

Some deviations were made from the road allowance across lots 2, 3 and 4 in the township of Hardy.

In connection with the work a log bridge two hundred and thirty two feet long was built over a creek on lot 5, between concessions 2 and 3, Hardy, representing a large amount of work for the expenditure of $494 50.

Muskoka Road.

Half a mile of road opened from the first concession of Nipissing along the road allowance at the south-east end of lots 189 and 190 of the Rosseau and Nipissing road survey.

It is through a very rough section, but when connected with Alsace road will be valuable to settlers.

Muskoka Bridge.

A bridge was built over Muskoka river on lot 17, between concessions 7 and 8, township of Draper, the condition being that the Government would give a contribution of $300 (as in Estimates), if the municipality would complete the work satisfactorily.

The bridge is a steel superstructure built upon stone abutments and cost, the Inspector has reported, about $750. The main opening is sixty-three feet, with a fourteen-feet roadway.

Musquosh Road.

Repairs from Bala (lot 34, concession 6, Wood), south-easterly along old Main road to about lot 28, concession 7, something like a mile and a half.

Neville Road.

About half a mile of grading and chopping out, from lot 13, concession 3, McDougall, eastward. It is a road extensively used by settlers, as also that mines are being developed in that vicinity.

Nipissing Road.

Repairs for South River bridge, near Nipissing village, to Sharp's Corners, lot 20, concession 18, Himsworth, a length of five and a half miles, and with the work upon Himsworth road, opens a very fair highway between Nipissing and Powassan, over which there is constant traffic.

Northern Road.

Two bridges were repaired on this road, one being Maple Island bridge, the other Deer River bridge.

Repairs were also made over a mile of the road between lot 2, concession 2, McKenzie, and lot 31, concession 6, Ferrie.

Northwest Road.

Three bridges on this road, which leads to Byng Inlet, were renewed, one being over Rainy Creek, seventy feet long; a second near Shawanaga river, three hundred and fifty-six in length, and a third one near 34-mile post, one hundred and twenty-nine feet long.

Oakley, Draper and Ryde T. L. Road.

From lot 31 on the town line between Longford and Oakley, and angling from thence through lots 32 and 33, Oakley, thence again angling through lots 35, 36, 37, Longford, and further on or near the town line between Ryde and Draper, westward a length of three miles, were very well improved. The road was opened some six years ago, but fires and storms had so destroyed it that travel was impossible. It is a rough, rocky section unfit for settlement; but of great advantage to those on either side, giving a much shorter way to markets at Gravenhurst and elsewhere.

Peninsula Road.

This work was repairs upon bad hills, one being on lot 9, concession 7, Humphrey, and the other on lot 11, concession 6, aggregating a length of about half a mile.

Perry 12th Concession Road.

The opening of over a mile of new road from lot 26 eastward, giving an outlet to Emsdale settlers living on the 12th concession of Perry.

Perry and Chaffey Road.

The grubbing and grading of over a mile from last year's work southward to the 10th concession of Chaffey. The work is highly mentioned.

Rosseau and Christie Road.

Repairs between concessions 10 and 13 of the township of Humphrey, in length about three-quarters of a mile, and in addition to which an off-take drain forty rods long was made for drainage purposes.

Rosseau and Nipissing Road.

Four miles of repairs from the railway crossing lot 28, Nipissing road survey, in Monteith, northward to lot 44, Spence. This portion is now in excellent condition.

Sinclair and Bobcaygeon Road.

Improvements between Field's corners, lot 16, between concessions 4 and 5, Sinclair, eastward on the concession line mentioned to lot 3, concession 7, Finlayson, a length of seven and three-quarter miles.

Sinclair and Franklin Town Line Road.

This was the opening and grading of a mile and a quarter through a rough and rocky tract of land opposite lots 4, 5, 6 and 10 and 11, giving an outlet to settlers east of the work. The road will be and is now extensively used in teaming to Huntsville.

Stisted 12 and 13 Concession Road.

For this outlay, $107.75, 31 rods of cross-waying were laid through what is called Stisted swamp, and a very substantial work effected.

Stony Lake Inlet Bridge

A bridge over the outlet of Stony Lake where 20 piles were driven for the substructure and all other material necessary for completion of the bridge built in and the work finished. The municipality of the township of Strong supplied all material, so that the Government expenditure was for labor only.

Westphalia Road.

The chopping, grubbing and grading of one hundred and fifteen rods through a rocky section in order to reach a better and more level district. The work was from lot 16, between concessions 1 and 2, to the line between lots 14 and 15, a short but important road.

EAST DIVISION.

Addington Road.

The improvement of three miles and a half in the township of Lyndoch from lot 10 concession 13, south-westerly.

Airy Township Road.

A work extended from Whitney station, on the O. A. and P. S. Railway, (lot 9, concession 5, Airy), southerly to lot 10, concession 1, about four miles.

Anson Road.

This work was commenced on the east side of lot 1, between concessions 4 and 5 Anson, and continued north-westerly to the road allowance, between concessions 6 and 7. The first half mile was through cleared land and the balance through bush equalling two miles of new road which the inspector says was well and fairly done.

Anstruther Road.

Some ten miles of repairs from lot 34, concession 4, Anstruther, north to lot 39, concession 13. Several bridges on the road were also restored to general efficiency.

Anstruther, Burleigh and Chandos Roads.

In the above-named townships work was done in Chandos in making repairs on concessions 2, 13, 14, 17 and 18 to the extent of eleven miles; and in Burleigh milk routes were improved in concessions 3, 5, 12 and 16, amounting to two miles.

Bonfield and Boulter Road.

The grading of three-quarters of a mile on the boundary between Bonfield and Boulter and the construction of a bridge two hundred and thirty feet long.

Brudenell and Hagarty Road.

Repairs from lot 26, concession A, Hagarty, eastward three miles making the road a good travelable one.

Buckhorn Road.

Seven miles of substantial repairs from Hall's bridge northward, consisting chiefly of stone and earth filling upon crossways.

Burleigh Road.

From about one mile south of Burleigh Falls, five miles were very well improved by grading and macadamizing. The County of Peterboro and township of Smith gave each $100 to supplement an equal sum by the Government. On this same road from Apsley southward thirteen miles were also substantially repaired.

Burnt River Bridge.

A bridge renewed over the north branch of Burnt river, between lots 10 and 11, concession 5, Snowdon, composed of two thirty feet spans and length one hundred feet. A second bridge over the main stream on lot 10, concession 1, was also renewed, the structure being of a similar character with the first named and only two feet longer.

Caldwell No. 2 Road.

One mile of repairs were made upon the old road, new work beginning at concession 2, continuing south between lots 8 and 9, three-quarters of a mile on which length a bridge, with an opening of 32 feet, was erected and permanently completed as to approaches with stone and earth filling.

Calvin 30 and 31 Side Line Road.

This was the grading, ditching and gravelling of about five-eighths of a mile between concessions 2 to 5. A further grant of $250 to $300 is required to complete the contemplated work.

Cardiff Bridge and Road.

A bridge was erected over a river on lot 21, concession 16, one hundred and twenty feet long of a very substantial character; and from Deer Lake station to lot 21 the bridge above mentioned, three and a half miles well repaired at a cost of about $300, while at the south end of the same road four miles were also improved.

Carlow 5 and 6 Concession Road.

Between lots 15 and 20, on the concession line indicated, a mile and a quarter previously cut out roughly by settlers was further opened and improved, making the length now fairly passable.

Carlow Road.

From lot 24, con. 13, township of Mayo, a quarter of a mile was opened between Fort Stewart and McArthur's mills in a northerly direction.

Cashel Road.

Repairs from ending of last year's work (lot 11, con. 8, Cashel) eastward to lot 5, con. 8, making a fair waggon road for a length of a mile and three quarters.

Casimir Township Road.

Beginning at lot 7, con. 2, Dunnet, a mile of extensive improvements were made west on the 2nd concession line, and again starting from the north boundary of Casimir, three miles were opened south between lots 10 and 11, two and a quarter miles being graded and the balance cut out and levelled only.

Chandos Road.

A road from Apsley eastward, and otherwise known as Wellington road. The work this year was from lot 25, con. 2, Chandos, about three miles eastward, and being general repairs.

Cavendish Roads

Two miles and a half of repairs were made from lot 3, con. 18, eastward, to lot number 12; and from lot 11, con. 10, east to Buckhorn road, a mile and a quarter was opened; also between lots 8 and 9, through concessions 13 and 14, another mile and a quarter was opened.

Chisholm Township Roads.

In this township half a mile was opened between concessions 16 and 17, and a bridge built over Depot creek. A mile was also opened from the road allowance between lots 10 and 11, west, between concessions 11 and 12.

On the 10th and 11th con. line more than half a mile of crossweying was done, and on the 6th and 7th con. line a mile and a quarter was opened from lot 11 eastward to lot 15, making altogether three and a half miles of new road.

Combermere and Palmer Rapids Road.

Repairs from Palmer Rapids west along or near the north shore of Madawaska river to Combermere, about six miles, making a passable waggon road throughout the whole length.

Dummer Road

The repair of this road near Warsaw, and a leading road. The County of Peterboro' and the township of Douro gave each $100, leaving $96.11 as the outlay by the Government.

Eganville and Foymount Road.

Three and a half miles improved from a point about 7 miles south of Eganville (near Hurd's Creek bridge) south-westerly.

Ferris Township Roads.

The construction of a mile and a quarter on the 8th and 9th concession line, opening the concession to lot 19. Three quarters of a mile was also opened from North Bay road west, between concessions 14 and 15, crossing the C. P. Ry. Another section was opened between lots 14 and 15, from Lake Nipissing to C P Ry., a mile and a quarter long.

Field Road.

A road was opened from lot 12, con. 1, Field, to lot 11, con. 4, about two and a half miles. Three miles were also repaired of portions opened within the past two years, representing a considerable amount of work for the money spent.

Field No. 2 Road

This was a continuation westerly on the south side of Sturgeon river of a road between lots 6 and 7, con. 3, of Field, equalling three miles of new work.

Field 2 and 3 Con. Road.

From lot 1, con 2, Field, a road was opened eastward to boundary between Field and Grant, thence north half a mile, and thence east to lot 11, Grant, altogether three miles.

Foymount and Brudenell Road.

The repair of four miles between Foymount and Brudenell.

Fort Stewart Road.

Five miles of general improvements from Fort Stewart, in the township of Mayo, northward to the south boundary of Carlow.

Frontenac Road.

Small bridge and road repairs.

Galway Roads.

Twelve miles of substantial repairs were effected in this township, namely: On the Monck Road through lots 42, 43 and 44, with two miles of work east of said lots. Also between lots 30 and 31, and between concessions 10 and 11 and concessions 12 and 13, continuing in each instance to the side line between lots 15 and 16.

Galway 4 and 5 Con. Road.

The repair of about three miles from Bobcaygeon road east, which, through washouts and freshets, were in bad condition. A quarter of a mile was also opened on the boundary between Galway and Harvey for the advantage of settlers.

Galway and Cavendish Roads.

A continuation of work from lot 32, between concessions 13 and 14, east to lot 15 Cavendish, some four and a half miles of substantial repairs.

Grattan 30 and 31 Proof Line Road.

Improvements from lot 20 northward between lots 30 and 31, a mile and a quarter, making a fair waggon road.

Grattan 4th Chute and 14th Concession Road.

The opening of a mile and a quarter, from lot 19, concession 14, Grattan, eastward on the 14th concession road, for the benefit of a number of settlers in the east portion of the township.

Hagarty 2nd Concession Road.

From lot 13 westward a mile and a half was well repaired between concessions 2 and 3, in blasting, covering long crossways, and other improvements.

Harburn Road.

This work was commenced at lot 31, concession 1, Dysart, and continued to the Peterson road in Harburn. Six miles of repairs are reported as having been satisfactorily made.

Hinchinbrooke 5 and 6 Side Line Road.

The improvement of two miles from concession 11 westward to Hinchinbrooke boundary and practically on the road allowance between lots 5 and 6, opening a very passable road.

Hugel Road.

From the boundary of Hugel and Badgerow westward one mile, between lots 1 and 2, and thence north two miles. The last mile was opened and the first two miles repaired.

Hugel and Badgerow Road.

The object of this road is to open a general highway to Lake Tamagamingue, but is not yet completed. The appropriation this season has, however, improved a road from the north end of lot 1, Badgerow, north for two miles, with half a mile of repairs on the southern portion.

Hyde Chute and Sanson Road.

Repairs from Sanson's corners, or intersection of this with Opeongo road, in a south-westerly direction, about six miles; and again from Hyde's Chute bridge, on Madawaska river, north-eastward some nine miles, or fifteen miles altogether.

Jack's Lake Road.

Commencing at lot 24, concession 6, Burleigh, repairs were continued south to lot 16, concession 16, some two miles.

Jones' Falls and Battersea Road.

Work was continued from that of last year eastward one mile from lot 6, concession 9, South Crosby, consisting in repairing rough, rocky hills and filling up low, wet portions of the road.

Killaloe and Emmet Road.

Beginning at lot 9, concession A, Hagarty, repairs were extended southerly to the Opeongo road, a length of three and one half miles.

Killaloe and Bonnechere Road.

In this case the work consisted in opening a large drain or ditch of an average depth of nearly four feet and equal width, from lot 1, concession 6, Hagarty, west to lot 4: and again, from concession 6, on the line between lots 5 and 6, southward three-quarters of a mile; altogether a mile and a quarter of ditching.

Kirkpatrick and McPherson Road.

This work was from the boundary of Kirkpatrick and McPherson and west boundary of Caldwell, westward, on the said boundary between Kirkpatrick and McPherson, to the west side of lot number eight, four miles; with, however, an intervening section not yet properly opened, and which may require another small appropriation.

Lonsdale and Bridgewater Road.

Improvements on the line between concessions 3 and 4 of Hungerford, north, on the line between lots 24 and 25 to the road allowance between concessions 4 and 5, one mile.

Loughboro' Lake Road.

Beginning at lot 12, concession 13, Storrington, and end of last season's operations, repairs were extended to lot 20, concession 12, three and one half miles. Again, from lot

1, concession 11, to lot 6 further improvements were effected, including a 32 feet bridge, with clear span of 18 feet.

Lyndoch 13 Concession Road.

Repairs from lot 7, concession 16, Lyndoch, eastward a mile and a half, the work consisting chiefly in covering crossways and making new culverts.

Martland Township Road.

Beginning between lots 5 and 6, concession 1, township of Haddo, work was continued south to the Martland boundary, one mile, and two and a half miles into the latter township; and thence west to lot 7, a length of four miles altogether, opening up one of the best portions of Nipissing district.

Mattawatchan Road.

From lot 1, concession 3, Mattawatchan (the south boundary), repairs were extended northward to lot 10 in the 4th concession, a length of about five miles.

Mattawan Township Road.

Nearly half a mile of ditching was done from lot 34 west, between concessions 8 and 9, with the repair of a hill on lot 24, concession 13.

Mississippi Road.

From Addington road eastward to the east boundary of Abinger, fourteen miles were very much improved by blasting, levelling and making off-take drains. A bad hill on Mississippi and Addington Junction road was also improved by grading and levelling. On this same, from its junction with Lavant road in Palmerston, work was extended westward about eight miles and a half; several necessary deviations were made and many crossways gravelled and otherwise improved. Four miles of repairs were also effected between Bancroft and Bronson.

Monck Road.

The repair of this road was begun at Bancroft and extended west about eight miles, consisting in part of four deviations, the covering of crossways, and introduction of several new culverts.

Monteagle Road.

Between lot 9, con. 3, and lot 12, con. 4 of Monteagle, a mile and three-quarters which had been opened by the municipality as a winter road, has been formed into a passable highway for general traffic at all seasons.

Mount St. Patrick and Blackdonald Road.

Repairs from the line between the lots 4 and 5, con. 12, Brougham, southerly, on the road named, a mile and a quarter of very substantial work.

Nogie's Creek Road.

Three miles were improved northward from lot 22, con. 14, Harvey. Another three miles in the same township were repaired on the same road, which, with a mile between lots 29 and 30, con. 3, represents seven miles of substantial work.

North Algona 8th Con. Road.

From concession 6, township of Hagarty, northward on the boundary between Hagarty and South Algona to Bonnechere river, repairs covering two and a quarter miles were made. Extensive off take drains were also opened to carry off water and drain the road, which was somewhat expensive, but necessary to make a good and permanent highway.

North Harvey Road.

Seven miles well repaired, from lot 10, con. 8, Harvey, eastward.

Northbrook Road.

From Northbrook, a point on Addington road at lot 27, con. 8, Kaladar, improvements were made eastward four and a half miles between lots 25 and 26 Kennebec. Deviations were also made for the improvement of location, and some bridges and culverts were re-built.

Opeongo Road.

Four and a half miles improved, from Plaunt's hotel, easterly, of a substantial character.

Papineau Bridges.

A bridge was built over Boom creek, on side line between lots 14 and 15, con. 12, Papineau, one hundred feet long, with an opening of 24 feet, and balance of earth approaches. A second bridge was erected on the 12th and 13th concession line, over the same creek, of the same length as above, but with an opening of nineteen feet only. There was a third bridge constructed over a creek on con. 10, about seventy feet long, with a 12-feet opening, and approaches of each thirty feet.

Papineau Road.

The work in this instance was grading and improving on con. 8, Papineau, across lots 30 and 31, half a mile; also on the side line between lots 30 and 31, six hundred yards were repaired, while on the side line between lots 25 and 26, through concessions 10 to 12, a mile and a quarter was repaired, representing good work for the appropriation.

Petewawa 24 and 25 Proof Line Road.

This work was from con. 2, Range B, at the north end of the 2nd concession of Petewawa, on the line between lots 24 and 25, northerly, about three-quarters of a mile it was through a low and wet tamarac swamp.

Radcliffe and Brudenell T. L. Road.

Four and a half miles of substantial work, from Peterson road, at Rockingham, on approximately the town line named to the south boundary of Brudenell.

Rolph Bridge.

This was the construction of a road over McConnell's creek, on the Pembroke and Mattawa road, in the township of Rolph.

Round Lake Road.

A road between Stony lake and Havelock, on concession 10, Belmont. Last year the road was opened to lot 26, and this season further opened from lot 20 to lot 25, two miles. There is yet half a mile to construct, which might be done for $75 or $100.

Ryan Road.

Between New Carlow and Combermere road, lot 6, con. 13, Carlow, six miles were improved on this "Ryan road," which had been roughly opened by lumbermen about forty years ago.

Scott Line Road.

Three and a half miles of repairs from lot 29, con. 12, of Wollaston westward. This portion is now said to be a very good waggon road.

Shields' Road.

Work was commenced at lot 15, con. 14, Brudenell, and extended easterly a mile and a half, very much improving the road.

Smoky Falls Bridge.

Smoky Falls bridge spans Sturgeon river, on lot 2, con. 1, Field, with a full length of two hundred and sixty-nine feet. There are two 55-feet clear openings, and six piers altogether, the entire work being of a strong and substantial character, and will, no doubt withstand the great freshets which annually occur on this river.

South Algona Road.

This work was commenced between lots 5 and 6, con. 6, and extended north on the side line named in South Algona, to the Indian Reserve, a length of three-quarters of a mile—opened, grubbed and graded, making a good waggon road.

Springer Road.

Half a mile in this case was opened, from the ending of work two years ago, extending from lot 2, con. A, south to lake Nipissing.

Springer A and B Con. Road.

From lot 1, con. A, work was continued west about three-quurters of a mile, opened to reach several settlers in that vicinity.

Sturgeon River Road.

Repairs from con. 2, Springer, north, to con. 1, Field, six miles of satisfactory work.

Sudbury and Chelmsford Road.

In this case four miles of road were opened from near Sudbury, on the south side of the Canadian Pacific Railway north-westerly. Of the length mentioned two miles and a half have been well finished, and the balance, though opened, is not fully completed for general traffic. The townships of McKim, Balfour, and the town of Sudbury contributed each $50 towards this work.

Temiscamingue Roads.

In the above district about ten miles of roads were opened, and about ten miles repaired, and a bridge 169 feet long erected, the operations being as follows :—A mile and a half cut out on con. 3, Dymond, from the boundary of Harris, north to corner of lots 10 and 11, thence west to join Dawson Point and Liskeard road, and towards which settlers gave $30 00 free labour. There was also a quarter of a mile ditched on the said Liskeard and Dawson Point road. A mile and a quarter of double ditching was done from lots 2 and 3, con. 4, Dymond, eastward, to a bad swamp. From the s. e. corner, lot 1, con. 2, Kearns, to the corner of the four townships of Kearns, Dymond, Harley and Hudson, a mile was opened, nearly half a mile on the Provincial line, and nearly three-quarters of a mile in the township of Dymond on the third and fourth con line, from lots 1 to 3. A mile and a quarter of West Dymond road was graded from Liskeard and half a mile stumped and further improved ; the bridge over the west branch of Wabis creek was raised four feet for better waterway, involving a new pier and other changes. On the Haileybury and Liskeard road four miles ware stumped and partially graded, fifty-four chains of which were cut out anew, while on Bucke township road, from Haileybury south, three miles of work was done, mostly drainage. Again, between cons. 1 and 2, Bucke, half a mile of road was opened, and a substantial bridge, one hundred and sixty-nine feet long built over Mill creek ; three miles were also cut out between cons. 3 and 4, Bucke, and three

small bridges were built. A new road was cut out from Wright's creek bridge northwestward to the line between lots 8 and 9, con. 3, and thence north to cons. 3 and 4, Casey, three-quarters of a mile; and in the same township on the said 3rd and 4th concession line a road was cut out and partially stumped, from White River east to side line between lots 8 and 9, thence north to Wright's creek, thence west to lots 6 and 7, con. 5, and thence north between lots 6 and 7, to bend of Wright's creek—a distance of two and a half miles. A portion of this distance is, of course, but roughly opened. Lastly, from the bend of Wright's creek, lots 6 and 7, north, half a mile to concessions 5 and 6, and thence west to White river two miles and a half were opened, one and a half of which was only logged and stumped.

Veuve River Bridges.

A bridge over Veuve river, on lot 5, between concessions 1 and 2, Caldwell, and is comprised of two abutments, two piers, and a superstructure. The main opening is fifty-five feet in the clear, and there are two others of twenty-eight feet each. The floor of the bridge is fourteen feet above average water, and the total length of the structure is one hundred and seventy-six feet. The wooden piers are filled to the top with stone for solidity. Another bridge over the same river, about two and a half miles east of Warren, was also constructed, and is locally known as Bartlett's bridge. It is one hundred and fifty-six feet long, with pile substructure, and is reported to be an excellent bridge.

Verner and Badgerow Road.

Four miles of general repairs, from concession 1, Gibbon, to lot 8, concession 3, Badgerow.

Victoria Road.

From the boundary line between Carden and Dalton, eight miles of work was done southward to Talbot river. The total expenditure on this road was $507.80, towards which the County of Victoria gave $150, township of Carden $33 33, township of Laxton $33.34, the township of Bexley $33.33, making in all $250 of a grant towards the road. The Departmental expenditure is therefore only $257.80.

Wahnapitae Road.

Seven miles of repairs from near Wahnapitae Station northward, and another mile from the station westward.

Warren Bridge.

A bridge one hundred and eighty feet long, built over Veuve river, about a quarter of a mile south of Warren village, on the line of Dunnet road. It stands upon twenty-four piles, has a span of forty feet, the superstructure being nineteen feet above general water level for the purpose of guarding against spring freshets. A contribution of $382.09 was made by the municipality for this work.

Westport and Maberly Road.

The improvement of about three and a half miles, from lot 14, concession 12, South Sherbrooke, to lot 14, concession 9. A large portion of the expenditure was made in renewing a bridge over Boulton's creek, requiring two new piers. The bridge is two hundred and fifty feet long.

Widdifield Roads.

A road was opened from lot 9, concession A, to concession 2, two miles; the last quarter being for a winter road only; and on the 2nd and 3rd concession line, from the west side of lot 12 east to the east side of lot 10,—a mile and a half was opened. The sum of $100 was also spent on the 4th and 5th concession, from the west side of lot number 10, eastward, to the east side of lot number 9, the latter being three quarters of a a mile of new road.

Wollaston Road.

Six miles were improved from Coe Hill, southerly, to the boundary line of Wollaston at lot 22, concession 8, and thence to lot 29 in the 1st concession.

Wisawasa Road.

This work was a mile of ditching from the 15th and 16th concession line of Chisholm, along the road mentioned.

MINING ROADS.

Bell City and Mine Centre Road.

Something like a mile of ditching and draining was done on this road for its improvement. It was previously opened by miners, but was not in anything like good, travelable shape.

Bonheur and Saw Bill Road.

General improvements were made over this road in repairing crossways, drainage, and other work.

Gros Cap and Lake Wawa Road.

Six miles and a half have been opened between Gros Cap and Lake Wawa, in Michipicoten, from a point at Harbor Beach, one hundred and fifty-six feet east of the s.w. corner post of Indian Reserve, about N. 10° E, to intersect with Michipicoten tote road. Over Magpie river a bridge two hundred feet long was erected, comprised cheaply of two seventy feet spans, with pile substructure and protection piers, to guard the bridge against ice and spring freshets. Contributions were received from various mining companies for the furtherance of this work, amounting altogether to $465.

Jackfish Bay and Long Lake Road.

Improvements were made over this road, which was first opened in 1896, from Jackfish Bay, of Lake Superior, northward. It was the northerly portion which was worked upon, to enable miners to take in their machinery.

Lake Wabigoon District Road.

Some four or five miles have been opened upon the south side of Big Sandy lake, to connect a road from Wabigoon on the west side of the lake with an existing road built by the Hudson's Bay Company to the south end of the same lake. It may be deemed necessary to make an extension about the east side of the lake to advance the development of mining properties in that vicinity.

New Klondyke Road.

Two miles of road were opened fairly, and another mile cut out twelve feet wide and fairly cleared. There was also three-quarters of a mile of corduroying, with a considerable amount of ditching. The position of this road was pretty fully given in last year's report.

Olive Mine Road.

This is a road from Olive mine and other mining locations leading to Bad Vermillion lake, and which I believe the Olive Mine Company, with others, spent some $400 in opening. The expenditure by the government this year will of course very much improve it. The length is about five miles.

Shoal Lake and Turtle River Road.

A general course of repairs over the whole road, but chiefly crosswaying, ditching and draining. The grant was not sufficient to grade the road completely.

Upper Manitou Road.

This is a road about seven miles long, between Wabigoon lake and the Upper Manitou lake, over which there is a large general traffic, and this was repaired.

Wabigoon and Mine Centre Mail Route.

This work is, as its name indicates, a mail route, and for winter purposes only. The object is to carry mail matter from Wabigoon southward to miners and inhabitants in that district, to meet the mail route of the Seine river. Without this line, it appears necessary to obtain letters through the United States, via Tower, in Minnesota,—the result being much delay and a greater distance to traverse ; and it is hoped that a more regular mail service will be established over this line than hertofore.

AUBREY WHITE,
Assistant Commissioner.

Department of Crown Lands.
Toronto, December 30th, 1899.

REPORT

OF THE

ROYAL COMMISSION

ON THE

FINANCIAL POSITION

OF THE

PROVINCE OF ONTARIO.

CORRECTED EDITION.

TORONTO
WARWICK BRO'S & RUTTER, PRINTERS.
1900.

O. Mowat, Lieutenant-Governor.

PROVINCE OF ONTARIO.

Victoria, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, &c., &c., &c.

To John Hoskin, Esquire, L L D., one of our counsel learned in the law and president of The Toronto General Trusts Corporation, Byron Edmund Walker, Esquire, general manager of the Canadian Bank of Commerce, and Angus Kirkland, Esquire, manager of the Bank of Montreal, Toronto, all of our City of Toronto, in our County of York and Province of Ontario.

Our Commissioners in this behalf, greeting:

J. M. Gibson, Attorney-General.

Whereas in and by chapter nineteen of the Revised Statutes of our Province of Ontario, entitled "An Act respecting Inquiries concerning Public Matters," it is enacted that whenever the Lieutenant-Governor of our said Province-in-Council deems it expedient to cause inquiry to be made into and concerning any matter connected with the good government of our said Province, or the conduct of any part of the public business thereof, or the administration of justice therein, and such inquiry is not regulated by any special law, the Lieutenant-Governor may, by the commission in the case, confer upon the Commissioners or persons by whom such inquiry is to be conducted, the power of summoning before them any party or witnesses, and of requiring them to give evidence on oath, orally or in writing (or on solemn affirmation if they be parties entitled to affirm in civil matters), and to produce such documents and things as such Commissioners deem requisite to the full investigation of the matters into which they are appointed to examine, and that the commissioners shall then have the same power to enforce the attendance of such witnesses, and to compel them to give evidence and produce documents and things, as is vested in any Court in civil cases, but that no party or witness shall be compelled to answer any question by his answer to which he might render himself liable to criminal prosecution.

Recorded 6th day of November, A.D. 1899.
JOHN F. U. USSHER,
Deputy Registrar.

And whereas it has been made to appear to the Executive Government of our said Province that it is expedient to cause an examination to be made (a) of the books of the Treasury Department of our said Province with a view to testing the accuracy of the receipts and expenditures as shown in the Public Accounts of our Province and (b) of the methods of bookkeeping adopted by our said department.

And whereas the Lieutenant-Governor of our said Province of Ontario-in-Council deems it expedient that inquiry should be made into the said matters.

Now know ye that we, having and reposing full trust and confidence in you the said John Hoskin, you the said Byron Edmund Walker and you the said Angus Kirkland do hereby, by and with the advice of our executive council of our said Province, appoint you the said John Hoskin, you the said Byron Edmund Walker and you the said Angus Kirkland to be our Commissioners in this behalf to inquire into and to report to our said Lieutenant Governor upon (1) The books of our Treasury Department with a view to testing the accuracy of the receipts and expenditures as shown in the Public Accounts of our Province of Ontario from the 1st day of July, 1867, to the 31st day of October, 1899, inclusive, and to submit a statement showing the actual annual receipts and expenditures of our Province for the period aforesaid. (2) To submit a statement of the moneys expended out of revenue (a) on public works and buildings and (b) on railways for each year since Confederation. (3) To examine and report upon the assets and liabilities of our Province on the 31st day of October, 1899. (4 To examine the books of our said Treasury Department and to report whether the methods of bookkeeping adopted by the said department set forth clearly and with such reasonable details as are usual in the case of large financial institutions the business affairs of the said Province.

Giving to you our said Commissioners full power and authority to summon before you any party or witnesses, and to require him, or them, to give evidence on oath, orally or in writing (or on solemn affirmation if such party or witnesses is, or are entitled to

affirm in civil matters), and to produce to you our said commissioners such documents and things as you may deem requisite to the full investigation of the premises, together with all and every other power and authority in the said Act mentioned and authorized to be by us conferred on any commissioner appointed by authority or in pursuance thereof.

And we do require you our said Commissioners forthwith after the conclusion of such inquiry, to make full report to our said Lieutenant Governor touching the said investigation together with all or any evidence taken by you concerning the same.

To have, hold and enjoy the said office and authority of Commissioners for and during the pleasure of our said Lieutenant-Governor.

In testimony whereof, we have caused these our letters to be made patent and the great seal of our said Province of Ontario to be hereunto affixed.

Witness: The Honourable Sir Oliver Mowat, Knight Grand Cross of our most distinguished Order of Saint Michael and Saint George, member of our Privy Council for Canada and etc., etc., etc., Lieutenant-Governor of our said Province of Ontario. At our Government House, in our City of Toronto, in our said Province, this second day of November, in the year of Our Lord one thousand eight hundred and ninety-nine, and in the sixty-third year of our reign.

By command,

G. E. LUMSDEN,
Assistant Secretary.

To His Honour the Honourable Sir Oliver Mowat, G.C.M.G., P.C., etc., etc., etc., Lieutenant-Governor of the Province of Ontario.

On 2nd November 1899, the undersigned were appointed a Commission as set forth in the following Order-in-Council which was passed under the Great Seal.

Upon the recommendation of the Honourable Mr. Ross the Committee of Council, advise that a commission be issued under the Great Seal, appointing John Hoskin, Esquire, Q.C., LL.D., President of the Toronto General Trusts Corporation, Byron E. Walker, Esquire, General Manager Canadian Bank of Commerce, and Angus Kirkland, Esquire, Manager of the Bank of Montreal, Toronto, all of the city of Toronto, Commissioners for the following purposes:

1. (*a*) To examine the books of the Treasury Department with a view to testing the accuracy of the receipts and expenditures as shown in the Public Accounts, from 1st July, 1867 to 31st October, 1899, inclusive, and (*b*) to submit a statement showing the actual annual receipts and expenditures of the province for the period aforesaid.

2. To submit a statement of the moneys expended out of revenue (*a*) on public works and buildings, (*b*) on railways, for each year since confederation.

3. To examine and report upon the assets and liabilities of the province on the 31st October, 1899.

4. To examine the books of the Treasury Department and to report whether the methods of book-keeping adopted by the said department set forth clearly and with such reasonable details as are usual in the case of large financial institutions, the business affairs of the province.

On 10th November, 1899, the Commission met and discussed the appointment of expert assistance to enable the Commissioners to comply with their instructions. It was resolved to employ Messrs. Clarkson & Cross, public accountants, to examine the books of the Treasury Department and such other records of the Government as might be necessary to the purposes of the enquiry. The work was undertaken by Mr. W. H. Cross, F.C.A., with whom the Commissioners have exhaustively discussed the methods used to ensure accurate information. The Commissioners now beg to report to your Honour as follows, taking up the four sections of the Order-in-Council as numbered therein, and quoting each section in direct connection with the report thereon.

SECTION 1 (*a*).

To examine the books of the Treasury Department with a view to testing the accuracy of the receipts and expenditures as shown in the public accounts, from 1st July, 1867, to 31st October, 1899, inclusive.

The books of account of the Treasury Department of the province of Ontario have been examined from 1st July, 1867, to 31st October, 1899, a period of 32 years and 4 months.

The methods of the Department and its financial records are excellent, and have been so for many years. The receipts by the various departments of government are evidently paid over to the Treasurer with promptness. All expenditures are made by cheque issued from the Treasury.

The present system has, however, been worked out somewhat slowly. In 1886 as the result of an examination, a report of which was submitted to the Legislature with the financial returns for the year 1888, it was shown that for an extended period there had been much laxity both in methods and practice, and although the aggregate loss to the Province proved to be only $6,276 19, this inefficiency in system left the door open to possibilities of serious wrong doing. The present Audit Act, R.S.O. Cap. 23, which was evidently the result of the laxity referred to, demands complete scrutiny of all transactions. It requires every expenditure to be vouched for in all respects before being made. A record of all payments so authorized is kept by the Auditor with particulars, and from this is prepared the financial statement submitted to the Legislature. Thus there is really a duplicate record of expenditures as there is in the various departments a duplicate record of a large portion of the receipts. The tendency of each improvement of system has been to centre financial control and responsibility more immediately in the Treasurer and his department.

SECTION 1 (*b*).

To submit a statement showing the actual annual receipts and expenditures of the Province for the period aforesaid.

The following statements, numbers 1, 2, 2a, 2b, 3 and 3a, afford the information required under this inquiry both by years and in detail, to which the Commissioners have added notes of explanation :—

No. 1,—Annual Receipts and Expenditures of the Province of Ontario from Confederation to 31st October, 1899, a Period of 32 Years and 4 Months.

Year.	Receipts.	Expenditures.
1867	1,156,857 36	611,410 61

No. 3a.—Dominion of Canada—Expenditure Transactions.

Retained by Dominion as interest upon share of excess debt of late Province of Canada to 30th June, 1873, at the rate of five per cent. per annum, eleven half-yearly sums of $145,833.33 each		$ 1,604,166 63
Retained by Dominion, differences in rate of interest upon funds held solely on behalf of Ontario to 31st December, 1883, sixteen yearly sums of $12,997.65 each		207,962 40
Net collections by Ontario of sales by the late Province of Canada of Common School Lands, awarded to be held by the Dominion in trust for Ontario and Quebec, payments made by following transfers:—		
11th January, 1889, Collections to 31st Dec., 1887....	$ 925,625 63	
20th April, 1890, " " " 1889....	11,103 70	
28th July, 1898, " " " 1892 ...	16,277 46	
16th Dec., 1898, " " " 1897....	47,535 17	
		1,000,541 96
Total of Expenditures (Statement 3, item 1).		$2,812,670 99

Receipts.

The receipts of the Province since Confederation have been $103,815,404 42, namely:

Dominion Government.....	$47 624,136 35
Territorial Revenue.....	34,740,205 78
Earnings and Repayments	10,833 459 05
Licenses, Stamps and Fees	10,397,679 23
Unclassified.....	219,924 01

It will be seen that from the first two sources named have come four-fifths of the entire receipts, the remaining one-fifth falling into two nearly equal parts, under the headings of Earnings and Repayments and Licenses, Stamps and Fees.

During the earlier years the payments by the Dominion supplied more than one-half of the needs of the Province, and although the proportion must steadily diminish, it is still one-third.

The receipts from the Department of Crown Lands have been one-third of the whole. They include collections which, as the result of inherited statutory obligations, were separated from the ordinary receipts from Crown Lands. The Province is gradually discharging these statutory obligations, and the entire receipts from Crown Lands will eventually form part of the ordinary Consolidated Revenue Fund, thus becoming subject to direct appropriation by the Legislature.

Of the sum of $10,833,459.05 under the heading of Earnings and Repayments, only $3,334,347.32 can be described as earnings; the remainder being either investments repaid, or deductions from expenditures. The receipts from Prisons, Asylums and Educational Establishments, although usually spoken of as earnings, in reality constitute a repayment of a small portion of the cost of these establishments

The proceeds of Annuities sold are regarded by the department as replacing to that extent payments of Railway Certificates, thus extending the aid to railways over a further period of forty years. In this view the Railway Certificates and the Annuity Repayment certificates are alike regarded as a charge upon the year in which they mature. Both have formed part of the yearly financial statement submitted to the House, but they have been excluded from the liabilities of the Province, which have been limited to those immediately payable.

About one-tenth of the income of the Province since Confederation has been supplied by Licenses, Stamps and Fees, viz, $10,397,679.23, and more than half of this has come from liquor licenses.

Relations with the Dominion of Canada.

It appears that the Dominion did not at once, on 1st July, 1867, divest itself of the conduct of all Provincial transactions, the withdrawal being gradual and not completed until 1873. Some confusion is apparent in the accounts of this period previous to 1873, and from them the exact course of events cannot always be made out. The amended statements submitted to the Legislature with the financial returns of 1869 deal only with such transactions as were apportioned to the Consolidated Revenue Fund. These and later returns show amountsas received from the Dominion, which were, in fact, retained by the Dominion, and other amounts as paid to the Dominion, which, in fact, were deducted by that Government from the Provincial subsidy. These retentions aggregate $1,812,129.03, (Statement 3a). The statements here submitted follow these returns and include the portion of the subsidy to the Province of Ontario retained by the Dominion of Canada. They also attempt to assign the earlier transactions to the year in which they occurred, rather than to that in which they reached the Treasury Books.

During the first seven years the receipts of the Province greatly exceeded its expenditures, reaching at the end of this term nearly five million dollars. During the remaining twenty-five years there has always been considerable, and at times large sums on hand or invested. The interest earned for the Province by this unexpended money has aggregated $3,334,347.32 or $103,160 per annum, which is equivalent to four per cent interest upon a continuous investment of over two and a half millions of dollars.

The Province has further received from the Dominion a still larger amount, $6,743, 524.48, (Statement 2b), by way of interest upon special funds held by the Dominion, and whatsoever amount of principal was to be found by arbitration as due to the Province at Confederation still remains due, with the exception of $500,000 received thereon in 1891.

Expenditures.

More than one half of the $103,218,525.46 expended by the Province may be classified under three headings, viz :

1. The Care of the Afflicted. 2. The Education of the Young. 3. The Administration of Justice, although in the matter of cost this is a less important item than the first and second.

The item of Civil Government, $5,928,352.68, includes the inside services of nearly every department and the further classification of this large item is not practicable.

The outlay upon construction of public buildings, $9,548.858, 63, namely :

Governmental and Judicial	3,158,176.40
Asylum and Reformatory	5,113,386.74
Educational and Agricultural	1,277,295 49

together with the repair and maintenance of these buildings, lend themselves more readily to classification, but the figures are incomplete inasmuch as land values in almost every case and outlays prior to confederation in all cases, are not included : moreover in the case of the Andrew Mercer Reformatory an amount, $89,708 94 disbursed by the Attorney General's Department, is not included in the cost of that institution or as a receipt or expenditure by the Province.

The divisions in the statement herewith submitted, therefore, do not attempt to adjust the expenditures further than by following the arrangement adopted in the returns submitted to the Legislature. The expenditures classed as " Unforeseen and Unprovided for " might to a large extent be divided among the main services. On the other hand, of the larger item of " Expenditures unclassified,"$788,881.27, very little could be so divided.

SECTION 2.

To submit a statement of the moneys expended out of revenue (*a*) on Public Works and Buildings, (*b*) on Railways for each year since Confederation.

The following statements numbers 4, 5, 6, 7, and 8 show the expenditure by years since Confederation on (*a*) Public Works, including Drainage work for municipalities partly recovered, Land Improvement and Colonization Roads, on (*b*) Public Buildings, and on (*c*) Railways, (Statements 4 & 5). The expenditure on Public Works is also given in detail, (Statement 6); on Public Buildings in detail with the recoveries from land sales in connection therewith and from the fire insurance on buildings destroyed or partially destroyed, (Statement 7); and on Railways in detail, (Statement 8) :—

Aid granted to 2,076 miles		8,813,876 07
Certificates outstanding 31st Oct., 1899		1,992,965 58
Cash expended to 31st Oct., 1899		$6,820,910 49

SECTION 3.

To examine and report upon the assets and liabilities of the Province on the 31st October, 1899.

The following statements, numbers 9 and 10, set forth the Treasury Assets and Liabilities of the Province, to which the Commissioners have added notes of explanation :

No. 9.—Assets 31st October, 1899.

Bank Clearances.

Ontario Bank	$38,878 56	
Canadian Bank of Commerce	58,467 58	
Imperial Bank	36,412 54	
Standard Bank	34,786 18	
Traders Bank	14,035 89	
Bank of Hamilton	13,590 45	
Current Balances	$196,171 20	
Less non-current balance	43 59	
		$196,127 61
Ontario Bank	$130,000 00	
Canadian Bank of Commerce	101,398 77	
Imperial Bank	60,000 00	
Standard Bank	20,000 00	
Traders Bank	70,000 00	
Bank of Hamilton	20,000 00	
Special deposits		401,398 77
Total of actual cash on hand		$597,526 38
Funds held by the Dominion in behalf of Ontario upon which interest at a rate of five per cent. per annum has been settled as payable to the province half-yearly :		
U.C. Grammar School Fund	$ 312,769 04	
U.C. Building Fund	1,472,391 41	
Land Improvement Fund	124,685 18	
Fund created under Act of 1884	2,848,289 52	
		4,758,135 15
Common School Fund held by the Dominion on behalf of the Provinces of Ontario and Quebec, upon which interest at the rate of five per cent. per annum is payable, divisible as between the provinces in ratio of the last decennial census, $2,521,371.10 ; upon basis of 1891 census, Ontario's share being		1,479,656 10
		$6,835,317 63
Direct investments :		
Drainage debentures	$118,019 30	
Tile debenture coupons	120,732 17	
Municipal drainage assessments	37,196 47	
Sault Ste. Marie debentures	29,152 65	
		305,100 59
		$7,140,418 22

No. 10.—Liabilities 31st October, 1899.

Balance of account current with the Dominion from Confederation to date, including Common School Fund and other transfers; capitalization of the bounty of the crown under tribal treaties assumed by the Dominion, the capital having been apportioned to the provinces under various awards, with interest upon said account current, and including interest as between Ontario and Quebec not finally adjusted		$2,000,000 00
Common School Fund collections by Ontario from 1st January, 1898, payable to the Dominion in trust for both provinces	$12,576 12	
Less Ontario's share upon basis of last census	7,308 24	
		5,267 88
Present value upon basis of 3½ per cent. per annum of:		
Annuity repayments	$1,937,231 90	
Railway certificates	1,180,483 00	
		3,117,714 90
Liability to other Crown Trusts in connection with certain land sales, the mortgages for which were taken over by these trusts upon the guarantee of the Consolidated Revenue Fund		59,562 15
		$5,182,544 93

Treasury Assets.

It is obvious that the ordinary commercial interpretation of what are assets or liabilities cannot be profitably applied to a province in possession of extensive powers of taxation. In the case of municipal bodies with limited powers of levying taxes, everything which is the property of the municipality, and which may be realised upon for the purpose of discharging obligations is generally treated as an asset. It would not be wise to apply this rule to the Province of Ontario, whose territorial rights are exercised quite apart from consideration of gain or of indebtedness. It would, for instance, be inconvenient and unnecessary to bring to account in the Treasury books the unpaid purchase moneys of public lands actually sold. Apart from the Crown Lands, the disposal of which is a matter of public policy, the Province possesses in the city of Toronto and in its neighborhood lands once used for the Legislative buildings and as part of other public institutions but now no longer needed, such lands possessing an aggregate value of several hundred thousand dollars. These properties would in the case of a municipality be properly returned as Treasury assets, but in the case of Ontario it would doubtless be unwise so to regard them until they have been actually realised upon. The administration of the bounty of the Crown as conferred by the late Province of Canada upon Indian tribes as the aboriginal occupants of certain lands became under the B.N.A. Act the duty of the Dominion of Canada. The annual payments representing this bounty have been capitalized as if payable in perpetuity, and the Provinces of Ontario and Quebec have been rateably charged with the amount, $906,280. This money is held by the Dominion in trust as between the eighteen tribes and the two Provinces, and as by the merging of these tribes in the general population these payments may be gradually extinguished, the trust fund is clearly a liability of the Dominion, and although perhaps not an asset of either Province it is certainly a matter of which account should be kept.

The statement submitted limits the assets to $7,140,418 22, being the actual cash on hand and the funds upon which the Province actually receives interest from year to year. The direct investments form only $305,100 59, a sum which is justly owing to the Province by Ontario municipalities, as to whose ability to discharge the obligation there is no doubt.

More than six million dollars consist of five funds held by the Dominion of Canada. Three of these, The Upper Canada Grammar School Fund, the U. C. Building Fund and

the Land Improvement Fund have been so held since Confederation, and they have been declared by the Inter-Provincial Arbitrators to be intact and unimpaired and to be held exclusively for the benefit of Ontario.

The fourth fund, $2,848,289.52, also held exclusively for the benefit of Ontario, was created under a Dominion statute in 1884. It is practically a refund to Ontario of various amounts retained as interest by the Dominion upon an assumed excess debt of the late Province of Canada, with interest upon said retentions to 1884, capitalized. The amounts appearing in the 1884 statute are,

Principal moneys	$1,663,239 00
Interest accretions	1,185,050 52
Fund created	$2,848,289 52

The principal moneys appear in the Ontario books as $1,604,166 63 (Statement 3a).

The fifth fund is held for the joint benefit of Ontario and Quebec and consists of the proceeds of Common School land sales which have been the subject of much discussion. Two of the four awards upon this question made by the Inter-Provincial Arbitrators are yet in appeal, although we understand that neither the amount of the trust nor the apportionment of interest thereon is involved.

Among the expenditure transactions with the Dominion appears a claim made by the Province upon the Dominion for interest, viz: $207,962 40, but this claim of the Province was not allowed (Statement 3a).

The rate of interest upon the entire amount held by the Dominion for Ontario being settled at five per cent. per annum without termination or date for repayment, the question of the exigibility of the principal amount due by the Dominion should not require consideration, as it is obvious that it would be a great misfortune for the Province if the Dominion Government had the power to pay the debt. What we have to deal with is the fact that the Dominion is required to pay Ontario interest to the extent of $312,000 per annum. The debt on which this interest is payable is $6,237,791, but the actual present value of the income of $312,000 per annum at the moment is about $9,000,000 considering money to be worth 3½ per cent. per annum, the value assigned to it in calculating the obligations of the Province.

It might occur to those unacquainted with the manner of fixing the present value of semi annual payments of interest where the principal sum does not become payable at a fixed date, or never becomes payable, that such an asset is not as available for the purposes of the Province as if the principal sum could be obtained and the interest payments be terminated. If any hold such a view we venture to say that it is quite unsound with reference to the obligations of the Dominion Government to the Province of Ontario. It is quite clear that the semi-annual payments can be hypothecated and the present money value be thus obtained, and we have shewn that if the Dominion Government cannot force the Province to take the principal sum the asset is enormously increased in value because of the high rate of interest fixed by statute. But in order to set at rest such a view the Commissioners requested the Provincial Treasurer to communicate with the Minister of Finance in order to ascertain whether the Dominion would pay the sum of $2,848,289.52, being the fund created under the Act of 1884, provided the Province requested it to do so. We subjoin the correspondence, which leaves no doubt that if the Province should desire to forego the privilege of receiving 5 per cent. per annum in interest on this amount the Dominion will be quite willing to repay the principal.

"Toronto, Dec. 29th, 1899.

"My Dear Sir,—The Government of Ontario have appointed a royal commission for the purpose of enquiring into and reporting on the financial affairs of the Province. For the purpose of assisting the Commission in the prosecution of their enquiry, I am desirous of ascertaining how your Department regard the sum of money ($2,848,000) which has been placed to the credit of the Province by Chap. 4 of the Statutes of 1884.

"Although we have not called on the Dominion for payment of this money, we have assumed in our accounts that it belongs to the Province, and that if we had desired to use it for Provincial purposes we would have been free to do so.

"Kindly let me know the view which your Department takes of this question.

"Yours truly,

"G. W. ROSS."

"Hon. W. S. FIELDING, M.P.
"Minister of Finance,
"Ottawa."

"OTTAWA, January 12th, 1900.

"MY DEAR MR. ROSS,—I have the honor to acknowledge receipt of your letter of the 29th ultimo on the subject of certain moneys placed to the credit of your Province in the accounts with the Dominion.

"The advantages to the Province in permitting these moneys to remain to the credit of the Province in the Dominion, where they yield to the Province five per cent. interest, are so obvious that I do not suppose you are contemplating their withdrawal. As a pure matter of finance between the Dominion and the Province, it would of course be profitable to the Dominion to pay you the money, as we could easily raise it at much lower rates.

"I do not think your Government have any unconditional right to demand this money from the Dominion. There are certain limitations provided by the statutes; but no doubt if you desired to obtain the money, you could easily comply with these conditions.

"In the earlier history of confederation it appears to have been contemplated that the moneys placed to the credit of the provinces in what was called the Debt Account should remain in that account, and the annual interest be paid to supplement the allowances for the support of the provincial governments. I find, however, that in 1874 there was a change of policy in this respect. Section 2 of Chap. 17 of the Statutes of that year provides as follows:

"'The Governor-in-Council may in his discretion advance from time to time to any Province of Canada such sums as may be required for local improvements in the Province, and not exceeding in the whole the amount by which the debt of the Province for which Canada is responsible then falls short of the debt with which the Province was allowed to enter the Union, such advances to be deemed additions to the debt of the Province, with permission to the Province to repay them to Canada, on such notice, in such sums and on such other conditions as the Dominion Government and that of the Province may agree upon, any amount so paid being deducted from the debt of the Province in calculating the subsidy payable to it.'

"Under this statute it appears to have been intended that the moneys at the credit of the provinces could be withdrawn for the purpose of assisting in the construction of provincial public works. Considerable sums were so drawn by the Provinces of Nova Scotia, New Brunswick, British Columbia and Manitoba.

"By chap. 4 of the Acts of 1885 the section above quoted was re-enacted with a further limitation placed upon the action of the provincial governments by requiring the passage of a provincial statute as a basis for an application to the Dominion Government for payment of these moneys.

"I think that practically the Act of 1884 operates as an extension of the Acts relating to the Debt Account, and that, therefore, the moneys credited to Ontario by the Act stand in the same position as a balance of debt account favorable to a province under the B.N.A. Act. This was the view apparently taken by this Department in 1884, and since continued, as appears by the Public Accounts.

"Looking at these several Acts, I am of opinion that you would not have the right to draw these moneys for the ordinary purposes of government; but that Parliament intended that they might be withdrawn by a provincial government, with the previous sanction of the Legislature, for local improvements. I have no reason to doubt that if, instead of raising the moneys for your public works by the issue of securities, you had seen fit to make application, under the Acts above cited, for a portion of these moneys

from the Dominion, the government of the day would have recognized this as a proper use of the moneys, and would have authorized the payment of the sum required.

"If you desired now to withdraw, subject to the above conditions, any moneys standing to the credit of the Province, there would not be any objection to your so doing.

Yours faithfully,

"The Honourable G. W. Ross, Premier of Ontario, Toronto.

W. S. FIELDING, Minister of Finance.

Treasury Liabilities.

Under Cap. 21 of R. S. O. it would seem quite plain that entries in connection with the various services cannot arise in the Treasury books until after appropriation by the Legislature. Hence pensions and distributions though recurring from year to year if not paid during the year fail to be included in the succeeding year's accounts, It has been the practice to regard certain small recurring payments of this class as liabilities. We submit that a better practice would be to treat as liabilities only such obligations as are entered into by the Province in its corporate capacity.

The item styled "Balance of the Account Current with the Dominion" is the result of the transfer of the Common School land collections and of the findings of the Arbitrators which have fallen in favor of the Dominion. The commissioners have had interviews regarding this item with Mr. Æmilius Irving, Q. C., who has acted as counsel for the Ontario Government in the matters submitted to arbitration, and they are provided by him with a statement in detail which sets forth the debt of Ontario to the Dominion as about $1,820,000 In view, however, of an unsettled balance of interest with Quebec, and of some interest adjustment with the Dominion, we have thought well to adopt the figure lately used by the Provincial Treasurer, viz: $2,000,000. We understand that this balance may be paid by Ontario to the Dominion as soon as the account is settled.

The small amount of Common School land collections since 1st January, 1898, is payable in pursuance of an award.

The various certificates issued as aid to railways and the annuity certificates extending the same are included as a liability of the Province. The aggregate present value of these is less than a single year's revenue. The practice of the Department is to regard them as a charge upon future years and not as a liability presently payable. That they will be paid from the revenue of future years without any impairment of investments may be regarded as highly probable, but in the opinion of the Commissioners they should not on that ground be omitted from any statement of liabilities.

SECTION 4.

To examine the books of the Treasury Department and to report whether the methods of bookkeeping adopted by the said Department set forth clearly and with such reasonable details as are usual in the case of large financial institutions, the business affairs of the Province.

This enquiry has been directly reported upon in connection with Section 1 of the Order in-Council, where we have shewn that the methods of bookkeeping are excellent and exhibit in as full detail as in an ordinary financial institution, all of the financial transactions of the Province, but it may be advisable that the Commissioners should in addition, offer suggestions in connection with the form of return used by the Provincial Treasurer in laying before Parliament the details of his Department, and of the nature of the information regarding assets of the Province which are not Treasury assets, that might be afforded by other Departments.

The Form of Return.

The financial return presented to the Legislature consists of detailed statements of the year's transactions prefaced by three general statements. The Summary Statement, numbered one, apportions the year's transactions partly to the Consolidated Revenue Fund and partly to open accounts. Statement numbered two deals with the latter, whilst that numbered three deals with the former. It is difficult to understand the grounds

upon which such a division was made. The return first took this form in 1870, and it seems probable that the then Treasurer, the Hon. E. B. Wood, thought some advantage might accrue from making a distinction between transactions upon Capital Account and those upon Income Account. At any rate the official from Ottawa who was entrusted with the work, gave effect to this view. The estimates for the year 1868 were submitted with the following preface :—

NOTE —" The great bulk of the expenditures for education and for the administration of justice are provided for by various Acts of Parliament, but it is considered most convenient to include all expenditures in the estimates. It is perhaps advisable to remark, that the estimates do not touch any of the subjects which by the Constitutional Act are to be determined by arbitration."

The same preface would not have been inappropriate to any succeeding annual statement submitted to the Legislature.

Pending the settlement of accounts with the Dominion and the Province of Quebec, the statements of the Province have continued to be in some respects provisional, for no account has yet been taken in the books of the Department of the subject matter of the Inter Provincial Arbitration, nor of any matters other than actual cash receipts and expenditures, and no adjustment has been made having for its object the setting forth of the result of these.

The Consolidated Revenue Fund Act, R.S.O., cap. 21, very plainly directs that to this fund must go all receipts over which the Legislature have the power of appropriation. Nowhere does this statute contemplate the making of any distinction as between capital moneys or income moneys, the term " Revenue " being used in a sense which includes both.

The second statement of the printed return is a list of accounts arising in the Treasury books. It represents what in a financial institution would be a statement of assets and liabilities, or a balance sheet, and it has no doubt often been so regarded by those called upon to consider Provincial finance. The statement in question is a mere trial balance, puzzling at many points even to those intimate with the course of Provincial finance. The cash items and several others are alone proper Treasury accounts. The remainder deal with past transactions on behalf of other departments of government.

Certain obligations of the Province, both inherited and self-created, had a restraining influence upon earlier expenditures. The Public Lands Act, 16 Vic., cap. 159, and various later enactments appropriate portions of past and future receipts to specific purposes, placing the Province in the position of trusteeship, and it may well have seemed prudent to hold actual cash reserves in order to discharge such obligations. The Consolidated Revenue Fund Act itself specifies applications of receipts, and directs as to investment of surplus funds.

Such investments are to be on the fund account, and not in respect of any of the quasi trusts themselves. Moreover, there is no discretion to retain funds in hand. It is now plain that the Revenue Fund of the Province of Ontario amply suffices for all possible demands upon it. It is equally plain that it is both unnecessary and economically disadvantageous to retain large cash reserves.

Under these circumstances, there appears no reason why the provisions of R.S.O., cap. 21, should not be adhered to; in which case Statement numbered three of the annual returns will become no longer necessary. Statement numbered two would become a Treasury balance sheet, dealing exclusively with financial assets and liabilities adjusted to the date of the return. So long as the cash and investments of the Province exceeded its liabilities so adjusted, the balance of this account would be properly described as a surplus. Should the liabilities exceed the assets, then the balance of this account would be the net indebtedness of the Province. Such a return would be useful in many directions, but in the past the unsettled accounts with the Dominion and the Province of Quebec have formed a bar to its creation.

ASSETS OTHER THAN TREASURY ASSETS.

It has already been stated that in the opinion of the Commissioners the balance sheet of the Province should be confined on the asset side to what are here called Treasury assets. But it does not follow that the Province should be without a record of the value of such properties as do not come under the definition of Treasury assets. It might be

well to have prepared from time to time a statement of the properties connected with the various departments of government and the institutions belonging to the people under control of the Crown as represented by the Provincial Government, with an approximation of the value of each based upon the cost of construction, if no better basis can be found.

If any of these properties are no longer used as public institutions, such as the old Parliament block, and are therefore assets which may be turned into money applicable to the uses of the Province, they might be set forth in a separate statement.

These statements would naturally take their place along with other statistical information, and indeed the necessity for complete statistical returns from each branch of government is becoming more and more apparent.

The Commissioners have not overlooked the fact that the most valuable assets possessed by the Government, viz., those under control of the Crown Lands Department, are not susceptible of being treated in statements in which money values are the precise measure, but much information regarding the value of such assets might reach the people under an enlarged scheme of statistical returns.

In order, for instance, to be able to judge whether the large amounts received by the Province from the woods and forests have in effect been upon capital or income accounts, the area of each class of timber having commercial value remaining to be leased, the area of each class that has been leased, and the area of that once under lease, but which has reverted to the Department, should be known. The extent to which reforestation is practicable in the unsettled and in the partially settled districts is also information which it would be of great value for the people to possess. Almost equally useful but much more difficult, would be an intelligent return dealing with Crown Lands generally in the vast unsurveyed areas.

All which we the said Commissioners respectfully submit.

(Sgd.) B. E. WALKER,
Chairman.
(Sgd.) JOHN HOSKIN.
(Sgd.) ANGUS KIRKLAND.
